

New application for registration of trademark or collective mark to The Norwegian Industrial Property Office (NIPO) for non-citizens

If you do not have a Norwegian ID number, use this form. Otherwise, use our other form:

[Application for trademark or collective mark](#)

Note that you cannot change information in the application so that the right is expanded after you have filed the application. Please contact our information centre if you have any questions about completing the form.

Your application will become public

Your application and all the documents related to it will be published on our website. In principle, we shield sensitive and confidential information.

You can ask us to exempt business secrets from public disclosure (the actual mark or the text in your mark is not counted as a business secret and cannot be made exempt from public disclosure). Highlight clearly what information in the application or attachments you wish to be exempt. We will then assess whether the information can be exempt from public disclosure. Use the 'Other information' field on the 'Information about goods and services' page to draw our attention to this.

Read more about how The Norwegian Industrial Property Office processes personal data on our website.

We will address all communication on the application to the attorney. We will regard you as an attorney if you file the application on behalf of someone else. Remember that you must submit a copy of the power of attorney unless you are a solicitor or trainee solicitor and represent the applicant personally. You must type your title before your first name in the application.

You should attach a copy of the power of attorney under the 'Overview – form and attachments' tab at the top left-hand side of the page. The power of attorney form from patentstyret.no can be used for this purpose.

Trademark/collective mark

Indicate here what type of applicant is concerned.

This is an application
for registration of:

Trademark

A registered trademark gives the applicant(s) sole right to use the trademark as a recognisable sign for their goods and/or services.

Collective mark

A registered collective mark can be used by all actors who fulfil the conditions set for use of the mark. A collective mark is a recognisable sign for use by members of an association, or is a guarantee or control mark. Individuals cannot hold a collective mark. An application for registration of a collective mark must comply with the collective mark regulations which are to specify use of the collective mark.

More information about your mark

You can only apply for registration of one mark in one application. If you wish to apply for more versions of the mark (for example with different colours or different letters), you must file a separate application for each of these. You cannot make substantial changes to the mark after you have submitted the application. If you are in doubt about what type of mark to choose, you should read the guidance or contact us.

The mark is a:

Note that you cannot necessarily obtain sole right to marks that only describe goods or services (e.g. 'Oslo Frisør' for a hairdressing salon in Oslo).

Combination mark or pure figure mark

Important information about the list of goods

The list of goods is the list of goods/services for which you want the trademark to be registered. You set up a list of goods by entering your goods/services in the fields below. You must specify the goods/services for which you are using the trademark today or for which you plan to use it in the near future. The sole right and therefore the protection you obtain by registering the mark are linked to the goods/services you specify here.

Assistance in completing the form

Are you wondering which class to choose when selling your own or other's products?

[Watch Our short video
\(only in Norwegian\)](#)

Example showing how to fill in classes, goods and services

Note, the list of goods must be in Norwegian. For example, if you are planning to use your trademark for the goods coffee, and for a coffee shop, you can set up your list in the following way:

Class number	30
Goods/services	kaffe
Class number	43
Goods/services	kaféer

You can use the link to the Norwegian Industrial Property Office product selector (classification assistant) to search for specific goods/services and find the classes in which they are included. A very large number of pre-approved goods/services are enumerated in our product selector. You can copy the goods/services you find there and paste them into the field below.

You only have to complete this page if you have previously filed an identical application abroad, or if you have shown the mark at an international exhibition and wish to apply for priority.

I claim priority based on a previous application

If your mark is registered, you will in principle obtain protection from the date on which you filed the application. If you have previously filed an identical trademark application abroad, you can claim priority. This means that your mark already obtains protection from the date of filing abroad. To claim priority, complete the fields below and filing the application within 6 months from the filing date abroad.

If you chose Bokmål as language when you logged in, please use this date format: dd.mm.yyyy. If you chose English, use mm.dd.yyyy.

I claim priority based on previous exhibition

You may ONLY claim this priority if the exhibition is approved by the international organization 'Bureau International des Expositions'. The exhibition must be on their website: <https://www.bie-paris.org/site/en/>

Are you claiming priority based on previous Expo-exhibition?

☐ Yes

☐ No

I claim priority based on conversion from international registration to national application

Conversion means that you can obtain the priority date for a ceased international registration, if you continue this as a national application or registration. The application must be filed at the Norwegian Industrial Property Office within three months after the date of lapse (the date on which the international registration ceases).

Are you claiming conversion?
