Applicant: Vladimir Stollmann, Stefan Ilcik, Jozef Suchomel, Peter Smal

Title: Rekuperativ kabelbanesystem med brenselceller

Annulment of dismissal of patent application no. 20130885

We refer to our letter dated 215.05.15 which explained that the patent application mentioned above was dismissed in accordance to the Norwegian Patents Acts, Section 15.4 of 2014.11.30 due to non-payment of the annual fee for year 4.

It turns out in retrospect that the fee was in fact paid and received on time in our bank accounts.

The Norwegian Industrial Property Office has therefore made the following decision:

«The dismissal is hereby annulled and the application is now being proceeded»

We apologize for this and hope you are satisfied with the new decision.

We received NOK 1936,55 to cover the annual fee for year 4 including the late fine fee paid by Jozef Suchomel. See letter attached.

In order to refund Mr. Jozef Suchomel the extra NOK 316,55 we need bank account number, BIC and IBAN.

Please send this information by e-mail to renewal@patentstyret.no

Sincerely,

Eva Irene Skaug
