Office action in patent application no. 20170575

Basis of the opinion

Description: received 2018.05.09
Claims: received 2018.05.09
Drawings: received 2017.04.06

We refer to your letter dated 2018.05.08.

The present claims are considered acceptable for grant of patent (cf. our letter of 2017.11.14).

The Norwegian translation of the claims should be paginated in continuation of the English language claims (i.e. as pages 14 and 15). Bibliographic information at the top of the first page must be removed. The heading to page 14 should be "Patentkrav".

The information given in the last two paragraphs of the description (page 11, line 21-28) seems superfluous. It may also be considered to be of a kind that creates uncertainty with regard to the scope of protection, ref. "patentretningslinjene (pr.) del C, kap. III, punkt 4.3 (d)" (guidelines for examination). Said paragraphs should therefore be deleted in their entirety.

You are requested to submit new amended documents according to the above. The documents must be arranged for publication of the patent.

Time limit for response

You are invited to submit a written response within the due date above. You may respond via [Altinn](#). If you fail to respond, the application will be shelved. However, the processing of the application may be resumed by paying a fee. Ref. Norwegian Patents Act, Section 15, third paragraph and Regulation Relating to Payments etc. to the Norwegian Industrial Property Office and the Board of Appeal for Industrial Property Rights (Regulation on fees), Section 26. You may request an extension of the due date, see «patentretningslinjene del A, kap. I, punkt 5.1» Examination Guidelines, part A, Chapter I, 5.1 (in Norwegian only). This must be done within the due date.

For general provisions regarding submitting of documents and payments, see Regulation on fees, Sections 1-6 and 8.

Sincerely,

Ragnar Bårdsgård
