Norwegian patent application no. NO 20180975 - OceanTech Innovation AS

We are referring to the Office Action dated 2019.11.05.

The applicant appreciates that the examiner has found the claims to be novel and inventive.

Attached is documents ready for printing wherein the following amendments have been made:

- A mentioning of the cited prior art publications D1-D5 has been included in the description.
- The description and claims have been proofread and amended for typing errors and for improved language, where appropriate. It should be mentioned that the deficiencies of the first office action have been attended to.
- The figures have been amended and now meets the requirement for reproduction/publication.

The examiner will appreciate that the amended specification is attached both in tracked and clean versions.

Attached is also a Norwegian translation of the claims of the documents ready for printing.

The application is thus in a state where the application may be approved for grant without unnecessary delay.

Best Regards

Erland Smemo
