Hallo i am Banksy and i represent Pest Control Office Ltd, i am really starting to find this really annoying.

Pest control office Ltd have no complaints and have no problem with the already registrated trade mark/ copyright`s from the Norwegian company Dyrehotellet Pets Paradise AS.

Pest Control office Ltd have the knowledge that Dyrehotellet Pets Paradise AS have used the brand for making a lot of different stuff from it was first registrated, so therefore Pest Control Office Ltd and Banksy has no questions or complaints about the usage of the copyright eighther.

Like i said before the lawfirm sands are not representing Pest Control Office Ltd or Banksy.

Pest Control Office Ltd have no complains and have no objection of the new registration in question from the Norwegian company Dyrehotellet Pets Paradise AS.

Pest Control office Ltd and Banksy want the already existing copyrights that is already registrated to Pest Control Office Ltd and those to Dyrehotellet Pets paradise AS to stay as is, and like they where set up. Please let the new registration from the Dyrehotell Pets Paradise go as planned as quickly as possible..

We will strongly advise that the lawfirm sands drop this fishing expedition for whom ever they represent, they do not represent Pest Control Office Ltd or Banksy.

The company number is public information so is the address and information about the company, and everybody can find a lot of info about Banksy as a artist aswell.

I'm sure a lot of companies find them selves in this type of «attempt`s of fraud» situations from time to time. But a law firm should know better than

being a part of what we see as an attempt of fraud and a serious criminal offence, my Barristers and Lawyers may find this quite entertaining but they really don't laugh that much, neither do my Judges or agencies.

Love from
