Application no.: 20210133

Title: Method of seismic inversion using artificial kinematic constraints

Applicant: PRE STACK SOLUTIONS GEO AS, Vita Kalashnikova

In response to the communication pursuant to Office action dated January 31 , 2022

Dear Examiner:

In response to the Office Action mailed on January 31, 2021, the Applicant respectfully requests entry and consideration the following amendments and remarks.

Remarks:

The Applicant thanks the Examiner for the clear direction given in the office action and addresses the Examiner's comments below.

Claim amendments:

The applicant has amended the independent claim 1. The support for the amendments can found in Paragraph [0025]. In addition and to give more accuracy the applicant has added the new claim 7.

Description amendments:

As suggested by the Examiner, the applicant has added a paragraph [0007] that briefly describes the Document D1 to give the correct background for the invention.

Conclusion

With the amendments to the claims and the above explanations, it is submitted that Applicant has met the requirements as set forth in the communication.
