Enclosed is a translation of the patent claims in Norwegian. Please note that as per the Norwegian Patents Acts, section 66i the patent will receive protection in Norway only as far as there is agreement between the translation and the language of the application/patent granted at the EPO. In matters concerning the validity of the patent, language of the application/patent granted at the EPO will be used as the basis for the decision. The patent documents published by the EPO are available through Espacenet (<http://worldwide.espacenet.com>) or via the search engine on our website here: <https://search.patentstyret.no/>

Patentkrav

1. Anti-CD39-antistoff, omfattende:
 - en variabel lett kjede (VL) omfattende CDReNe av VL-kjeden som kan oppnås fra hybridom deponert som CNCM-I-3889; og
 - en variabel tung kjede (VH) omfattende CDReNe fra VH-kjeden som kan oppnås fra hybridom deponert som CNCM-I-3889,hvor nevnte antistoff hemmer T-regulerende celle (Treg) aktivitet.
2. Antistoff ifølge krav 1, hvor antistoffet omfatter:
 - en tung kjede variabel region som har aminosyresekvensen som angitt som SEKV ID NR: 1; og
 - en lett kjede variabel region som har aminosyresekvensen som angitt som SEKV ID NR: 5.
3. Antistoff ifølge hvilket som helst av kravene 1-2, hvor antistoffet er valgt fra gruppen bestående av et Fv, Fab, F(ab')₂, Fab', dsFv, scFv, sc(Fv)₂, en diabody og multispesifikke antistoffer dannet fra antistoffragmenter.
4. Antistoff ifølge krav 1, hvor antistoffet er et kimært eller humanisert antistoff.
5. Farmasøytisk preparat som omfatter et antistoff ifølge hvilket som helst av kravene 1 til 4 og en farmasøytisk akseptabel bærer.
6. Anti-CD39-antistoff ifølge hvilket som helst av kravene 1-4 for anvendelse for å behandle eller forebygge en sykdom valgt fra gruppen som består av cancere og infeksjonssykdommer.
7. Anti-CD39-antistoff for anvendelse ifølge krav 6, hvor nevnte sykdom er valgt fra gruppen bestående i lungecancer, brystcancer, eggstokkcancer, melanom, levercancer, magecancer, lymfecancer, tyroid cancer, gastrointestinal cancer, urogenital cancer og adenokarsinomer slik som koloncancer, nyre-cellecancer, prostatacancer, testikkeltumorer, ikke-småcellet karsinom i lungene, tynntarmscancer

og spiserørscancer.

8. Anti-CD39-antistoff for anvendelse ifølge krav 6, hvor nevnte sykdom er valgt fra gruppen bestående av infeksjon med virus, parasitter eller med bakterier.

5

9. Antistoff for anvendelse ifølge krav 8, hvor nevnte sykdom er valgt fra gruppen bestående av infeksjon med VIH, HBV, HCV, Plasmodium falciparum eller Mycobacterium tuberculosis.
