Enclosed is a translation of the patent claims in Norwegian. Please note that as per the Norwegian Patents Acts, section 66i the patent will receive protection in Norway only as far as there is agreement between the translation and the language of the application/patent granted at the EPO. In matters concerning the validity of the patent, language of the application/patent granted at the EPO will be used as the basis for the decision. The patent documents published by the EPO are available through Espacenet (<http://worldwide.espacenet.com>) or via the search engine on our website here: <https://search.patentstyret.no/>

**Patentkrav**

- 1.** CD47-inhibitor for anvendelse i en fremgangsmåte for behandling av kreft ved å øke fagocytose av levende tumorceller i et menneske, hvor nevnte inhibitor er et antistoff som binder CD47 på overflaten av en levende tumorcelle og derved hindrer bindingen av nevnte CD47 til en SIRPa-reseptor på overflaten av en fagocyt-cell for derved å målrette den levende tumorcelle for fagocytose.  
5
- 2.** CD47-inhibitor for anvendelse ifølge krav 1, hvor tumorcellene er akutte leukemi-cell.
- 3.** CD47-inhibitor for anvendelse ifølge krav 2, hvor tumorcellene er AML- eller  
10 ALL-cell.
- 4.** CD47-inhibitor for anvendelse ifølge krav 1, hvor tumorcellene er faste tumorceller.
- 5.** CD47-inhibitor for anvendelse ifølge krav 4, hvor de faste tumorcellene er karsinom-cell.
- 15 6.** CD47-inhibitor for anvendelse ifølge krav 5, hvor karsinom-cellene er ovariekarsinom- eller blære-karsinom-cell.
- 7.** CD47-inhibitor for anvendelse ifølge krav 5, hvor de faste tumor-cellene er glioblastom-cell.
- 8.** CD47-inhibitor for anvendelse ifølge krav 1, hvor nevnte antistoff er  
20 konjugert til et cytotoxisk middel.
- 9.** CD47-inhibitor for anvendelse ifølge krav 8, hvor nevnte cytotoxiske middel er valgt fra gruppen bestående av en radioaktiv isotop, et kjemoterapeutisk middel og et toksin.
- 10.** CD47-inhibitor for anvendelse ifølge krav 1, hvor antistoffet er et bispesifikt  
25 antistoff.
- 11.** CD47-inhibitor for anvendelse ifølge krav 1 eller krav 8, hvor CD47-inhibitoren målretter eller utarmer akutt leukemi stamceller i et menneske.
