Enclosed is a translation of the patent claims in Norwegian. Please note that as per the Norwegian Patents Acts, section 66i the patent will receive protection in Norway only as far as there is agreement between the translation and the language of the application/patent granted at the EPO. In matters concerning the validity of the patent, language of the application/patent granted at the EPO will be used as the basis for the decision. The patent documents published by the EPO are available through Espacenet (<http://worldwide.espacenet.com>) or via the search engine on our website here: <https://search.patentstyret.no/>

**Patentkrav**

- 5           **1.** Sammensetning for anvendelse i en fremgangsmåte for å mildne ett eller flere  
symptomer ved schizofreni, **karakterisert ved at** sammensetningen omfatter  
effektive mengder av en første og en andre aktiv forbindelse, hvori den første  
forbindelsen er et antipsykotisk legemiddel, og den andre forbindelsen er  
benzosyre eller et benzosyresalt, hvori benzosyresaltet er valgt fra gruppen  
bestående av natriumbenzoat, kaliumbenzoat, kalsiumbenzoat og litiumbenzoat,  
og hvori mengden av benzosyre eller benzosyresalt er tilstrekkelig til å øke  
10          effektiviteten til det antipsykotiske legemiddelet og spenner fra ca. 5 mg til ca.  
500 g.
- 15          **2.** Sammensetningen for anvendelse ifølge krav 1, hvori det antipsykotiske  
legemiddelet er valgt fra gruppen bestående av butyrofenon, fenotiazin,  
flufenazin, perfenazin, proklorperazin, tioridazin, trifluoperazin, mesoridazin,  
promazin, triflupromazin, levomepromazin, prometazin, tioxanten, klorprotixen,  
flupentixol, tiotixen, zuklopentiksolv, klozapin, olanzapin, risperidon, quetiapin,  
ziprasidon, amisulprid, asenapin, paliperidon, aripiprazol, en partiell  
20          dopaminagonist (BIFEPRUNOX®, NORCLOZAPINE ®(ACP-104)), lamotrigin,  
memantin, tetrabenazin, cannabidiol, LY2140023, Droperidol, Pimozid,  
Butaperazin, Carphenazin, Remoxiprid, Piperacetazin, Sulpirid, acamprosat og  
tetrabenazin (XENAZINE ®, NITOMAN®).
- 25          **3.** Benzosyre eller et benzosyresalt for anvendelse i en fremgangsmåte for å  
mildne ett eller flere symptomer ved schizofreni, hvori benzosyresaltet er valgt  
fra gruppen bestående av natriumbenzoat, kaliumbenzoat, kalsiumbenzoat og  
litiumbenzoat, og hvori mengden av benzosyre eller benzosyresalt er tilstrekkelig  
til å mildne ett eller flere av symptomene og spenner fra ca. 5 mg til ca. 500 g.
