Enclosed is a translation of the patent claims in Norwegian. Please note that as per the Norwegian Patents Acts, section 66i the patent will receive protection in Norway only as far as there is agreement between the translation and the language of the application/patent granted at the EPO. In matters concerning the validity of the patent, language of the application/patent granted at the EPO will be used as the basis for the decision. The patent documents published by the EPO are available through Espacenet (<http://worldwide.espacenet.com>) or via the search engine on our website here: <https://search.patentstyret.no/>

Patentkrav

- 5 **1.** Glatirameracetat i form av en farmasøytisk sammensetning for anvendelse i behandling av en menneskelig pasient som lider av en relapserende form av multippel sklerose i et regime med tre subkutane injiseringer av en 40 mg dose av glatirameracetat hver uke med minst én dag mellom hver subkutane injisering, og hvor den farmasøytiske sammensetningen ytterligere omfattermannitol og har en pH i området 5,5 til 7,0.
- 10 **2.** Glatirameracetat i form av en farmasøytisk sammensetning for anvendelse ifølge krav 1, som reduserer hjerneatrofi.
- 15 **3.** Glatirameracetat i form av en farmasøytisk sammensetning for anvendelse ifølge hvilket som helst av kravene 1 eller 2, hvor den menneskelige pasienten ikke har mottatt glatirameracetatterapi før initiering av behandlingen.
