Enclosed is a translation of the patent claims in Norwegian. Please note that as per the Norwegian Patents Acts, section 66i the patent will receive protection in Norway only as far as there is agreement between the translation and the language of the application/patent granted at the EPO. In matters concerning the validity of the patent, language of the application/patent granted at the EPO will be used as the basis for the decision. The patent documents published by the EPO are available through Espacenet (<http://worldwide.espacenet.com>) or via the search engine on our website here: <https://search.patentstyret.no/>

## Patentkrav

- 1.** En farmasøytisk sammensetning for anvendelse ved forebyggelse og/eller behandling av en nevrodegenerativ sykdom, idet blandingen omfatter desPro<sup>36</sup>Exendin-4(1-39)-Lys<sub>6</sub>-NH<sub>2</sub> og/eller et farmasøytisk akseptabelt salt derav, og eventuelt en farmasøytisk akseptabel bærer, adjuvans, og/eller hjelpesubstans.  
5
- 2.** Farmasøytisk sammensetning for anvendelse ifølge krav 1, hvor desPro<sup>36</sup>Exendin-4(1-39)-Lys<sub>6</sub>-NH<sub>2</sub> og/eller det farmasøytisk akseptable salt derav, fremstilles for parenteral administrering.  
10
- 3.** Farmasøytisk sammensetning for anvendelse ifølge hvilket som helst av de foregående krav, hvor den nevrodegenerative sykdommen involverer oksidativt stress, tap av nevritt integritet, apoptose, nevronal skade eller/og betennelsesrespons.  
15
- 4.** Farmasøytisk sammensetning for anvendelse ifølge hvilket som helst av de foregående krav, hvor den nevrodegenerative sykdommen er assosiert med kognitiv svekkelse.  
20
- 5.** Farmasøytisk sammensetning for anvendelse ifølge hvilket som helst av de foregående krav, hvor den nevrodegenerative sykdommen er valgt fra gruppen bestående av Alzheimers sykdom, Parkinsons sykdom, progressiv supranukleær lammelse (PSP), multippel system atrofi (MSA), Lewy-legeme demens, Parkinsons sykdom demens, epilepsi, slag, Huntingtons Chorea, cerebral hypoksi, multippel sklerose og perifer nevropati.  
25
- 6.** Farmasøytisk sammensetning for anvendelse ifølge krav 5, hvor perifer nevropati er assosiert med diabetes mellitus.  
30
- 7.** Farmasøytisk sammensetning for anvendelse ifølge krav 5, hvor den nevrodegenerative sykdommen er valgt fra gruppen bestående av Alzheimers sykdom, Parkinsons sykdom og slag.
- 8.** Farmasøytisk sammensetning for anvendelse ifølge krav 5, hvor Alzheimers sykdom er et tidlig stadium Alzheimers sykdom.  
35

- 9.** Farmasøytisk sammensetning for anvendelse ifølge krav 5, hvor Parkinsons sykdom er et tidlig stadium av Parkinsons sykdom.
- 10.** Farmasøytisk sammensetning for anvendelse ifølge hvilket som helst av de foregående krav, hvor desPro<sup>36</sup>Exendin-4(1-39)-Lys<sub>6</sub>-NH<sub>2</sub> og/eller det farmasøytisk akseptable salt derav, fremstilles for administrering i en daglig dose valgt i området fra 10 µg til 20 µg.
