Enclosed is a translation of the patent claims in Norwegian. Please note that as per the Norwegian Patents Acts, section 66i the patent will receive protection in Norway only as far as there is agreement between the translation and the language of the application/patent granted at the EPO. In matters concerning the validity of the patent, language of the application/patent granted at the EPO will be used as the basis for the decision. The patent documents published by the EPO are available through Espacenet (<http://worldwide.espacenet.com>) or via the search engine on our website here: <https://search.patentstyret.no/>

PATENTKRAV

1. Kombinasjonen av fytokannabinoidkannabidiolet (CBD) med terapeutisk hypotermi for anvendelse ved behandling av nyfødt hypoksisk-iskemisk encefalopati (NHIE).
2. Kombinasjonen for anvendelse ifølge krav 1, hvori CBD-et er i form av et planteekstrakt.
3. Kombinasjonen for anvendelse ifølge krav 1, hvori CBD-et er i en ren eller isolert form.
