Enclosed is a translation of the patent claims in Norwegian. Please note that as per the Norwegian Patents Acts, section 66i the patent will receive protection in Norway only as far as there is agreement between the translation and the language of the application/patent granted at the EPO. In matters concerning the validity of the patent, language of the application/patent granted at the EPO will be used as the basis for the decision. The patent documents published by the EPO are available through Espacenet (<http://worldwide.espacenet.com>) or via the search engine on our website here: <https://search.patentstyret.no/>

## Patentkrav

1. Sammensetning for anvendelse i behandlingen av en infeksjon forårsaket av en  
meticillin-resistent *Staphylococcus aureus* (MRSA)-bakterie, hvori resistensen skyldes en  
5 penicillinbindende protein 2a (PBP2a)-drevet mekanisme, sammensetningen omfattende:
  - i) minst ett karbapenem eller annet egnet  $\beta$ -laktam i stand til å binde det allosteriske  
setet til PBP2a;
  - ii) minst én  $\beta$ -laktamaseinhibitor; og
  - iii) minst ett  $\beta$ -laktam som binder den åpne konfigurasjonen til det aktive setet til  
10 PBP2a;hvori sammensetningen velges fra gruppen som består av
  - a) meropenem/piperacillin/tazobaktam (ME/PI/TZ);
  - b) cefepim/piperacillin/tazobaktam (CP/PI/TZ);
  - c) aztreonam/piperacillin/tazobaktam (AZ/PI/TZ);
  - 15 d) meropenem/amoksisillin/tazobaktam (ME/AX/TZ);
  - e) meropenem/amoksisillin/klavulanat (ME/AX/CV); og
  - f) imipenem/piperacillin/klavulanat (IM/PI/CV).
2. Sammensetningen for anvendelse ifølge krav 1, hvori forholdet mellom (i), (ii) og (iii)  
20 er 1:1:1.
3. Sammensetningen for anvendelse ifølge et hvilket som helst foregående krav, hvori  
sammensetningen undertrykker utviklingen av motstand mot sammensetningen.
- 25 4. Sammensetningen for anvendelse ifølge krav 1, hvori forholdet mellom (i), (ii) og (iii)  
er i området fra 64:1:1, 1:64:1 og 1:1:64 til 1:1:1.
5. Farmasøytisk sammensetning omfattende en effektiv mengde av en sammensetning  
ifølge et hvilket som helst av kravene 1–4, for anvendelse i behandlingen av en infeksjon  
30 forårsaket av meticillin-resistent *Staphylococcus aureus* (MRSA).
