Enclosed is a translation of the patent claims in Norwegian. Please note that as per the Norwegian Patents Acts, section 66i the patent will receive protection in Norway only as far as there is agreement between the translation and the language of the application/patent granted at the EPO. In matters concerning the validity of the patent, language of the application/patent granted at the EPO will be used as the basis for the decision. The patent documents published by the EPO are available through Espacenet (<http://worldwide.espacenet.com>) or via the search engine on our website here: <https://search.patentstyret.no/>

PATENTKRAV

1. Oral farmasøytisk sammensetning som omfatter pridopidin eller et farmasøytisk akseptabelt salt derav for anvendelse i opprettholdelse av funksjonell kapasitet, forbedre funksjonell kapasitet eller minske svekkelsen av funksjonell kapasitet hos en menneskelig pasient som er rammet av tidligstadium Huntingtons sykdom som har en basislinje Total Funksjonell Kapasitets (TFC) skåring på 7-13 på Unified Huntington's Disease Rating Scale (UHDRS)-skala, der sammensetningen har 90-225 mg med pridopidin i en daglig dose.
2. Oral farmasøytisk sammensetning for anvendelse ifølge krav 1, der svekkelsen av funksjonell kapasitet er minsket med minst 20%, minst 30%, minst 40%, minst 50%, eller minst 80%.
3. Oral farmasøytisk sammensetning for anvendelse ifølge krav 1 eller 2, der den funksjonelle kapasiteten er total funksjonell kapasitet (TFC), eventuelt der den totale funksjonelle kapasiteten blir målt med Total Functional Capacity (TFC)-skalaen i Unified Huntington's Disease Rating Scale (UHDRS).
4. Oral farmasøytisk sammensetning for anvendelse ifølge krav 1, der den funksjonelle kapasiteten som målt med Unified Huntington's Disease Rating Scale – Total Functional Capacity (UHDRS-TFC) blir opprettholdt eller forbedret, der en dose på 90 eller 180 mg med pridopidin blir administrert til den menneskelige pasienten per dag, og den farmasøytiske sammensetningen blir administrert i minst 26 eller 52 uker.
