Enclosed is a translation of the patent claims in Norwegian. Please note that as per the Norwegian Patents Acts, section 66i the patent will receive protection in Norway only as far as there is agreement between the translation and the language of the application/patent granted at the EPO. In matters concerning the validity of the patent, language of the application/patent granted at the EPO will be used as the basis for the decision. The patent documents published by the EPO are available through Espacenet (<http://worldwide.espacenet.com>) or via the search engine on our website here: <https://search.patentstyret.no/>

PATENTKRAV

1. Sammensetning som omfatter en GLP-1-agonist og ett eller flere farmasøytisk akseptable
hjelpestoffer for anvendelse i forebygging eller behandling av type 2-diabetes, hvori nevnt GLP-1-agonist
5 er semaglutid, hvori nevnt GLP-1-agonist administreres én gang ukentlig i en mengde på 1,0 mg, og hvori
nevnt GLP-1-agonist administreres ved parenteral administrering.
2. GLP-1-agonisten for anvendelse ifølge patentkrav 1, hvori nevnt GLP-1-agonist administreres ved
subkutan (s.c.) injeksjon.
10
3. GLP-1-agonisten for anvendelse ifølge et hvilket som helst av de foregående patentkravene, hvori
nevnt GLP-1-agonist er i form av et farmasøytisk akseptabelt salt.
4. GLP-1-agonisten for anvendelse ifølge et hvilket som helst av de foregående patentkravene, hvori
15 sammensetningen består av nevnt GLP-1-agonist og ett eller flere farmasøytisk akseptable hjelpestoffer.
5. Sammensetningen for anvendelse ifølge et hvilket som helst av de foregående patentkravene, hvori
pH på nevnt sammensetningen er omtrent 7,0.
