Enclosed is a translation of the patent claims in Norwegian. Please note that as per the Norwegian Patents Acts, section 66i the patent will receive protection in Norway only as far as there is agreement between the translation and the language of the application/patent granted at the EPO. In matters concerning the validity of the patent, language of the application/patent granted at the EPO will be used as the basis for the decision. The patent documents published by the EPO are available through Espacenet (<http://worldwide.espacenet.com>) or via the search engine on our website here: <https://search.patentstyret.no/>

Patentkrav

- 1.** Rekombinant Von Willebrand-faktor (rVWF) for bruk i en fremgangsmåte for behandling av von Willebrands sykdom type 2, hvori rVWF er en høymolekylær VWF-multimersammensetning som omfatter minst 40 % VWF-decamerer eller høyere ordens multimerer.
- 2.** rVWF for bruk ifølge krav 1, hvori rVWF er modnet in vitro ved behandling med Furin.
- 3.** rVWF for bruk ifølge krav 1 eller krav 2, hvori rVWF ikke eksponeres for ADAMTS13 under produksjon i cellekultur.
- 4.** rVWF for bruk ifølge hvilket som helst av kravene 1-3, hvori rVWF har en spesifikk aktivitet på 20 til 150 mU/μg pluss eller minus 10 %, eventuelt på 30 til 120 mU/ μg pluss eller minus 10 %.
- 5.** rVWF for bruk ifølge hvilket som helst av kravene 1-4, hvori VWF-multimersammensetningen med høy molekylvekt omfatter minst 50 % VWF-decamerer eller multimerer av høyere orden, mest foretrukket hvor VWF-multimersammensetningen med høy molekylvekt omfatter minst 60 % VWF decamerer eller høyere ordens multimerer.
- 6.** rVWF for bruk ifølge hvilket som helst av kravene 1-5, hvori rVWF ikke er modifisert med en vannløselig polymer.
