Internasjonale varemerkeregistreringer

Internasjonale varemerkeregistreringer som gjelder for Norge ved utpekning etter Madridprotokollen. Innsigelsesperioden utløper 2 mnd. fra kunngjøringsdato, jf. varemerkeloven § 51.

- Generell informasjon om kunngjøringer etter Madridprotokollen**
- Int.reg.nr.:** Det vil si det internasjonale registreringsnummer som WIPO har gitt søknaden om internasjonal registrering.
- Int.reg.dato:** Det vil si den dato en internasjonal registrering anses for å ha skjedd, jf. varemerkeloven § 53 og Madrid-protokollen artikkel 3 (4). Dersom den internasjonale registreringen besluttet gjeldende i Norge, vil registreringsperioden på 10 år regnes fra den internasjonale registreringsdatoen.
- Etterfølgende utpekingsdato:** Det vil si datoen for rettsvern i Norge hvor utpekingen ikke har skjedd i forbindelse med den internasjonale registreringen.
- Prioritet:** Internasjonale søknader kan påberope seg prioritet etter Pariskonvensjonen artikkel 4 fra det land merket først ble søkt registrert. Dette vil ofte være søkers hjemland idet en internasjonal registrering må bygge på en hjemlands-registrering eller -søknad.
- Besluttet gjeldende dato i Norge:** Det vil si den datoen det innføres i varemerkeregisteret at den internasjonale registreringen gjelder i Norge, jf. varemerkeloven § 51.

- Klasse:1 Acid gas eliminating filtering materials; catalysts; zinc oxide whisker crystals; photographic printing papers for video printers; photographic printing seals for video printers.
- Klasse:2 Toners; toners for copying apparatus and machines; toners for facsimile apparatus and machine; ink cassettes for video printers; bottled toners for facsimile machines.
- Klasse:6 Conduit tubes of metal; doors of metal; gates of metal; wireless operated garage doors of metal; mail boxes of metal; acid-resistant high-polymer cladding steel sheeting; steel panels for office flooring; welding wire; bands of metal for tying-up purposes; building boards of metal; safety cashboxes; safes (strong boxes); branching pipes of metal; building materials of metal; fittings of metal for buildings; building panels of metal; ceilings of metal; chests of metal; clips of metal for cables and pipes; door fittings of metal; drain pipes of metal; drain traps (valves) of metal; ducts of metal for ventilating and air-conditioning apparatus; elbows of metal for pipes; fences of metal; floors of metal; gutter pipes of metal; gutters of metal; ladders of metal; letter boxes of metal; nuts of metal; pipe muffs of metal; pipes of metal; poles of metal for electric lines; posts of metal for electric lines; nails; pipes of metal for guarding of electric wire; props of metal; roof coverings of metal; roofing of metal; roof flashing of metal; screws of metal; shutters of metal; steel pipes; steel tubes; wall claddings of metal (building); wall linings of metal (building); windows of metal; water-pipes of metal.
- Klasse:7 Welding machines; robots for metalworking; machines for inserting electronic components; dry etching machinery; micro electric-discharge machines; optical disc production systems; processing machines for printed wired board; parts mounting machines; gas-operated soldering machines; screw fastening machines; electric screw drivers; electric hand drills; motors, electric, other than for land vehicles; generators of electricity; (DC) direct current generator; (AC) alternating current generators; home electricity generating system; elevators (lifts); electric clothes washing machines; drums for electric clothes washing machines; electric dish washers; electric dish washing and/or drying machines; compressors; air compressors; centrifugal compressors; electric pumps; electric blender machines; electric juice extractors; electric food processors; electric meat grinders; electric can openers; electric knife sharpeners; electric coffee mills; electric ice crushers; electric garbage disposers; electric hand mixers; electric lawn mowers; garden sprayers for disinfectants and insecticides other than hand tools; electric vacuum cleaners; electric floor polishers; chip mounting devices; electric wax applicators for ski; metal cutting machines (by arc, gas, or plasma); electric tea leaf grinders; automatic bread makers for home use; electrostatic precipitator; electric clothes cleaners.
- Klasse:8 Electric shavers; adapters for electric shavers; blades for electric shavers; electric hair clippers; electric depilators; electric lint shavers; electric beard

Klasse:9

trimmers; electric hair trimmers; electric nose trimmers; electric hair irons; electric curling brushes; electric razors; fingernail polishers; electric manicure sets; electric nail files; electric hair curlers; electric hair irons; electric curlers for eyelashes; electric pore cleaners for domestic use.

Automatic vending machines; cameras; tripods for cameras; cases for cameras; electric flash units for cameras; digital still cameras; neck strap for cameras; PC (Personal Computer) connecting codes for digital cameras; batteries for digital cameras; (AC) alternating current adapters for digital cameras; microscope with illuminators; electron microscopes; polarizing microscopes; zoom microscopes; plain paper copiers; stapling units for plain paper copiers; rollers for plain paper copiers; paper feeders for plain paper copiers; photosensitive drums for electrostatic copying machines; bearings for plain paper copiers; electronic printing boards; optical lenses; fire extinguishers; dry cells; batteries; rechargeable batteries; battery chargers; storage batteries; solar cells; fuel cells; nickel cadmium batteries; nickel hydrogen batteries; lithium batteries; lithium ion batteries; carbon electrode for dry batteries; carbon electrode for welding use; connectors [electricity]; electric cables; electrical conduits; floor ducts especially for housing electric cables; ballast (for discharge lamps); under carpet wiring system consisting of conduits for electric cables; dimmer switches; circuit breakers; magnetic contactors and starters; electronic circuit protectors; switch gears; electric junction boxes; appliance switches; push switches; slide switches; touch switches; detector switches; electrical or power receptacles; plugs (electrical); electric time switches; video entry phones; intercom systems; electric door chimes; electric buzzers; fire alarms; gas leakage alarms; burglar alarms; portable emergency buzzers; radios; cassette tape players and/or recorders; radio cassette recorders; DAT recorders; portable cassette tape players; cases for cassette tape players; portable cassette players with radio; compact disc players and/or recorders; cases for optical disc players; mini disc players and/or recorders; (MD) mini disc decks; DVD audio players and/or recorders; secure digital audio players and/or recorders; secure digital video players and/or recorders; MP3 (Mpeg-1 Audio Layer-3) players; speakers; tuners; amplifiers; stereo component system; record players; graphic equalizers; clock radios; IC chip recorders; digital sound processors; headphones; cordless headphones; earphones; earphones with microphones; microphones; sing-along cassette player and/or recorders; softwares (recorded); electric megaphones; audio-video systems for use in language laboratories; car audio systems; optical disc auto changers; cassette adapters for reproducing sound; digital hall sound system; audio mixers; magnetic tape cleaners; magnetic disc cleaners; record cleaners; optical fiber cables; audio cable and/or video cable; television receivers, cathode ray tube displays; cathode ray tubes; image pick up tubes; plasma television receivers; plasma displays; plasma display panels; speakers for plasma display; parts and accessories for plasma display, namely stands; LCD television receivers; liquid crystal displays; color projection television receivers; combined television receiver with video tape recorder; combined television receiver with disk player; antennas; GPS antenna; diversity antennas; tuners for satellite broadcasting; tuners for cable broadcasting; terrestrial tuners; tuners for television; tuners for audio broad casting; Internet terminals; LCD (Liquid Crystal Display) projectors; parts and accessories for LCD (Liquid Crystal Display) projectors, namely lenses; parts and accessories for LCD (Liquid Crystal Display) projectors; namely lamps; video cassette recorders;

system processors; multi-circuit type electric power monitor; micro-precision measurements; weight scales with body fat monitor; step counter; audio and/or video analyzers; oscilloscopes; modulators; voltmeters; distortion meters; MR (magnetic resistant) sensors; photo sensor; temperature sensors; position sensors; angular rate sensors; rotation sensors; angle sensors; dew condensation sensors; displacement sensors; shock sensors; current sensors; ultrasonic ceramic sensors; fuel level sensors; magnetic sensors; light emitting diodes; liquid crystal elements; LCD module; magnetrons; diodes; transistors; thermostats; integrated circuits; IC (Integrated Circuit) memory cards; LSI circuits; semiconductor memory (devices); (one chip) microcomputers; electret condenser microphone cartridge; halftone image processors; thermal printing heads; magnetic heads; permanent magnets; relays; computer display components; semiconductor laser module; CCD image sensor; film capacitor; electric tuner units; coin validating units; coin selector units; bill validating units; bill selector units; magnetic card readers and/or writers; printed wiring boards; single-sided printed wiring boards; double sided printed wiring boards; multilayer printed wiring boards; printed circuit substrates; speaker components; power modules; AC adapters; chargers; magnet rolls for copying machines and printers; DC/DC converters; inductors (coils); fixed inductors; variable inductors; condensers; film condensers; electrolytic capacitors; electric double layer capacitors; ceramic capacitors; filters of electric signals; EMI (Electromagnetic Interference) filters; noise filters for displays; SAW (Surface Acoustic Wave) filters; electric ceramic filters for displays; line filters for displays; dielectric filters for displays; tunable filters; light modulators; light deflectors; optical transmission components for optical fibers; optical coupling components for optical fibers; laser diode modules for optical fibers; photo diode modules for optical fibers; optical connectors for optical fibers; aspherical lenses for CCD cameras; power transformers for electricity distribution; switching transformers for electricity distribution; current transformers for electricity distribution; pulse transformers for electricity distribution; line transformers for electricity distribution; input and output transformers for electricity distribution; deflection yokes; piezoelectric transformers for electricity distribution; thermistors; varistors (surge absorbers); piezoelectric ceramics components for electricity distribution; ceramic resonators; SAW (Surface Acoustic Wave) resonators; acousto-optic devices; resistors; potentiometers; trimmer potentiometers; thermal cutoffs; encoders; printer units for computers; hybrid IC; switch components; heat sink wiring boards for computers; electro luminescence elements; magnetic resistive (Magnetic Resistant) elements; coils; choke coils; switches; panel switches for electricity distribution boards; touch panels for display operations; remote control units; analog tuners; digital tuners; electronic tuners; antenna duplexers; SAW (Surface Acoustic Wave) devices; couplers; balun; power dividers; voltage controlled oscillators; wireless communication modules and unit; RF (Radio Frequency) modules; PLL (Phase Locked Loop) synthesizer modules; thermal printer units; electric flat irons; electric ion steamers for face; trolley ducts for wiring [electricity]; solenoids; counters; switch boards; telephone apparatus; printed circuit; remote control telemetering machines and instruments; high-frequency and regulation apparatus and instruments; electric conduits; communication and monitoring appliances for apartment buildings; switching power supply units; earth leakage breakers; fault-current protective switches; magnetic

Klasse:10	switches; current converters; liquid level monitoring sensors; switches and sockets; lighting remote controls; photo-electric switches; circuit controllers; line selectors; sensor; power controller; frequency controller; induction voltage regulators; aerials; switch boxes; lighting control apparatus; electric arc welding apparatus; welding electrodes; electric soldering apparatus; electric insect killers; chronographs for cooking use; glow switch starters; connecting devices for lamps; electric print boards. Electronic blood pressure meters; electronic clinical thermometers; laser medical treatment devices; ultrasonic diagnostic equipment; hearing aids; laser scalpels; electric handy massagers; electric massage chairs; electric massage beds; handheld vibrators for medical use; electric beds for medical use; electric low frequency therapeutic apparatus; electric high frequency therapeutic apparatus; electric air mats for bedsores-preventing; steam inhalers for medical use; electric heating pads; dental CCD sensor system; medical bone densitometer; electric massagers; electric vibrators; electric air mat for medical purposes; sphygmomanometers; electric inhalers; insufflators.	Klasse:16	drums; electric effect apparatus for musical instruments, namely sequencers; parts and accessories for electric and electronic musical instruments, namely sound modules, keyboard amplifiers and external memories.
Klasse:11	Incandescent lamp; miniature bulbs; screw-in fluorescent lamp; fluorescent lamp; tungsten halogen lamps; flash lights; electric lanterns; head lamps; fluorescent lighting fixtures; dynamo lighting sets for bicycles; sensor lights; germicidal lamps; electric kettle; electric pressure cookers; electric rice cooker; gas rice cookers; slow cookers; electric roasters; ovens for cooking; toasters; coffee makers; electric cooking stoves; electric thermo pots; gas cookers; induction heating hobs; electric barbecue griddles; microwave ovens; gas cooking stoves with ovens; electric food-pans; sinks; cooking tables; refrigerators; gas refrigerators; freezers; cold and/or hot water dispensers; cold water dispensers; hot water dispensers; electric refrigerating show cases; electric water coolers; electric ice makers; electric fans; ventilating fan; electric air purifiers; range hoods for cookers; electric dehumidifiers; electric humidifiers; air curtains; air handling units; ceiling fans; roof ventilators; electric deodorizers for cars; air conditioners; air conditioners for cars; fan coil units for air-conditioning; heat exchanger units; evaporative air refreshing apparatus; gas stoves; kerosene stoves; electric stoves; electric space heaters; electric blankets; electric floor carpets; kerosene fan heaters; electric foot warmers (kotatsu); gas cordless warmers; electric bidets; toilets; washing toilet seats; portable toilets; septic tanks for domestic use; septic tanks for industrial use; water purifiers for domestic use; filters for water purifiers; alkaline water ionizers; household mineral water maker; incinerators (trash burners); sauna baths; bubble dispensers for facial washing; shower heads; bath tubs; gas instantaneous water heaters; electric water heaters; electric hand dryers; electric dish dryers; electric hair dryers; electric clothes drying apparatus for household purposes; electric ion treatment apparatus for hair; electric ion steamer for facial treatment; warming panels; warming rugs; sewage aeration treatment installations; whirlpool baths; spot lamps; emergency lights; lighting ballast; mercury vapor lamps; sodium lamps; exit lights; searchlights; footmuffs (electrically heated); light diffusers; safety lamps; lighting apparatus and instruments; ventilator; electric water supplier; portable toilets; apparatus for air enrichment with oxygen.	Klasse:17	Electric paper shredders; electric staplers; battery-operated letter openers; electric pencil sharpeners; electric hole punches; electronic typewriters; ribbons cassettes for electronic typewriters; thermal papers. Molding materials for precise devices such as semi-conductors; electric insulating sheets; synthetic boards for sound adjustment apparatus; synthetic boards for sound absorbing; plastic sound insulating sheets; synthetic resin sound insulating sheets.
Klasse:12	Electric waggons for factory use; bicycles; bicycle tires and tubes; electric power assisted bicycles; motors, for land vehicles; anti-theft alarms for vehicles.	Klasse:19	Linoleum doors; plastic doors; synthetic resin doors; wooden doors; linoleum rain gutters; plastic rain gutters; synthetic resin rain gutters; wooden rain gutters; linoleum ceiling panels; plastic ceiling panels; synthetic resin ceiling panels; wooden ceiling panels; linoleum folding doors; plastic folding doors; synthetic resin folding doors; wood flooring; asbestos roofing tiles; ceramic roofing tiles; transportable prefabricated housing units, not of metal; PVC lined water pipes; plywood; linoleum sidings; plastic sidings; synthetic resin sidings; wooden sidings; sound proof materials for floors, walls or ceilings; plastic water pipes; water pipes (not of metal); rigid pipes for building use (non-metallic); transportable buildings [not of metal]; prefabricated building kits [not of metal]; linoleum or plastic floor boards; linoleum or plastic floor tiles; synthetic resin floor tiles; linoleum wall tiles for building use; plastic wall tiles for building use; synthetic resin wall tiles for building use.
Klasse:14	Watches; clocks.	Klasse:20	Microwave oven racks; TV rack; audio racks; closets for clothes; washstands; gas cooker cabinets; kitchen cabinets; wall cabinets; mail boxes, not of metal or masonry; steps [ladders], not of metal; parts and accessories for plasma display, namely wall hanging fittings; parts and accessories for LCD (Liquid Crystal Display) projectors, namely ceiling hanging fittings.
Klasse:15	Electronic organs; electronic pianos; keyboards for musical instruments; music synthesizers; electric	Klasse:21	Electric toothbrushes; magnetic window cleaners; electric brushes; dustbins; smoke absorbers for household purposes; sprinklers for watering flowers and plants; water apparatus for cleaning teeth and gums; watering devices; electric mouth washing and rinsing devices for household use; cleaning papers for video printers; electric pants presses for household purposes.
		Klasse:28	Electric fishing floats; devices for tying fishing lines to fishing hooks; electronic golf exercisers; stationary exercise bicycles and rollers.
		Klasse:35	Information relating to commodity sales; business information; commercial information agencies; rental of photocopying machines.
		Klasse:36	Issuance of credit cards.
		Klasse:37	Installation of electric appliance; repair of radio receivers and television receivers; repair and maintenance of electrical communication apparatus and instruments; repair and maintenance of household electric appliance; repair and maintenance of electric lighting apparatus; repair and maintenance of power distribution and control apparatus; repair and maintenance of electric motors; repair and maintenance of measuring and/or testing machines and instruments; repair and maintenance of medical apparatus and instruments; repair and maintenance of metalworking machines and tools; repair and maintenance of cooking apparatus for industrial purposes; repair and maintenance of automatic distribution machines; repair and maintenance of water purifying apparatus; repair and maintenance of musical instruments; watch and clock repair and maintenance; repair and maintenance of gas water heaters for household purposes; repair and maintenance of bath equipment; repair of toilet stool units with washing

water squirts; installation, maintenance and repair of computer hardware; repair and maintenance of air-conditioning apparatus; office machines and equipment installation, maintenance and repair; bicycle repair; repair and maintenance of computers; repair and maintenance of electronic printers; telephone repair; telecommunication equipment installation and repair.

- Klasse:38 Communications over the internet; communications over the optical fiber; communications over the computer network; electronic mail services.
- Klasse:40 Optical disc pressing.
- Klasse:41 Entertainment information; production of video tapes in the field of education, culture, entertainment or sports [not for movies, radio or television programs and not for advertising and publicity]; providing of electronic publications.
- Klasse:42 Computer software design, computer programming, or maintenance of computer software; computer software design; computer system engineering; testing and research relating to electric machines, apparatus and instruments; computer rental; providing computer programs; leasing access time to a computer database; website design; authoring of optical discs.

Klasse:3 Scouring preparations, abrasive paper.

Klasse:6 Containers for small items (only for use in the field of do-it-yourself, none being key safes, cash storage boxes for safes or lockable boxes to store laptop computers), tote boxes (only for use in the field of do-it-yourself, none being key safes, cash storage boxes for safes or lockable boxes to store laptop computers), sorting boxes (only for use in the field of do-it-yourself, none being key safes, cash storage boxes for safes or lockable boxes to store laptop computers), tool boxes and chests (empty) of metal (only for use in the field of do-it-yourself, none being key safes, cash storage boxes for containers, safes or lockable boxes to store laptop computers); special containers, as far as included in this class (only for use in the field of do-it-yourself, none being key safes, cash storage boxes for containers, safes or lockable boxes to store laptop computers).

Klasse:7 Machine tools and accessory parts and spare parts therefor, as far as included in this class; machines for tile laying, gas concrete and drywall construction, stone, screed and concrete work, electric and sanitary installation, brick laying, parquet, laminate and carpet laying, plaster work; electric tools for construction and do-it-yourself, including tool bits thereof; cordless screw drivers, power saws, grinding machines, motor-driven polishing apparatus; hammer drills, powder drills, electric planers, tiles cutting machines, compressors, small electric tools, electric staplers, electric mills; mechanically operated gardening tools including lawn mowers and lawn trimmers; choppers, motor-driven hedge clippers and chainsaws as well as accessories for mechanically operated gardening tools, namely collectors and covers for machines; spare parts for mechanically operated gardening tools, as far as included in this class; engines for tools; mobile generators; glue guns; soldering and welding apparatus (gas-operated), electric welding machines; pneumatic machines.

Klasse:8 Knives, especially pocket knives (only for use in the field of do-it-yourself); scissors, including household scissors (only for use in the field of do-it-yourself).

Klasse:9 Measuring apparatus and tools (only for use in the field of do-it-yourself); measuring tapes (only for use in the field of do-it-yourself), angles (only for use in the field of do-it-yourself), goniometers (only for use in the field of do-it-yourself).

Klasse:20 Tool cabinets (only for use in the field of do-it-yourself), containers for small items (only for use in the field of do-it-yourself), tote boxes (only for use in the field of do-it-yourself), sorting boxes (only for use in the field of do-it-yourself); tool boxes and cases (empty), not of metal, not of leather (only for use in the field of do-it-yourself).

Klasse:21 Funnels.

Klasse:24 Tool bags of textile (only for use in the field of do-it-yourself).

Klasse:25 Work and professional clothes, as far as included in this class, gloves and working gloves, as far as included in this class.

Klasse:1 Chemicals, biochemicals and reagents for use in industry, science and research; chemical preparations and reagents for analysis or diagnosis used for scientific purposes, namely, chemical preparations for cell separation and culture, nucleic acid purification, nucleotides, fluorescent nucleotides, oligonucleotides, peptides, proteins, amino acids, organic molecules, and markers for DNA/RNA synthesis; reagents for luminescence; reagents for gene expression quantification; reagents for use with the polymerase chain reaction process; reagents for use with the rolling circle amplification process; reagents for cDNA cloning and vectors, modifying and restriction enzymes; reagents for labeling, sequencing and fragment analysis of nucleic acids, proteins and custom synthesis; reagents for recombinant protein expression purification; chromatography media; reagents for electrophoresis, bioinformatics, spectrophotometry and fluorometry; radiochemicals; reagents for scintillating proximity assays; chemical preparations (assays) for high through put screening for drug development; reagents for high resolution laser fluorescence confocal microscopy; specialty chemicals for industry, science and research; gases and gas mixtures for industrial, research and scientific purposes; chemical preparations and substances for use in the manufacture of pharmaceutical products, diagnostic preparations and substances; chemical test reagents, saline solution and reagent-coated paper all for scientific and laboratory use; fissionable chemical elements; radioactive elements and isotopes for industrial, scientific and research purposes; radioactive sources and standards for use in radiographic techniques; radioactive sources for use in non-destructive testing, purification and sterilizing techniques; radionuclides; chemicals and chemical compositions for use in the treatment of water systems, wastewater treatment systems, cooling water systems, boiler water and steam generating systems, boiler condensate systems, fluid separation systems, water clarification and dewatering in aqueous systems, water conditioning systems, gas cleaning systems, industrial process systems, fuels and fuel processing systems, hydrocarbon and gas processing systems, oil and gas processing and petrochemical systems, pulp and papermaking systems, metal and plastic coating systems, metal processing systems, and material handling; chemical gasoline additives and distillate fuel additives; performance additives for fuels used in turbine engines; desiccants for water-absorption in the form of bags of chemically-treated granular materials for placement into fuel tanks; test kit consisting of reagents used for determining the presence of algae and active organic organisms in diesel fuel; bacteria cultures and nutrients for wastewater and sludge

treatment; polymeric chemicals used to disperse particulate matter in steam generating equipment; chemicals and chemical compositions as antifoulants and demulsifiers in coke-making and by-product operations of iron and steel industries.

Klasse:2 Corrosion inhibitors in the nature of a coating for use in the metal finishing industry, namely, a final aqueous acidic rinse; corrosion inhibitors in the nature of a coating for use in cooling water systems; corrosion inhibitors in the nature of a coating, namely, resinous coatings for metal and masonry surfaces.

Klasse:3 Chemicals and chemical compositions for use in cleaning steel, aluminum, galvanized and mixed metal surfaces for general industrial use in the manufacture of metal products; chemicals and chemical compositions for use in industry, namely cleaning agents to remove contaminants from industrial process systems and paint strippers to remove paint from equipment surfaces in paint spray booth operations.

Klasse:5 Pharmaceutical preparations for use in diagnosis; veterinary pharmaceutical preparations for use in diagnosis; pharmaceutical and veterinary substances for medical purposes; diagnostic reagents and preparations for medical purposes; diagnostic substances for medical purposes; contrast media for medical imaging; diagnostic scanning agents for in vivo use; diagnostic imaging agents for magnetic resonance imaging; radiopharmaceutical products for clinical, medical, scientific and research use; radiopharmaceutical sources and standards for use in nuclear medicine; radioactive pharmaceutical preparations and non-radioactive reagents for producing radiopharmaceuticals for in vivo diagnostic or therapeutic use; gases and gas mixtures for medical imaging; Pre-filled vials containing medical diagnostic reagents; pre-filled cylinders containing gases and gas mixtures for medical use.

Klasse:6 Metal locks; metal security enclosures, namely, key cabinets, storage tubes and storage boxes for securing keys; metal lockboxes for residential, vehicular, industrial and real estate sales use; lockable metal key cabinets for storing keys; metal key safes.

Klasse:7 Pumps, namely, centrifugal pumps, diaphragm pumps, bellows pumps and process and transfer pumps for water and wastewater treatment systems; regulators being parts of machines; filter cartridges for various industrial machines for filtration applications, namely, for the filtration of potable water, beer in the brewing industry, and other specialty materials; machines for the feeding and application of chemicals for industrial uses.

Klasse:9 Apparatus for electrophoresis not for medical purposes; chromatography columns and pumps; apparatus for conformations systems, namely computer hardware and software for processing biological information; scintillation counter to measure beta-emitting nuclides; imaging apparatus for radioactive and luminescent emissions, namely CD cameras and scanners; synthesis and purification integrated systems, namely chromatography columns, cartridges, fraction collectors, mixers, monitors, pumps, recorders and analysis software; apparatus for micro arrays, namely probes, slides, buffers, bacterial controls, racks and trays; laboratory glassware; vials and micro vials; nicotine plates; computer software for hospital operating room management; computer software for critical care information management; industrial process control software; computer software programs and program manuals sold as a unit for use in factory management; graphical user interface based computer programs for controlling machines in industrial automation applications; software for creating graphics displays and editing

dynamic data interfaces for real time graphics applications for industrial and business applications; communications software for connecting computer network users; industrial process software for plastic injection molding; factory automation software for control, monitoring, simulation, communications, data logging and collection, and factory automation; software to integrate manufacturing machine operations, control processes, provide data for visualization, track problems and generate production reports; packaged software for use in the operation and programming of grinding machines in the manufacturing industry; industrial process control hardware, namely, computer monitors; laptop computers, ether net cards and cables; computer networking hardware, memory cards; microchips; microprocessors; computer network hubs, switches and routers; computer displays and terminals; computer white boards; system boards and processors; industrial process controller featuring call control, operator interface, gage interfaces and data collectors; manufacturing execution systems and document management software; digital signal processing products and systems, namely industrial automation controls and programmable logic controllers; machine tools, namely, an adaptive control product in the nature of an external controller to optimize machine tool cutting performance of rough and semi-rough cuts; power supplies and mounting hardware; intrusion and burglar alarm systems; security devices, namely, programming logic computers, control panels, electronic intrusion detectors, electronic glass break sensors, electronic vibration sensors, magnetic contacts for use in security systems, electronic switch plates, electronic motion sensors for alarm systems, electronic motion sensitive switches, hardwire sirens, audio speakers, electronic speaker drivers, access control and alarm monitoring systems; fire, heat and smoke detecting and alarm units; computer card operated access control systems; card readers, card encoders, and encoded cards for use with card operated access control systems; video cameras; video object recognizers; video object trackers; video license plate readers; video alarm verifiers; video face recognizers; video vehicle recognizers; video traffic detectors; video access door controllers; video intrusion detectors; processing hardware and software that analyzes digital video images to automatically extract, record and report intelligence, and remote video monitoring systems for security and surveillance applications; central video monitors; video recorders; cameras; closed circuit video systems; closed circuit video system comprising one or more cameras, and a camera housing; short range, wireless, radio frequency transceivers; power line transceivers; communication control hardware, namely keypad controllers, matrix switchers, multiplexes, digital video recorders, integrated pan-tilt-zoom domes, remote video controllers, receivers, electronic alarm, management controls and triggers, and video transmission devices in the nature of video transmitters sold separately or as part of a system for operating closed circuit cameras; personal digital assistant devices configured for use by real estate professionals; fiber-optic transmission systems, namely, fiber optic transmitters, receivers and transceivers used in the transmission of video, audio, and data signals over optical fiber; electrical switches; electron mechanical locks; magnetic locks; electric keys; handheld electronic hardware, namely handheld programmable units and handheld computers for receiving, controlling, storing, manipulating, displaying and transmitting data and for operating electronic locks; electronic access cards and readers and encoders therefor; magnetic access cards and readers and encoders therefor; smart access cards and readers and encoders

therefor; proximity cards and readers and encoders therefor; electronic key fobs and readers and encoders therefor; bar code access cards and readers, encoders, access card lamination machines not for home or office use; access keypads; radio frequency tracking tags; tracking and control system comprising one or more radio frequency tags, transceivers, and sensors used to determine and monitor the location and movement of tangible assets, inventory and individuals; infrared sensors; computer hardware and software for facilities management and controlling facility access systems and components therefor, namely, control panels, access card readers, and equipment and systems for video imaging, video monitoring, digital hard drive recording, network transmission and remote access; networked digital video storage servers for access control and surveillance applications, alarm monitoring and security; computer software and hardware for controlling and operating security and access system comprising locks, doors, access, and identification; devices and security enclosures in the nature of electronic boxes safes for securing keys; surveillance equipment sold individually as components or together as a system comprising one or more surveillance cameras, covert cameras, close circuit television cameras, camera housings, camera mounts, camera lenses, video monitors, video recorders, digital recorders, video storage media, video switches, control panels, keypad controllers, joystick controllers, transceivers, receivers, transmitters, signal processors, multiplexes, matrix switches, controllers, control panel housing, switch housing, transformers switches, splitters, coaxial cables, connectors, motion detectors, microphones and speakers; computer user interface software and control software for managing security, fire and access systems; electric locks; hand-held electronic computer and communication hardware for receiving, controlling, storing, manipulating, displaying and transmitting data for operating electronic locks; pre-recorded magnetic data carriers featuring identification and security information; data processing software and computer hardware; power supplies, namely batteries, voltage and current rectifiers, regulators and transformers; control panels - namely, electronic apparatuses adapted to electrically monitor a pre-determined activity and activate a burglar alarm; siren speakers; and electronic siren drivers - namely, tone generators and amplifiers adapted to be used for sirens; computer software to control communication hardware for operating and controlling closed circuit cameras; switch units incorporating magnetically actuated reed switches for use in burglary and fire sensing alarm systems, in industrial position sensing apparatus, in revolution counters, in equipment cabinet safety interlock systems, in industrial position controlling apparatus, in electrical cables and in pump and valve controlling apparatus and home security alarm systems; electrical and electronic checking apparatus, namely detectors, scanners and monitors for screening individuals, baggage, and cargo for the presence of particular substances; electrical and electronic checking apparatus, namely detectors, scanners and monitors for screening individuals, baggage, and cargo for the presence of explosives and/or narcotics; detectors, scanners and monitors for detecting presence of explosives and other contraband; time or condition sensing apparatus for initiating and controlling regeneration or backwash cycles for water treatment equipment; control valves for water conditioning and water filtration equipment; bio reactors for culturing cells; portable analytical instruments, namely, a probe with a microprocessor based data conversion logger for measurement of organic and inorganic chemicals in water; filters and filter housings for

laboratory use; fluid separation apparatus for laboratory use; membrane filters for laboratory use; silt density measuring device; de ionization units for laboratory use; fluid flow control devices, namely, pumps, valves, flow meters and regulators for laboratory use; ozone monitors; laboratory equipment, namely, porous micro titer plates for use in cell biology and other life science applications; electronic water and process treatment controls, namely, apparatus for use in the treatment of commercial and industrial water systems, boiler water systems, cooling water systems, and closed water systems, pulp and paper processing systems, fuel processing systems, and metal processing systems to analyze the chemistry of the system, determine the proper treatment program, apply the desired treatment and monitor the effectiveness of the treatment; computer software for data management in the water treatment and pulp and paper fields; electronic controllers used for processing information in the water treatment and pulp and paper fields; apparatus for use in industrial water systems to measure and control pH and conductivity; electronic apparatus for feeding chemical to an industrial, commercial or municipal water system in measured amounts; laboratory testing equipment, namely, deposition and corrosion rate testers; mobile laboratory equipped with equipment and instrumentation to monitor and measure pH, conductivity, and chromate concentration of industrial and domestic waters, to conduct inorganic analysis of water and to conduct microbiological testing of water.

Klasse:10 Medical specimen collection vials; medical cannulas; medical syringes; injection devices for pharmaceuticals; disposable cartridge for holding and transferring encapsulated radioisotope brachytherapy sources for use in treating prostate and other cancers; pre-filled cartridges containing contrast media for medical imaging; infusion pumps for intravenous administration of fluids; needles for medical purposes; implantable radiation therapy devices consisting of encapsulated radioisotope brachytherapy sources for use in treating prostate and other cancers; radiation therapy delivery system consisting of radioactive seeds and a bio-absorbable carrier assembly; cardiac output monitors; bacteria filters for medical use; gas analyzers for medical purposes; anesthesia record keeping and data management systems and patient monitoring systems, namely, gas monitors, pulse oximeters, multiparameter monitors, ECG monitors, invasive and non-invasive blood pressure monitors, neuromuscular transmission monitors, metabolic monitors and spirometers for anesthesia, intensive care and diagnostic applications; anesthesia machines and ventilators; intensive care and anesthesia accessories for single patient use, namely, gas sampling lines, airway adapters, breathing circuits, spirometry sensors and tubes, tubes, water traps, pulse oximetry sensors, non-invasive blood pressure cuffs, intravenous flushing sets, anesthesia masks, carbon dioxide absorbers, temperature probes, nebulizers; central nervous system monitors; gastrointestinal tonometers.

Klasse:11 Fluid separation units for industrial use in a wide variety of industries; fluid concentration units for industrial use in a wide variety of industries; fluid recycling units for industrial use in a wide variety of industries; polymeric membrane material for use in the separation of fluids for a wide variety of industries; filter apparatus used for filtering solids from gases and liquids or filtering liquids from gases, and for filtering one immiscible liquid from another for industrial use in a wide variety of industries; spirally-wound elements or cartridges contained within a tubular plastic sleeve for concentrating products and removing impurities in fluid treatment

systems for industrial use in a wide variety of industries; water conditioning units for residential purposes; reverse osmosis modules and membranes therefore for industrial use in a wide variety of industries; water purification units and systems consisting of clarifiers, electro deionization systems, condensate polishers, vacuum degasification units, ultra filtration units, ultraviolet sterilizers, ion exchangers, acid and caustic regeneration systems, reverse osmosis systems, forced draft decarbonator units, filters, chemical feed systems and bulk storage units, sold with automatic controls and instruments to monitor operating parameters of the units and systems electrochemical liquid purification units for use in the industrial, commercial and municipal sectors.

- Klasse:1 Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; manures; fire extinguishing compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives used in industry, glue used in industry, sphagnum and planting soil (manures).
- Klasse:2 Paints, varnishes, lacquers; preservatives against rust and against deterioration of wood; colorants; mordants; raw natural resins, metals in foil and powder form for painters, decorators, printers and artists.
- Klasse:6 Common metals and their alloys; metal building materials; transportable buildings of metal; materials of metal for railway tracks; non-electric cables and wires of common metal; ironmongery, small items of metal hardware; pipes and tubes of metal; safes; goods of common metal not included in other classes; ores; toolboxes of metal (empty); nails and screws of metal, hinges of metal, windows and doors of metal as well as frames therefore of metal; mail boxes of metal, blinds (outdoor) of metal, handles of metal, handles of metal for furniture, roofs (of metal); greenhouses and parts therefore (of metal); carpports (of metal), tool sheds (of metal); playhouses (of metal).
- Klasse:7 Machines and machine tools; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; incubators for eggs; electrical powered tools, tools powered by fuel, garden machines, high pressure cleaners, washing machines, vacuum cleaners; lawnmowers, hedge cutters, kitchen machines.
- Klasse:8 Hand tools and implements (hand-operated); cutlery; side arms; razors; garden tools (hand tools), including manually operated hedge cutters; painting tools (hand tools) namely spatulas, stirrers, palette knives; cutlery including for camping purposes; accessories for fireplaces namely bellows, fire tongs and pokers.
- Klasse:9 Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; automatic vending machines and mechanisms for coin-operated

	apparatus; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; footwear for protection against accidents, irradiation and fire; electrical articles namely switches and plugs, wires, sockets, dimmers; batteries; telephones; burglar alarms; binoculars; gloves for protection against accidents, irradiation and fire.
Klasse:17	Rubber, gutta-percha, gum, asbestos, mica and goods made from these materials and not included in other classes; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes, not of metal.
Klasse:19	Building materials (non-metallic); non-metallic rigid pipes for building; asphalt, pitch and bitumen; non-metallic transportable buildings; monuments, not of metal; windows and doors (not of metal), stones, tiles, wooden floor coverings for existing floors, including parquet flooring, plasterboards, roofs (not of metal); greenhouses and accessories therefore (not of metal); carports (not of metal), tool sheds (not of metal), playing houses (not of metal), compregnated wood, surface stones, stucco, blinds (outdoor) (not of metal), floor boards, tiles and oblong (floor) tiles.
Klasse:20	Furniture, mirrors, picture frames; goods (not included in other classes) of wood, cork, reed, cane, wicker, horn, bone, ivory, whalebone, shell, amber, mother-of-pearl, meerschaum and substitutes for all these materials, or of plastics; tool boxes of plastic (empty); mail boxes not of masonry or metal, garden furniture and camping furniture, blinds for indoor use, bamboo curtains, cabinets for bathrooms, wardrobes, kitchen cabinets, handles not of metal for implements and tools as well as for doors and windows, handles not of metal for furniture; air mattresses (not for medical purposes); flagpoles; bathroom accessories namely hooks and corner shelves; accessories for fireplaces namely log baskets and hooks.
Klasse:25	Working clothes, working shoes, working headgear, working gloves, all the aforementioned goods only for building activities.
Klasse:35	Advertising; business management; business administration; office function; the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods including retailing and wholesale trade also via the Internet; provision of consumer product information via computer networks.
Klasse:37	Building construction; repair; installation services.
Klasse:39	Transport including delivery, packing and storage; packaging and storage of goods; rental of storage containers; travel arrangement.
Klasse:40	Treatment of materials.

Klasse:11	Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes.
Klasse:12	Vehicles; apparatus for locomotion by land, air or water.
Klasse:14	Precious metals and their alloys and goods in precious metals or coated therewith, not included in other classes; jewellery, precious stones; horological and chronometric instruments.
Klasse:16	Paper, cardboard and goods made from these materials, not included in other classes; printed matter; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paint brushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); plastic materials for packaging (not included in other classes); printers' type; printing blocks.
Klasse:17	Rubber, gutta-percha, gum, asbestos, mica and goods made from these materials and not included in other classes; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes, not of metal.
Klasse:18	Leather and imitations of leather, and goods made of these materials and not included in other classes;

- animal skins, hides; trunks and travelling bags; umbrellas, parasols and walking sticks; whips, harness and saddlery.
- Klasse:19 Building materials (non-metallic); non-metallic rigid pipes for building; asphalt, pitch and bitumen; non-metallic transportable buildings; monuments, not of metal.
- Klasse:20 Furniture, mirrors, picture frames; goods (not included in other classes) of wood, cork, reed, cane, wicker, horn, bone, ivory, whalebone, shell, amber, mother-of-pearl, meerschaum and substitutes for all these materials, or of plastics.
- Klasse:21 Household or kitchen utensils and containers (not of precious metal or coated therewith); combs and sponges; brushes (except paint brushes); brush-making materials; articles for cleaning purposes; steelwool; unworked or semi-worked glass (except glass used in building); glassware, porcelain and earthenware not included in other classes.
- Klasse:22 Ropes, string, nets, tents, awnings, tarpaulins, sails, sacks and bags (not included in other classes); padding and stuffing materials (except of rubber or plastics); raw fibrous textile materials.
- Klasse:24 Textiles and textile goods, not included in other classes; bed and table covers.
- Klasse:25 Clothing, footwear, headgear.
- Klasse:26 Lace and embroidery, ribbons and braid; buttons, hooks and eyes, pins and needles; artificial flowers.
- Klasse:27 Carpets, rugs, mats and matting, linoleum and other materials for covering existing floors; wall hangings (non-textile).
- Klasse:28 Games and playthings; gymnastic and sporting articles not included in other classes; decorations for Christmas trees.
- Klasse:33 Alcoholic beverages (except beers).
- Klasse:34 Tobacco; smokers' articles; matches.
- Klasse:35 Advertising; business management; business administration; office functions.
- Klasse:36 Insurance; financial affairs; monetary affairs; real estate affairs.
- Klasse:37 Building construction; repair; installation services.
- Klasse:38 Telecommunications.
- Klasse:39 Transport; packaging and storage of goods; travel arrangement.
- Klasse:40 Treatment of materials.
- Klasse:41 Education; providing of training; entertainment; sporting and cultural activities.
- Klasse:42 Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; legal services.
- Klasse:43 Services for providing food and drink; temporary accommodation.
- Klasse:44 Medical services; veterinary services; hygienic and beauty care for human beings or animals; agriculture, horticulture and forestry services.

- Klasse:4 Technical oils and greases; lubricants; dust absorption, dust wetting and dust bonding agents; fuels (incl. motor fuels) and luminous materials; candles, wicks; gases as fuels; liquefied gases, industrial gases; liquefied and compressed gas.
- Klasse:6 Door chains; window handles with additional lock; lateral hinge safety device for windows; safety hardware; safety rosettes; safety striking plates; mechanical forced locking; protective plates for doors and windows; safety chains; mechanical break open catches; mechanical safety devices, especially safety devices for blinds; cellar shaft safety devices; cellar window safety devices; cellar safety gratings; locks (except electric locks), especially padlocks; long shackle type connectors, cable locks, helix cable locks; mortise locks; padlocks; armoured bolt locks; chain locks; additional case locks; alarm door locks; long shackle type connectors; all above mentioned goods out of metal.
- Klasse:7 Machines, namely automatic filling machines, heel production machines, suction machines for industrial purposes, separators (machines), painting machines, drive mechanisms except for land crafts, ash screens (machines), draught frames, mining machines, concrete mixing plants, binding machines, tin printing machines, drilling machines, crushers, comminution machines, stampers (machines), steam engines, compressed air machines, printing machines, wrapping machines, electromechanical machines for the chemical industry, degreasing machines, earth movers, crude oil refining machines, ore dressing machines, moulding machines, milling machines, dyeing machines, hoisting machines, filling machines, blowers, screw taps, thread cutters, foundry machines, glass processing machines, railway track machinery, ditch excavation machines, engraving machines, electric hand drills, stapling machines, planing machines, adjusting machines, kneading machines, chisel machines, knife grinding machines, metal working machines, riveting machines, paper production machines, polishing machines and apparatus (electric), embossing machines, straightening machines, stirring machines, tracklaying machines, grinding machines, cutting machines, welding machines (electric), screening machines, sorting machines for industrial purposes, dish washers, stone shaping machines, franking machines, road making machines, tobacco processing machines, tar spraying machines, dividing machines, typographical machines, whitewashing machines, packaging machines, washing machines, hosiery machines, centrifugal machines, comminution machines for industrial purposes, cutting machines and machine tools; motors (except motors for land crafts); clutches and devices for power transmission (except those for land crafts); incubators for eggs; electrical food processors including domestic electrical blending mixers (included in this class); installations for energy generation, namely wind power generators,

machine driven hand tools; installations for energy generation mainly comprising dynamos and/or electric generators and/or current generators and/or turbines (except for land crafts), hydraulic turbines or AC generators; crude oil refining machines; gas cleaning devices.

Klasse:9

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, controlling, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, storing, regulating and controlling electricity; electric measuring devices and instruments; magnetic recording carriers, disk records; automatic vending machines and mechanisms for coin operated machines; cash registers; calculating machines; software, data processing equipment and computers; web pads; electric devices and products of information and communication technology (included in this class); electric devices, hardware and software for remote operation and remote control of devices and installations in the domestic field and in the garden; electronic computer networks (included in this class); electronic hotel guides; electric devices, hardware and software for the purpose of detecting functional defects (also by remote diagnosis) as well as of data transmission regarding such functional defects and the repair of such functional defects on domestic appliances and installations as well as in the garden (included in this class); fire-extinguishing apparatus; alarm systems; domestic safeguarding devices (alarm systems); burglar alarm systems; safety cameras; devices for reception, recording, transmission, processing, output and reproduction of data, text, signals, sound carriers, sound video carriers (except unexposed films), data carriers; coded phone cards; telephones, remote controls, transmitting and receiving sets, radio telegraphy sets, magnetic tape recorders for data processing, electric measuring instruments, monitors for computer hardware, computer peripherals, photocopying apparatus and machines (incl. electronic and thermal devices and machines), projecting apparatus, transmitters for electronic signals, video games as attachments for TV sets, make contacts, ammeters, circuit breakers, electric loss indicators, current transformers, commutators, fax machines, telecopiers, electric temperature indicators, telephone transmission apparatus, surveying apparatus and instruments, distribution cabinets for electricity, distribution panels for electricity, thermal control apparatus, electric counters, electric totalizers, time recording devices, time switches (not for clockworks); other electric counting devices; installations for energy generation, mainly comprising electric fuel cells; gasometers; electrochemical fuel cells for power generation; photovoltaic installations for power generation; gas checking devices (included in this class).

Klasse:11

Devices for lighting, heating, steam generation, cooking, refrigeration, drying, ventilation and water conduits as well as sanitary installations; electrochemical fuel cells for heat generation; photovoltaic installations for heat generation; fittings for gas and natural gas, namely gas meters, gas pressure controllers as well as gas mask canisters, natural gas preheaters, safety shut-off valves and blow-off valves for gas pressure controllers; gas burners, gas producers, gas lighters, gas lamps, gas boilers, gas condensers (except machine parts), wet gas scrubbers (parts of gas installations), control and safety accessories for gas units as well as for gas conduits and water devices, freezing cupboards and chest freezers; electric lamps; air conditioning systems, air conditioning apparatus; light distributors, tubular lamps for lighting purposes; fittings, devices and installation material for liquefied gas plants, refrigerating sets and refrigerators;

	installations for energy generation, namely gas generators.	providing of trade and offer contacts via the Internet; providing of trade contacts on the Internet; advertising on the Internet for third parties; organisational and business consultation services in the fields of energy, fuel cells, wind power installations and photovoltaic installations; energy consultation for households, trade and industry (included in this class); marketing services, namely marketing of new technologies, especially in the environmental and energy field; arrangement of commercial transactions and contracts for third parties, especially arrangement of contracts for third parties on transportation capacities and transportation services by means of power grids, also within the scope of e-commerce; organisational and business consultation in the energy field; preparation of cost-price-analyses in the field of building management; consumer consultation, also online, with respect to goods of daily use, luxury and utility articles, as well as with respect to goods and services for commercial and industrial use; craftsmen search and providing services, also online; expertise preparation on organisational and business questions with respect to energy, water, waste water and lighting equipment; business consultation in trade promotion; human resources, namely providing, recruitment, selection, management consulting of personnel, providing of temporary staff; organisational and business consultation in connection with energy-saving measures and in connection with the optimisation of heating systems; providing of personnel for the operation of power stations, especially hydropower stations, nuclear power stations, coal-fired power station, gas and steam turbine power stations, cogeneration systems, combined heating and power stations, heating stations, refuse incineration plants, energy-from-waste plants, hydropower and wind power stations, photovoltaic installations and transformer stations; providing of personnel for the energy management, namely management of energy generation and distribution plants; providing of personnel for the operation of distribution and transportation networks; providing of personnel for the operation of workshops; providing of personnel for the operation of sewage treatment plants; providing of personnel for the operation and maintenance of telecommunication networks; providing of personnel for the operation of electric street lighting systems; providing of personnel for the waste treatment plants; personnel leasing, namely providing of personnel for the installation, repair and maintenance of heating facilities, air conditioning systems, ventilation systems, sanitary facilities, management and control systems; temporary transfer of personnel; procurement of spare parts for third parties as well as procurement of technical and other consumables such as for example cleansing agents and toilet paper in connection with the maintenance and servicing of buildings; reading of electrical counters and meters for current, gas and water for third parties; heat consumption reading and accounting for the supply of heat for heating purposes from other companies; data management by means of computers; gas consumption reading and accounting for the supply of gas from other companies; brokerage of advertisements; updating of Internet contents.
Klasse:12	Vehicles; apparatus for locomotion by land, air or water.	
Klasse:16	Paper, cardboard and goods made out of such materials (included in this class); printer's products; bookbinding articles; photographs; stationery; adhesives for stationery or for household purposes; artists' supplies, paint brushes; typewriters and office supplies (except furniture); instructional and teaching material (except apparatus); packaging material out of plastic material (included in this class); printers' type; printing blocks; maps; atlases; hotel guides; printed products with information on installation work, repair services, handcraft services, plant engineering services, lock and key services, caretaker services, home help services, gardening services, services in the field of house and real estate administration, building and real estate business, technical and commercial building management; adhesive labels; labelled or print foils (decalcomanias) to stick on, label or decorate walls, windows, vehicles and other surfaces and objects; office supplies, namely notepads (card blocks), card boxes, ball-pens, displays made of cardboard, recipe collections, printing blocks and artwork, refreshing tissues (out of paper), packing bags (out of plastic); phone cards (uncoded).	
Klasse:17	Foils for the production of labelled or decorated surfaces.	
Klasse:19	Building materials (non-metallic); non-metallic rigid pipes for building; asphalt, pitch and bitumen; non-metallic transportable buildings; monuments, not of metal.	
Klasse:32	Beers; mineral waters and waters containing carbon dioxide and other soft drinks; fruit drinks and fruit juices; syrups and other preparations for making beverages.	
Klasse:35	Advertising; business management; company administration; office work; marketing of products and services of public energy and water utilities by business consultation, market research, public relations, organisation of exhibitions and trade fairs for advertising purposes, distribution of samples and presentation of goods for advertising purposes and by advertising; marketing of telecommunication networks including the services which are based upon telecommunication networks for the transmission of speech, data and images as well as of multimedia value-added services by business consultation, market research, public relations, organisation of exhibitions and trade fairs for advertising purposes, distribution of samples and presentation of goods for advertising purposes and by advertising; business consultation, market research, public relations, planning and execution of events in the field of public relations for the advertising of products for the cathodic corrosion protection; organisation of exhibitions and trade fairs for advertising purposes, distribution of samples and presentation of goods for advertising purposes and by advertising; realisation of multimedia advertising presentations; management of installations for energy generation and distribution; procurement of personnel for building management services; bookkeeping with respect to building management measures; compilation, preparation and systematisation of data in computer data bases; file management by means of computers; service of a price agency, namely determination of prices for goods and/or services; services of a multimedia agency, namely planning and organisation of advertising measures, presentation of companies on the Internet and in other media; execution of auctions, also in the Internet; supply order service, invoice settlement for electronic ordering systems, goods and services presentation; brokerage and renting of advertising surfaces, also on the Internet;	
		Klasse:36 Insurance, effecting insurance (especially standard automobile public liability insurance, automobile personal liability and property-damage insurance and comprehensive coverage excluding collision), settlement of claims (insurance); finance, monetary transactions, real estate business; electronic capital transfer; home banking; telebanking, namely online settlement of banking transactions; financial consultation regarding investment of risk capital; leasing of transport networks for energy

Klasse:37

transmission; building management, namely renting of buildings; financial consulting services in the fields of energy, fuel cells, wind power plants and photovoltaic installations; financial energy consultation; development of integral energy concepts with respect to finance; financial consultation with respect to energy-saving measures and with respect to the optimisation of heating systems; financial services; house and real estate administration; building administration; caretaker services (included in this class); financing of measures in connection with land development; financing consultation and financial planning in the field of building management; automobile leasing, financing of the acquisition of automobiles; real estate transactions of any type; granting of monetary loans and negotiation of loans; financial promotion of the development as well as of the testing of electrically driven off-track vehicles; financial participation in innovative and technology-oriented enterprises; financial consultation in the field of production of electric and thermal energy.

Building trade, namely construction of waste treatment plants, construction of power stations, especially hydroelectric power stations, nuclear power stations, coal-fired power stations, gas and steam turbine power stations, combined heating and power stations, heating stations; construction of landfill gas-fired power stations and natural gas/solar heat plants; construction of solar power stations, wind power stations, hydropower stations, biogas power stations; construction of power stations, especially hydropower stations, nuclear power stations, coal-fired power stations, gas and steam turbine power stations, cogeneration systems, combined heating and power stations, heating stations, refuse incineration plants, energy-from-waste plants, hydropower and wind power stations, photovoltaic installations and transformer stations; installation work; repair business, namely repair of network systems, energy networks, waste treatment plants, power stations, irrigation plants, alarm systems, electrical appliances with the exception of apparatus for the reception, recording, transmission, output and reproduction of languages, sound or images, phonographs, facsimile radios, sound receiver terminals, image receiver terminals, televisions, CD-players, video recorders, sound amplifiers, sound reproduction apparatus, heating, air conditioning systems, refrigerators, telephones, stoves, office machines, machines, pumps, locks and automobiles with the exception of car radios, car-tape desks, car CD-players and/or car amplifiers; repair of data systems technology plants; network management, namely installation and maintenance of network systems (hardware); realisation (construction) and installation of distribution and transport networks as well as of transformer stations; construction of pipeline networks; construction and maintenance of energy generation and distribution plants, fuel cells, wind power stations and photovoltaic installations; maintenance of energy, fresh water and waste water plants and networks; realisation (construction) of cathodic corrosion protection plants; construction and maintenance of waste water and fresh water plants; technical building management, namely maintenance of buildings; cleaning of facades; installation of electric counters and meters for current, gas and water; plant engineering services, namely assembly, installation, maintenance, servicing, renovation, modernisation, expansion, conversion, rehabilitation and repair work of waste water and fresh water plants, conduits and other installations for their feeding and discharge, sanitary installations, heating, ventilation and air-conditioning plants, industrial plants, mechanical equipment and their parts, technical devices with the exception of

apparatus for the reception, recording, transmission, output and reproduction of languages, sound or images; phonographs; facsimile radios, sound receiver terminals, image receiver terminals, televisions, CD-players, video recorders, sound amplifiers, sound reproduction apparatus, installations and apparatus for the safeguarding of buildings, plants, transportation means, domestic appliances, information technology equipment as well as photovoltaic plants, utility service lines (e.g. gas and electricity), buildings and their parts; installation, maintenance and servicing of heat production, heat transport and heat distribution plants including meters for third parties; construction of gas plants, especially liquefied gas plants; construction of gas storage plants; construction and servicing of gas transport lines plus related installations, especially mixing, measuring and control stations as well as stations for transfer of gas, storage plants and telecommunication plants; services in the field of the repair business, namely repair of data systems technology plants, network systems, distribution and transportation networks, waste treatment plants, power stations, energy generation and distribution plants, waste water and fresh water plants and networks, buildings, sanitary facilities, heating, ventilation and air conditioning systems, industrial plants, mechanical equipment and their parts, technical equipment with the exception of apparatus for the reception, recording, transmission, output and reproduction of languages, sound or images; phonographs; facsimile radios, sound receiver terminals, image receiver terminals, televisions, CD-players, video recorders, sound amplifiers, sound reproduction apparatus and electric street lighting systems; maintenance and repair of filling stations for gaseous fuels; maintenance and repair of gas operated motor vehicles with the exception of car radios, car-tape desks, car CD-players and/or car amplifiers; cellular phone repairs; network management, namely installation and maintenance of network systems; maintenance of data systems technology plants; realisation (construction) of web stations; realisation (construction) and maintenance of electric street lighting; realisation (construction) of the supply and disposal infrastructure (lines and pipes for current, gas, water as well as for data, drains and sewerage system) in the development of building sites; road construction; cleaning of building (inside and outside); repair, maintenance and servicing of automobiles including performance of the required inspections and checks with the exception of car radios, car-tape desks, car CD-players and/or car amplifiers; repair of motor vehicles fleets; repair of motor vehicle fleets; cleaning of vehicles; installation of fixed network connections; construction, realisation (construction) and maintenance of cable infrastructures, wide area networks (WAN), local area networks (LAN), telecommunication systems, building installations and special networks, fire detection systems, detection systems and other media technology equipment; construction and maintenance of telecommunication networks with the integrated transmission method and switching including attributed network management; construction and installation of distribution and transportation networks; construction of sewage treatment plants; construction of telecommunication systems, electroacoustic plants, transmitting and receiving sets, common antenna installations; installation and repair of transmitting and receiving sets, mainly comprising transmitter-receivers, antenna masts and radio receivers; installation and repair of common antenna installations, mainly comprising receiver antennae for radio and TV signals, antenna wire and wiring; realisation (construction) of consumer installations (for

	gas/natural gas, local heating, cold); construction of air conditioning systems; services of a painter; installation and maintenance work within the scope of services of an electrical fitter, sanitary fitter, joiner, concrete worker, well digger, tiler, building constructor, road engineer, heat insulation worker, low temperature insulation worker, sound insulation worker, carpenter, electromechanic, heating and ventilation fitter, refrigerating plants' fitter, car mechanic, shopwindow constructor, fitter, plumber, all above mentioned services (included in this class); cleaning of apartments and buildings; ironing of laundry; furniture assembly and disassembly service; domestic automation, namely installation, repair and maintenance of heating systems, air conditioning systems, ventilation systems, sanitary facilities, management and control systems, each also by remote control; installation of apparatus and devices for remote operation and remote control of apparatus and devices in the domestic field and in the garden; repair business, namely detection of functional defects (also by remote diagnosis) and removal of such functional defects on domestic appliances and installations as well as in the garden.	
Klasse:38	Operation of telecommunication networks with the integrated transmission method and switching including attributed network management; providing access to a world-wide computer network; providing of Internet access (software) and hence to texts, images, audio-visual offers, multimedia offers, databases and computer programmes on the Internet; providing of Internet accesses (software); e-mail data services; data transfer on the Internet; connecting of Internet domains and e-mail addresses in computer networks; online services, namely transfer of messages, images and information of any type whatsoever; web messaging, namely forwarding of messages of any type to Internet addresses; consultation for telecommunications technology; providing telecommunication connections with a world-wide computer network; interactive videotex; telex services; broadcasting of television programmes and sound broadcast transmissions; telephone service; broadcasting of cable television programmes; communication by fibreoptic networks; line, routing and connection services for telecommunications; mobile radiocommunications service; collection and delivery of messages; transmission of messages; transmission of messages and images by means of computers; electronic message transfer; renting of devices for message transmission; paging by radio broadcasting, telephone or by any other means of electronic communication; services of a press agency, especially collecting and delivery of press reports; broadcasting of sound broadcast transmissions; satellite transmission; telephone service; telegraph service; telegraphing; telegram service; telegram transmission; information on telecommunications; telephone conference services; telecopying service; renting of telecommunication devices, especially of facsimile machines, modems, telephones; providing access to information in data networks; cellular phone lending and providing of stand-by cellular phones; Internet by call, namely providing of access to the Internet by separate dial-up into a network and separate invoicing without the necessity of a permanent contractual obligation with the network provider; operation of chatlines, chatrooms and discussion forums on the Internet; data transmission via power grids (powerline); renting of fixed network connections; preselection telephony; call-by-call telephony; providing access to an e-commerce platform on the Internet; providing access to Internet portals for third parties; providing of access to portals and platforms on the Internet; providing access to electronic information, communication and transaction platforms on the	Internet; providing and renting of access times to databases with search and polling possibilities. Klasse:39 Transportation; packing, storage and delivery of goods of any type whatsoever; organisation of travels; distribution of fresh water; providing of transport networks for transmission of energy for third parties for a consideration (included in this class); distribution of gas, heat for heating purposes and energy, especially current, water, heat (local and district heat), cold, especially to industrial customers, as well as supply to third parties by delivery of current, gas, water, heat (local and district heat) and cold; renting of cars; collection, storage, dumping and transport of refuse; waste water disposal; logistics services on the transport sector; moving services, especially renting of vehicles for moving services; logistics services with respect to moving; transportation of goods and individuals with ships and automobiles; towing away of automobiles within the scope of the automobile roadway repair service; performance of moving services; transportation of goods by truck; providing of parking and store space for third parties by parking space services and renting of parking space; operation of parking garages; administration of motor vehicle fleets; storage of spare parts for third parties as well as of technical and other consumables such as for example cleansing agents and toilet paper in connection with the maintenance and servicing of buildings; transportation of cellular phone for repair purposes (cellular phone repair pick-up service); distribution of fuels, especially distribution of gaseous fuels by means of pipelines, storage of fuels, especially in underground pore and cavern reservoirs; supply and distribution of gas; delivery of gas to consumers; transfer of gas, transport and distribution of heat generated by natural gas; heat transport and heat distribution plants; storage of liquefied natural gas; transport, storage and supply of energy by means of power grids; distribution of current and other energy volumes in power grids according to demand; transport of gases and liquids, especially of natural gas by means of power grids, also by subcontractors as well as services in connection with the transport of gases and liquids, procurement of transport capacities in third party power grids; storage of gas, especially liquefied gas for third parties; filling of gas into containers for third parties; operation of filling stations for gaseous fuels, namely fuelling of vehicles; hiring out of vending machines for gas.
		Klasse:40 Material processing; technical treatment of water and waste water; waste water disposal by waste water treatment; fresh water treatment; refuse recycling; recycling and disposal of refuse by compost preparation, chemical transformation, treatment, destruction and combustion; thermal disposal; destruction of refuse; generation of energy and heat (local and district heat); generation of energy by the operation of fuel cells, wind power plants and photovoltaic plants; exhaust air purification; refuse incineration; key copying services; preparation of gas, especially natural gas and petroleum gas; gas treatment, especially liquefied gas treatment, for third parties; chemical processing for the production of liquefied gas; production of heat from natural gas; hiring out of heat production.
		Klasse:41 Education, training; execution of training courses; sporting and cultural activities; entertainment, also on the Internet; hiring out of entertainment companies; performance of games, also online; issuing of publishing and printer's products in electronic form, also in intranets and on the Internet; personnel training; planning and execution of educational events; operation of public swimming pools for entertainment and sporting purposes; digital imaging.

Klasse:42 Scientific and technological services and research work and designer services in this respect with the exception of agricultural services; services of an engineer for gas, water and district heat networks; industrial analysis and research services; design and development of computer hardware and software; legal advice and representation; weather forecast, also online; scientific and industrial research and development; environmental services, namely environmentally related consultation, technical development of concepts for the environmental risk management; technical planning, technical management of refuse treatment plants and gas storage plants; technical consultation and technical activity of an expert; building and construction planning and consultation; energy management, namely technical management of energy generation and distribution plants by providing technical know-how; technical management of power stations, especially hydroelectric power stations, nuclear power stations, coal-fired power stations, gas and steam turbine power stations, combined heating and power stations, heating stations, refuse incineration plants, energy-from-waste plants, hydropower and wind power stations, photovoltaic installations and transformer stations, solar power stations, wind power stations and biogas power stations; providing the technical know-how for the technical operation of distribution and transportation networks, workshops, refuse treatment plants as well as of transformer stations by providing technical know-how; technical planning and technical operation of electric street lighting systems, of sewage treatment plants and of air conditioning systems; technical operation of telecommunication networks; services of an engineer, especially providing of services of an engineer for installations of transformation and application of energy and gas; technical building management (included in this class); technical planning of waste water and fresh water systems; technical planning of energy systems; technical and ecological consulting services in the energy field, especially technical energy consulting for households, trade and industry; technical consulting in connection with energy-saving measures and in connection with the optimisation of heating systems; energy management, namely technical consultation and planning of energy generation and distribution plants, fuel cells, wind power plants and photovoltaic installations; technical planning and technical operation of gas transport lines plus related installations, especially mixing, measuring and control stations as well as stations for transfer of gas, storage plants and telecommunication plants; technical consultation, planning and technical management of energy generation and distribution systems, fuel cells, wind power plants and photovoltaic plants; technical management of waste water and fresh water plants as well as of lighting systems and plants for gas supply; expertise preparation on technical questions with respect to energy, water, waste water and lighting equipment; development of integral energy concepts on a technical and ecological level (consultation on environmental protection and technical energy consultation); acceptance and granting of licenses; acceptance, execution and granting of research and development orders; research and development, especially in the field of environmental technology; services in all fields of energy and water management and supply, namely preparation of energy management analyses and technical concepts taking into consideration ecology and infrastructure; technical development of infrastructure plans; technical measurements of current and natural gas; provision and renting of gas, current and water meters; technical water laboratory services; development of software architectures,

modules and interfaces for electronic and electrotechnical equipment, component parts and systems; technical promotion of the development as well as testing of electrically driven off-track vehicles; technical consultation on, technical planning and operation (by providing of technical know-how) of cathodic corrosion protection of pipelines; technical planning and technical consultation with respect to cathodic corrosion protection of pipeline networks; technical operation of cathodic corrosion protection plants; technical planning, inspection and design planning of pipeline networks; technical operation of street lighting equipment (included in this class); providing of services of an engineer for plants of transformation and application of energy and gas; preparation of technical concepts for house building planning; services of a surveying office; preparation of construction drawings; technical participation in innovative and technology oriented enterprises as well as licensing of know-how and industrial property rights; technical planning and technical operation of refuse treatment plants, landfill gas-fired power stations and natural gas/solar heat plants; technical planning of telecommunication networks with integrated transmission method and switching including attributed network management; services of a communication technician, especially with respect to audio-visual media such as video pages and video boards (included in this class); technical operation of geographical information systems; technical inspection of equipment, machines and plants of any type; network management, namely installation and maintenance of network systems (software); technical operation of cable infrastructures, wide area networks (wan), local area networks (lan), telecommunication systems, building installations and special networks, fire detection systems, detection systems and other media technology equipment; maintenance of internet portals (software) for third parties; providing consulting services on the use of search engines to internet users through a hotline service; technical consulting through hotline services; technical preparation of multimedia presentations by software programmes; consultation concerning the design of homepages and internet pages; services of a data base, namely operation of search engines for the internet; preparation and design of websites and parts of websites on the internet by means of computer-generated images and sounds (computer animations); server administration; consultation for telecommunication technology; providing of computer programmes in data networks; electronic data storage for third parties; design of homepages and web sites; services of an internet agency, namely planning and maintenance of internet contents, hardware and software consultation, implementation of edp programmes in network structures as well as digital storage of software, data, images, audio and/or video information; renting of data carriers with software, data, images, audio and/or video information stored on such data carriers (included in this class); services of a certification authority (trust center), namely issuance and administration of digital codes and/or digital signatures; renting of web servers; providing of memory space on the internet; licensing of software; technical consultation concerning the internet; verification of digital signatures; introduction of websites on the internet for third parties (webhosting); development of software for internet and intranet applications; providing of programmes for the creation of internet pages and computer programmes; award, registration and administration of domain names and e-mail addresses; scientific and technological consultation for refuse disposal; consultation in communications technology, technical consultation in the field of geographical

information systems; technical management of energy, water and waste water plants and networks; technical operation of distribution networks; preparation of technical concept and project studies in the field of gas technology, especially in the field of gas transport and gas application; preparation of programmes for data processing, especially programmes in the field of gas transport and gas application as well as in the field of providing of energy supply contracts; technical consultation in the field of production of electric and thermal energy; planning of gas plants, especially liquefied gas plants; plant engineering services, namely design, of waste water and fresh water plants, conduits and other installations for their feeding and discharge, sanitary installations, heating, ventilation and air-conditioning plants, industrial plants, mechanical equipment and their parts, technical devices, installations and apparatus for the safeguarding of buildings, plants, transportation means, domestic appliances, consumer electronics and information technology equipment as well as photovoltaic plants, utility service lines (e.g. gas and electricity), buildings and their parts; hiring out of measuring apparatus and instruments (included in class 42), in particular gas meters, air pressure meters, electricity meters, voltage meters and meters for heat consumption.

Klasse:43 Services for providing food and drink; temporary accommodation; operation of kitchens, canteens and restaurants; providing food and drink for employees and guests in canteens and casinos within the scope of enterprises, authorities and other public institutions.

Klasse:44 Gardening services.

Klasse:45 Personal and social services rendered by others to meet the needs of individuals; security services for the protection of property and individuals; services for the private household, namely cooking, shopping and child care; services in the field of domestic safeguarding; services of a security company; guarding of real estate.

Rettelser

I Varemerketidende nr. 15/09-41/09 (2009.04.06-2009.10.05) ble det i oppføringene i seksjonen "Begrensing i varefortegnelsen for internasjonale varemerkeregistreringer" kunngjort feil varefortegnelse. Den gamle varefortegnelsen ble kunngjort i stedet for den nye. Alle oppføringene fra denne perioden blir derfor kunngjort på nytt i denne ukes Varemerketidende. Se s. 121.
