(571) **Merket er et bevegelsesmerke**  
**Beskrivelse av merket**

Varemerket består av en animasjonssekvens. Sekvensen begynner med at de tre bokstavene DNB tegnes ut fra et punkt i hver bokstav til bokstavene er fullt tegnet ut i grønn farge. Bokstaven D starter å tegnes ut litt før bokstaven N som også starter å tegnes ut litt før bokstaven B, men uttegningen av bokstavene overlapper hverandre i tid og bokstavene ferdigtegnes i samme rekkefølge som de startet. Bokstaven D og B tegnes ut fra det øverste punktet i venstre rette linje i bokstaven og nedover og tegnes ut i retning mot klokken, og bokstaven N startes å tegnes ut fra nederste venstre punkt. Deretter legges bunnteksten inn ord for ord i sort under den grønne DNB logoen ved at ordet «Fra» legges til, deretter bokstaven «Å», og deretter ordet «til» og mot slutten legges siste elementet bokstaven «Å» til. Sekvensen har en varighet på ca. 6 sekunder.

## Internasjonale varemerkeregistreringer

Internasjonale varemerkeregistreringer som gjelder for Norge ved utpekning etter Madridprotokollen. Innsigelsesperioden utløper 3 mnd. fra kunngjøringsdato, jf. varemerkeloven § 71.

- Generell informasjon om kunngjøringer etter Madridprotokollen**
- Int.reg.nr.:** Det vil si det internasjonale registreringsnummer som WIPO har gitt søknaden om internasjonal registrering.
- Int.reg.dato:** Det vil si den dato en internasjonal registrering anses for å ha skjedd, jf. varemerkeloven § 72 og Madrid-protokollen artikkel 3 (4).  
Dersom den internasjonale registreringen besluttet gjeldende i Norge, vil registreringsperioden på 10 år regnes fra den internasjonale registreringsdatoen.
- Etterfølgende utpekingsdato:** Det vil si datoen for rettsvern i Norge hvor utpekingen ikke har skjedd i forbindelse med den internasjonale registreringen.
- Prioritet:** Internasjonale søknader kan påberope seg prioritet etter Pariskonvensjonen artikkel 4 fra det land merket først ble søkt registrert. Dette vil ofte være søkers hjemland idet en internasjonal registrering må bygge på en hjemlands-registrering eller -søknad.
- Besluttet gjeldende dato i Norge:** Det vil si den datoen det innføres i varemerkeregisteret at den internasjonale registreringen gjelder i Norge, jf. varemerkeloven § 70.

Klasse 9 Apparatus and instruments for signalling, perception, conversion, recording, transmission or reproduction, detecting and analysis of signals, sound and images, all of the foregoing excluding telephones and telecommunications equipment; sensors and detectors; security, safety, protection and signalling apparatus; alarms and warning equipment; measuring, detecting and monitoring instruments, indicators and control units, including sensors for detecting fluids and diseases and similar incidents, pressure sensors; apparatus and instruments, sensors and detectors, for signalling, perception, conversion, recording, transmission or reproduction, detecting and analysis of signals and sound, all for protecting the hearing and improving the perception of sound, all for the purpose of protecting the hearing and improving the perception of sound; apparatus and instruments for transmitting and receiving vibration signals; alarms for deaf people, people with impaired hearing and/or people with impaired vision; luminous and/or mechanical signals; warning signals; bells [warning devices]; flashing lights (signalling lights); buzzers; amplifiers; listening apparatus for television, radio, computers and the internet; radio, infrared and wired communication apparatus, not including telephones, aerials or inverters; in-ear monitoring systems; transmitters; hearing aid batteries; receiving apparatus; transceivers; video players; parts and fittings for the aforesaid goods; downloadable software and software in the form of mobile applications for signalling, perception, conversion, recording, transmission or reproduction, detecting and analysis of signals, sound and images, sensors and detectors, security, safety, protection and signalling apparatus, alarms and warning equipment, all of the foregoing excluding telephones and telecommunications equipment; measuring, detecting and monitoring instruments, indicators and control units, including sensors for detecting fluids and diseases and similar incidents, pressure sensors; apparatus and instruments for signalling, perception,

conversion, recording, transmission or reproduction, detecting and analysis of signals, sound and images, for helping and aiding people with normal hearing in difficult listening conditions; apparatus and instruments for signalling, perception, conversion, recording, transmission or reproduction, detecting and analysis of signals, sound and images, for helping and aiding people with impaired vision.

Klasse 10 Medical and veterinary apparatus and instruments; medical apparatus and instruments for signalling, perception, conversion, recording, transmission or reproduction, detecting and analysis of signals, sound and images, for helping and aiding deaf people and/or people with impaired hearing; health monitoring systems for medical purpose including health monitoring sensors; medical measuring, detecting and monitoring instruments, indicators and control units, including sensors for detecting fluids and diseases and similar incidents, blood pressure measuring apparatus, medical and surgical apparatus and instrument for helping, aiding and making it possible to hear and/or perceive in some other way signals, sound and images, surgical and medical apparatus and instruments for protecting, investigating and treating hearing impairments, deafness and the ears and function of the ears; hearing aids; hearing protection devices; cleaning kits for hearing aids, namely brushes, picks, tube and vent cleaners, drying capsules, blowers; ear plugs; parts and accessories for the foregoing; medical apparatus and instruments for helping and aiding people.

Klasse 37 Installation, cleaning, repairing and maintenance of apparatus and instruments, sensors and detectors for signalling, perception, conversion, recording, transmission or reproduction, detecting and analysis of signals, sound and images; installation, cleaning, repairing and maintenance of security, safety, protective and signalling apparatus, alarms and warning equipment, measuring, detecting and monitoring instruments, indicators and control units, including sensors for detecting fluids and diseases and similar incidents; installation, cleaning, repairing and maintenance of pressure sensors; installation, cleaning, repair and maintenance of apparatus and instruments, sensors and detectors, for signalling, perception, conversion, recording, transmission or reproduction of sound, all for protecting the hearing and improving the perception of sound, all for the purpose of protect the hearing and improve the perception of sound; installation, cleaning, repairing and maintenance of apparatus and instruments for transmitting and receiving vibration signals, amplifiers, alarms, luminous and/or mechanical signals, listening apparatus for televisions, radio, computers and the internet, radio infrared and wired communication apparatus, in-ear monitoring systems, microphones, warning signals, warning bells, flashing lights (signalling lights), receivers, transceivers, batteries for hearing aids, buzzers, parts and accessories for the aforesaid goods, and information and consultancy relating thereto; installation, cleaning, repairing and maintenance of apparatus and instruments for helping and aiding people.

 Klasse 1 Chemicals for use in the treatment and conditioning of water; emulsifiers; surface-active substances; refrigerants; grease dissolving preparations for use in industrial processes; reagents used for the quantitative determination of nitrogen and other elements in chemical substances; antibody reagents; reagents for use in polymerase chain reaction for DNA sequencing; chemical cleaning agents for use in industrial processes; chemical cleaning agents for use in the food processing industry, including the dairy industry; additives; acid and other detergents with germicide for clean-in-place (CIP) systems in the food processing industry, including the dairy industry; filtering media of artificial or natural substances, included in this class; unprocessed artificial resins; unprocessed plastics; fire extinguishing compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives used in industry.

Klasse 2	Dyes (other than for office use); livestock markers, namely spray paints for the color marking of animals; tracer dye for use in weed killing and in agriculture.	processing and for metal processing industries, for shipping, for drilling platforms and for use in cellars; machines for the production and processing of dry ice, cubed, crushed and flaked ice; motors, pumps and compressors for refrigerators and freezers; machines, mechanical apparatus and plants for the manufacturing of gases, chemical products, foodstuffs, including beverages; machines for dividing, clarifying, separating, mixing and conveying of liquid and/or solid mixtures and substances; centrifugal mixers; powder mixers; reverse osmosis machines for increasing the concentration of dissolved substances in liquids, filtering machines, separators, decanters and centrifuges; cartridges for filtering machines; rotating brush sieves; cyclones as parts of machinery; oil separators; filters, sieves and membranes as parts of machines and for motors and engines; compressors and fans; pumps, in particular for beverages and other foodstuffs; blowing machines; pump diaphragms; suction machines for industrial purposes; electric machines and apparatus for cleaning and implements; steam cleaners; food and beverage processing and preparation equipment, namely butter machines, computer-operated and non-computer-operated machines and installations for the processing, further processing and packaging of foodstuffs, namely meat, poultry, fish, cheese, potatoes, vegetables and other vegetarian products, computer-operated and non-computer-operated machines and installations for the pre-processing, processing and packaging of foodstuffs, namely meat, poultry, fish, cheese, potatoes, vegetables and other vegetarian products, in particular knives, mills, mixers (machines), emulsifying machines, machines for sausage production, apparatus for the production, processing and portioning of flour, albumen and bread crumbs, as well as automatic machines for the storage and packaging of foodstuffs, vacuum packing machines and assembly lines and machinery apparatus and mechanical equipment for the production, processing and refining of foodstuffs, semiluxury food and beverages; food slicers; slicers (machines, electric); sausage making machines; labelling machines (other than for office use); printers (other than for office use); moving and handling equipment; agitators; lifting and hoisting equipment; handling machines, automatic (manipulators); palletisers; machines for lifting and accessories; bottle filling machines; bottle washing machines; bottle capping machines; conveyors; belt conveyors; loading machines; automatic loading systems; manure augers; vacuum packing machines; packaging machines; wrapping machines; foil wrapping machines; engines, powertrains and generic parts for machines; pressure regulators (parts of machines); heat exchangers being machine parts; crankcases for machines, motors and engines; hydraulic controls for machines, motors and engines; pneumatic controls for machines, motors and engines; pistons (parts of machines and engines); regulators (parts of machines); steam traps; control mechanisms for machines, engines or motors; valves (machine parts); connection fittings for machines; expansion compensators, namely machine parts for compensating thermal stress; cleaners (machine parts); machines for the energy and power plant industry; machines for the energy technology, as far as comprised in class 7; compressors for refrigerators; machines for agglomeration, granulation and lamination (coating) of materials, including foodstuffs and pharmaceutical preparations, and plants composed of the aforementioned machines used for applying the fluid bed technology for commercial purposes; sealing machines for industrial purposes; filling machines; atomizers; machines using microwave technology for commercial purposes; machines for agricultural engineering purposes; environmental technology machines for commercial purposes; machines for industrial plant construction; machine tools; machines and installations composed thereof for applying the spraying technology and spray drying technology for
Klasse 3	Cleaning, fragrancng, polishing, scouring and abrasive preparations (other than for office use); detergents; laundry preparations; toiletries; soaps; skin care preparations; cosmetics for livestock; cloths impregnated with a detergent for cleaning and care; cleaning agents for use in the processing industry, including the food processing industry.	
Klasse 4	Industrial oils and greases; mineral and non-mineral oil for industrial purposes, namely for machinery; lubricants; lubricating oil; dust absorbing, dust wetting and dust binding compositions; fuels (including motor spirit) and illuminants; candles and wicks for lighting.	
Klasse 5	Disinfectants and antiseptics; bactericides; disinfectants for cooling apparatus; disinfectants for the food processing industry, including the dairy industry; disinfectants for dairy animals, for milkers and for machines, devices and other equipment used in the dairy industry; teat disinfectants; disinfectants washes; disinfectants impregnated into tissues; medical and veterinary preparations and articles; veterinary products for the dairy industry; bacteriological preparations for medical or veterinary use; bacteria poisons; antiseptic sprays in aerosol form; mineral and dietary supplements for animal feed; iodine; medicated additives for animal foods; lotions for veterinary purposes; milking grease; pharmaceutical preparations; hygienic preparations and articles; pest control preparations and articles; algacides; preparations in the form of liquids or powders for removing moss; fly combating preparations; lice destroying preparations; insect repellents; biocides; preparations for destroying vermin; germicides for use in the food processing industry, including the dairy industry.	
Klasse 6	Common metals and their alloys; metal building materials; transportable buildings of metal; materials of metal for railway tracks; non-electric cables and wires of common metal; ironmongery and small items of metal hardware; pipes and tubes of metal; unprocessed and semi-processed materials of metal, not specified for use; valves of metal (except for machine parts); expansion compensators and accessories thereof; pipes, tanks, rods, tubes of metal and fittings and accessories thereof; pipework, fittings and flanges of metal; fittings of metal for compressed air ducts; parts for animal stalls, milking parlor equipment, milk containers, vats, channels, tubs, gates, borders, doors, portals, barriers, grates, all mainly of metal, as well as fittings and accessories thereof; earmarks of metal for livestock; containers, and transportation and packaging articles, of metal; closures of metal for containers; containers of metal for compressed gas or liquid air; metal hardware; pipe jackets of metal; transfer tubes of metal.	
Klasse 7	Machine tools for treatment of materials and for manufacturing (other than for office use); motors and engines (except for land vehicles and other than for office use); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; emulsifying machines and homogenizers (for chemical processing or food production); brewing machines; kneading machines; mixers (machines); drilling machines; electric knives; blade holders (parts of machines); knives (parts of machines); stropping machines; shaping and moulding machines (other than for office use); pressing machines; mills and crushing machines; rasps (machines); machines, mechanical apparatus, implements and parts thereof for the processing industry, in biotechnology, for use in the production and processing of drinking water, on oil rigs, in land and sea vehicles; machines, mechanical apparatus, implements and parts thereof for the industrial manufacturing and process technology, for the chemical, pharmaceutical, cosmetic, food and beverage industry, for agricultural and dairy purposes, for oil extracting and oil processing, for energy producing, waste water	

- commercial purposes; agricultural, earthmoving, construction, oil and gas extraction and mining equipment; agricultural equipment; electric machines for the processing of foodstuffs; fodder presses; rotary and linear milking parlor installations; semi-automatic and automatic milking machines; milking installations; component parts for milking machines; pumps and pulsators for the dairy industry; udder washing and spraying apparatus; automatic feeding machines; milking parlor equipment, namely manure scrapers; tractor-towed farm implements; waste management systems, processing systems and recovery systems for manure, slurry and other animal waste, namely pumps or scrapers for the transport of solid and liquid animal excretions as well as presses for the separation of undigested solid elements; mechanized livestock feeders; machines and machine-operated equipment for cleaning and disinfecting purposes for use in the processing industry, including the food processing industry, in particular the dairy industry, namely machines for the disinfection of teats and hooves; installations and components for processing and the disposal of manure and slurry for the generation of energy, namely pumps and conveyors; sweeping and cleaning machines; cleaning devices and machine-type cleaning apparatus, in particular chemical and/or mechanical cleaning apparatus and installations, in particular for the dairy industry, the brewing and beverage industry, the food industry, the chemical, pharmaceutical and cosmetics industry; stable cleaning machines; road rollers; robots (machines); condensing installations; vacuum machines and installations composed thereof; vacuum installations being parts of milking machines; bottling plants for the bottling of solid, pasty and liquid substances and of heterogeneous substance mixtures; pumps for the food processing industry, including milking machine pumps; extractors for milking clusters, namely apparatus for removing the milking equipment from the udder; dust removing installations and equipment; installations for the collection of liquids; machines and mechanical apparatus for the concentrating, dispersing, suspending, filtering, separating, agglomerating, extracting, fermenting, homogenizing, adding gas and aerating of solid, liquid and/or gaseous substances, including their intermediates and precursors of synthetic, plant or animal origin, in particular including milk, milk products, milk intermediates, cheese, cheese products, cheese intermediates, butter, butter products, butter intermediates, coffee, beer, juices, meat, fish products and nutritional supplements products of the petrochemical, chemical and pharmaceutical industry and in particular of commercial or industrial waste, wastewater or exhaust gases; machines for filtering waste milk for feeding calves; installations for thickening of suspensions by means of decantation or evaporation; plants and apparatus for applying the fluid bed technology for commercial and industrial purposes; plants and apparatus for applying the spray technology, namely spray-dryers and spray-granulators.
- Klasse 8 Hand-operated tools and implements for treatment of materials, and for construction, repair and maintenance.
- Klasse 9 Regulating and switching installations, apparatus and instruments (other than for office use); detecting and monitoring instruments, indicators and controllers; food analysis apparatus; quantity indicators; telemeters; diagnostic apparatus, not for medical purposes; transducers; flow meters; pressure gauges; refractometers; spectrometers; thermometers; remote controls; dosage dispensers; automatic liquid flow controls; control and regulating installations for managing and monitoring dairy herds; testing apparatus, not for medical purposes; alignment and calibrating instruments; vacuum gauges; scales; sensors and detectors; scanners (other than for office use); luminescence scanners; electronically encoded identity devices; electronically encoded identity devices for livestock; transponders; electric apparatus for commutation; X-ray apparatus, not for medical purposes; safety, security and protection devices; neck tags (electronic transmission and reception apparatus) and responders for livestock; protective and safety equipment; protective boots; protective gloves and protective clothing; protective goggles; observation instruments; closed-circuit video observation systems comprised of closed circuit television camera and video monitor; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity; electrical contacts; electric relays; scientific surveying, photographic, cinematographic, optical and weighing apparatus and instruments; scientific research and laboratory apparatus, educational apparatus and simulators; chemistry apparatus and instruments; apparatus, instruments and cables for electricity; printed circuit boards; load cells.
- Klasse 10 Veterinary apparatus and instruments; apparatus for stimulating the udder of dairy cattle; apparatus for monitoring the health status of livestock.
- Klasse 11 Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply as well as sanitary installations; air treatment and air purification equipment; deodorizing apparatus; air purifying installations; ventilation hoods; commercial and industrial dehumidifiers; HVAC systems (heating, ventilation and air conditioning); heat-recovery installations; air cooling apparatus; air purifying apparatus and machines; electrically powered blowers for ventilation; electric fans; regulating and safety accessories for water and gas installations; wet cooling towers and dry cooling towers with natural ventilation and/or forced ventilation for the cooling of liquid and/or vaporous media; burners, boilers and heaters; heat exchangers, not parts of machines; heat regenerators; furnaces; air reheaters; heat pumps; steam accumulators; heat accumulators; heat generating apparatus; stoves; incinerators; refrigerating and freezing equipment; refrigerating appliances and installations; cooling aggregates and cooling machines; refrigerating chambers; ice machines and apparatus; cooling condenser units consisting of a cooling component and a condenser (capacitor); transport refrigeration units for land, air and water vehicles, trailers, shipping boxes and containers; water cooling apparatus; cooling installations, in particular for foodstuffs, including milk cooling installations; cooling and refrigerating installations for the construction industry for the cooling of concrete; cooling and refrigerating installations for the mining industry; cooling and refrigerating installations for sports and leisure facilities; refrigerating containers; ice making machines; lighting and lighting reflectors; lighting apparatus; LED lighting apparatus; appliances for illumination; discharge tubes, electric, for lighting; infrared and ultraviolet lamps not for medical purposes; sanitary installations, water supply and sanitation equipment; sterilization, disinfection and decontamination equipment; disinfectant apparatus; autoclaves; water sterilizers; sterilizers for foodstuffs, including milk; steam sterilizers; water purification, desalination and conditioning installations; agricultural irrigation units; installations and apparatus for wastewater treatment; reverse osmosis devices, water filtering apparatus and water purification installations; pipes being parts of sanitary facilities; sterilizers (not for medical purposes); food and beverage cooking, heating, roasting, grilling, cooling and treatment equipment; electric deep fryers; cooker hoods for industrial use; electric cooking utensils; electric kettles; coffee bean roasting machines; food dryers; roasting apparatus; infrared and microwave ovens for industrial purposes; pasteurizers; industrial treatment installations; industrial ovens and furnaces (not for food or beverages); heat exchangers for chemical processing; flare stacks; drying apparatus for chemical processing, distillation apparatus for chemical processing, evaporators for chemical processing,

- steamers for chemical processing; distillation columns and units; industrial water treatment plants; gas scrubbing apparatus and gas purifying installations; industrial installations for filtering liquids; sewage treatment installations; drying apparatus and installations; crystallizers; installations for the purification of gas; heat regenerators; vaporizing installations, apparatus and appliances; drying apparatus; humidifying installations and equipment; humidifiers; filter systems; cleaning installations and equipment for liquids; water purification, water treatment, water supply and water desalination installations and equipment; apparatus and equipment for the separation of solid and liquid materials of gaseous and/or liquid media; apparatus and equipment for exhaust steam and waste heat recovery; automatic watering installations; pressure water tanks; clean chambers (sanitary installations); water intake apparatus; water filtering apparatus; water softening apparatus; water distribution installations; water heaters; water heating installations; air treatment apparatus and machines; germicidal lamps for purifying air; filters for industrial and household use; filters for the separation of solid or liquid substances from liquids or gases, including the air; flues and installations for conveying exhaust gases; gas condensers, other than parts of machines; ionization apparatus for the treatment of air; valves being parts of sanitary, heating, steam generating, cooking, refrigerating, drying, ventilating and water supply installations; installations and apparatus for the thermal treatment as well as for the thermal processing of foodstuffs, semiluxury food, beverages and animal feed, in particular for warming, heating, pasteurizing, distilling, refrigerating, freezing, chilling, condensing, spray drying, freeze-drying and drying; milking parlor equipment, namely air curtains and aerators; distilling machines; mechanical watering systems for livestock; all aforementioned goods also manufactured according to customers' order.
- Klasse 17 Rubber, gutta-percha, gum, asbestos, mica; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible tubes (not of metal); seals, sealants and fillers; pipes of rubber, silicone rubber or other synthetic materials for the food processing industry, including milk lines; teat rubber; flexible pipes, tubes, hoses, and fittings therefor, including valves; seals for pipe connections; flexible tubes (not of metal); insulation jackets for industrial pipes.
- Klasse 18 Leads, straps, collars and harness of leather and imitation leather, for animals.
- Klasse 19 Transfer tubes (not of metal); pre-fabricated building materials (not of metal) for the construction of animal stalls.
- Klasse 20 Furniture, mirrors, picture frames; fastening material of plastic; valves, not of metal; non-metallic bins (other than dust bins); cupboards for the dairy industry; tanks, not of metal nor of masonry; boxes made of wood or plastic; fodder racks.
- Klasse 21 Water troughs; feeding troughs; troughs for livestock; tableware, cookware and containers; cups; bottles; brushes; troughs, mainly of metal; watering cans.
- Klasse 25 Clothing; shirts, t-shirts, jackets, wind-resistant jackets, sweatshirts, vests, sweaters, sweat pants, ties, gloves and overalls; hats; caps.
- Klasse 27 Floor coverings; floor coverings and artificial ground coverings; mats; mats for livestock farming.
- Klasse 35 Advertising; marketing; promotional services; publication of publicity texts; public relations; market studies; market analysis; computerized business information services; computerized inventory control; administration of third party business interests (control, management, supervision); business appraisals; business assistance, management and administrative services; business consulting; accountancy, book keeping and auditing; business consulting services relating to data processing; business planning; business advisory services for traders and the branch office staff in the milk-producing industry in the field of branch management, namely planning of the sales area development, sales planning and marketing planning, distribution techniques, distribution route management planning, personnel management and operational management; updating and maintenance of data in computer databases; business project management services for construction projects; business strategy development services; data processing; business analysis, research and information services; commercial information agency; collection and systematization of information into computer databases; drawing up of business statistical information; business feasibility studies; commercial trading and consumer information services; import and export services; retail and wholesale trade in the fields of pharmaceutical, veterinary and sanitary preparations; conducting of business surveys.
- Klasse 36 Insurance; financial affairs and monetary affairs, including leasing transactions; corporate trustee services; financing and loan services; deposit banking; real estate affairs; financial information, data, advice and consultancy services; financial consulting services.
- Klasse 37 Building construction; installation, repair and maintenance of machines, mechanical apparatus, implements, motors and engines for the industrial manufacturing and process technology, for the chemical, pharmaceutical, cosmetic, food and beverage industry, for agricultural and dairy purposes, for oil extracting and oil processing, for energy producing, waste water processing and for metal processing industries, for shipping, for drilling platforms and for use in cellars; installation, repair and maintenance of regulating, checking (supervision), control, measuring and switching installations, apparatus and instruments, detecting and monitoring instruments, data processing installations and equipment, data collection installations and equipment, data output installations and equipment and data transmission installations and equipment; installation, repair and maintenance of lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply as well as sanitary installations; steel structure construction works; building construction, including civil engineering construction and including for the building of industrial and mechanical installations and of buildings; building construction supervision; installation of industrial and mechanical installations; construction information; cleaning services; installation of temporary structures for trade fairs; interference suppression in electrical apparatus; retrofitting and modification of machines; repair or maintenance of machines, installations (facilities) and apparatuses; installation, maintenance and repair of machines, installations (facilities) and apparatuses; installation, maintenance and repair of plants on farms; advisory relating to installation, maintenance and repair services; providing information relating to installation, maintenance and repair services; rental of machines, mechanical apparatus, implements and motors for the oil extracting and oil processing, for energy producing, waste water processing and for metal processing industries, for drilling platforms and for underground mining; rental of drying, steam generating, ventilating and water supply apparatus.
- Klasse 39 Packaging and storage of goods; transport services; delivery services; delivery of equipment for trade and industry, including the food processing industry, including dairy farms; delivery of dairy farm hygiene products, namely, dairy farm equipment hygiene products and animal hygiene products; delivery of animal health products; delivery of supplies for dairy farms and for the production of foodstuffs, industrial goods or industrial products and repair and replacement parts for dairy farm equipment and for the production of foodstuffs, industrial goods or industrial products; rental of machines, mechanical apparatus and motors for marine purposes; providing information relating to the rental of machines and apparatus for foodstuff packaging; rental of refrigerating apparatus.

Klasse 40 Processing of metals, plastics and natural resources, namely rubber, gutta-percha, gum, asbestos, mica, stone, wood and leather; material treatment information; refrigerant recovery services; providing information relating to the processing and conversion of foodstuffs; printing, and photographic and cinematographic development; photographic processing; custom manufacture and assembly services; rental of machines, mechanical apparatus, implements and motors for the industrial manufacturing and process technology, for the chemical, pharmaceutical, cosmetic, food and beverage industry and for dairy purposes; rental of heating apparatus; providing information relating to the rental of air conditioning apparatus or of chemical processing machines and apparatus; providing information relating to the rental of machines and apparatus for food processing or beverage production; providing information relating to the rental of room cooling units for commercial or industrial purposes; providing information relating to the rental of water purification apparatus.

Klasse 41 Online provision of electronic and non-downloadable educational content and information via apps (applications) and programs for mobile devices and computers; arranging and conducting of seminars in the field of food and beverage industry as well as the pharmaceutical, chemical and processing industry; coaching; provision of training facilities; translation services; publishing and reporting; publication services; providing electronic publications (not downloadable); electronic desktop publishing; publication of periodicals and books in electronic form, including on the Internet; editing of texts (except publicity texts); publication of reports in the fields of science and technology.

Klasse 42 Scientific services; technical surveying of industrial processes; engineering services; physics research; construction drafting; architectural and urban planning services; industrial and medical research; consultancy in the field of energy-saving; research in the field of agricultural chemistry; IT programming services; IT consultancy, advisory and information services; duplication of computer programs and conversion of computer programmes and data [not physical conversion]; decoding of data; IT security services in the nature of protection and recovery of computer data; software design, development, programming and implementation; computer programming; data mining; hosting services and software as a service and rental of software; cloud computing; architectural and construction drafting and consultancy; preparation of data processing programs; rental of computer software; validation and quality assurance with respect to software components and hardware components; consultancy relating to computer software maintenance; design, technical development and technical planning of industrial plants and machines; scientific services and research and design relating thereto; industrial analysis and research services; design and development of computer software; consultancy services for dairy producers in the field of water quality testing and analysis and maintenance assessment of the performance and reliability of milking and cooling systems and of the udder washing system function; technical consultancy services to assist dairy producers in optimizing milk production performance and in maximizing milking efficiency by analyzing data, namely, milking vacuum levels, pulsation rates, ratios and characteristics, liner design and composition, milk production and dairy operator routines; consultancy in the field of dairy parlor and dairy facilities by providing technological consultation on milking equipment, level of automation, technical equipment monitoring measures, electrical equipment needs, water quality monitoring, design and planning of milking boxes; consultancy in the field of science, engineering and information technology; consultancy in the field of numerical fluid mechanics and development of fluid-mechanical computer models; consultancy regarding

 (531) **Fig. klass.:** 050706 Skallfrukter (mandler, peanøtter, kakaobønner, valnøtter, eikenøtter, hasselnøtter, etc.)  
 (730) **Innehaver:**  
 K-fee System GmbH, Senefelderstrasse 44, 51469 BERGISCH GLADBACH, Tyskland (DE)  
 (511) **Vare-/ tjenestefortegnelse:**  
 Klasse 1 Chemical compositions for use in food and beverages; chemical products derived from milk; lecithin derived from soya for use in the manufacture of foodstuffs; chemical preparations for use in the food industry; chemical products for the preparation of flavorings; chemicals for the suppression of the taste of water; chemical substances for preserving foodstuffs; sugar substitutes (chemical -); chemical additives for food; glucose for the food industry; low calorie sweeteners (artificial, chemical); artificial sweetening preparations; artificial sweeteners and synthetic sugar substitutes, especially aspartame, acesulfame, cyclamate, saccharin, xylitol, thaumatococin, and mixtures of these substances; lactose [raw material]; lactose to be used in the manufacture of foodstuffs; lecithin for industrial use in the manufacture of food products.  
 Klasse 3 Essential oils and aromatic extracts; abraders; cleaning and fragranting preparations; alcoholic solvents being cleaning preparations; caustic cleaning agents; chrome cleaners; detergents; scale removing preparations for household purposes; window cleaning compositions; grease-removing preparations; stain removing preparations; dishwasher detergents; glass cleaning preparations; cleaning agents for the hands; household detergents; household bleach; cleaning agents for household purposes; oven cleaners; lime removers; kettle cleaner; rinse aids; cloths impregnated with a detergent for cleaning; unblocking drain pipes (preparations for -); soda lye; oven cleaning preparations; oils for cleaning purposes; refurbishing preparations; dry-cleaning preparations; mould removing preparations.  
 Klasse 8 Hygienic and beauty implements for humans and animals; edged and blunt weapons; hand tools for the preparation of food; kitchen knives; table cutlery [knives, forks and spoons]; ice picks; vegetable shredders; hand-operated tools and implements for treatment of materials, and for construction, repair and maintenance; lifting tools; parts and accessories for the aforementioned goods, as far as included in this class.  
 Klasse 11 Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; food and beverage cooking, heating, cooling and treatment equipment; electric coffee filters; electric coffee machines; electric coffee percolators; electric coffee roasters; electric coffee

- roasting machines; electric semi-automatic and fully-automatic coffee machines; electric machines for the preparation of coffee, tea and cocoa under use of coffee, tea, cocoa, milk or milk powder or beverage powder containing coffee, tea or cocoa, all being packed in partial dose such as in capsule or pod form; sinks; parts and accessories for the aforementioned goods, as far as included in this class.  
 Klasse 20 Goods, not of metal, namely, mooring buoys; locks and keys; door, gate and window fittings; valves; fasteners; clips; hand fans; clack valves; identification bracelets; holders for pennants; plugs; rings; poles; saw horses; box springs; tags; paper tissue holders; trays; statues of bone, ivory, plaster, plastic, wax or wood; furniture and site furnishings; beds for animals; yellow amber; meerschaum; containers not of metal, closures not of metal for containers; ladders and movable steps; display stands; parts and accessories for the aforementioned goods, as far as included in this class.  
 Klasse 21 Non-electric coffee filter apparatus; non-electric coffee pots; coffee grinders, hand-operated; coffee percolators, non-electric; coffee services [tableware]; statues, figurines, signs and work of art, included in this class; unworked and semi-worked glass, except building glass; gardening articles, except garden tools; brushes and brush-making articles; dishware; kitchen utensils; containers for foods; mugs; containers for household or kitchen use; table plates; disposable table plates; glasses [receptacles]; beverage glassware; articles for cleaning purposes; cosmetic and toilet utensils and bathroom articles; aquariums; vivariums; devices for pest and vermin control; bird baths; cages; feeding and watering articles; fish glasses; grooming articles; waste disposal articles; household utensils for clothing and footwear, namely: boot jacks; shoehorns; clothes racks, for drying; stretchers for clothing; shoe polishing apparatus; stretchers for shoes; parts and accessories for the aforementioned goods, as far as included in this class.  
 Klasse 25 Headgear; clothing; footwear; parts and accessories for the aforementioned goods, as far as included in this class.  
 Klasse 29 Meat, fish, poultry and game; meat extracts; preserved fruits, dried and cooked fruits and vegetables; jellies; jams, compotes; eggs, milk and milk products; dairy products and dairy substitutes; edible oils and fats; powdered milk for food; non-alcoholic mixed milk beverages (milk predominating); protein or vegetable-based coffee whitener; nut pastes (included in this class).  
 Klasse 30 Coffee; tea; cocoa; sugar; rice; tapioca; sago; artificial coffee; flour and preparations made from cereals; bread; pastry; confectionery; edible ices; honey, treacle; natural sweetener, in particular thaumatococin; yeast, baking-powder; salt; mustard; vinegar, sauces (condiments); spices; ice; powdered edible ices and preparations for making edible ices; fruit tea and herb teas, not for medical purposes; chocolate, chocolate products; chewing gum for non-medical purposes; coffee beverages, tea beverages, fruit tea beverages, cocoa-based beverages; drinking chocolate; coffee-based, tea-based and cocoa-based beverages; beverage powders containing caffeine, cocoa and/or chocolate; nut and nougat creams, chocolate and nut pastes.  
 Klasse 32 Beers; mineral and aerated waters and other non-alcoholic beverages; fruit beverages and fruit juices; syrups and other preparations for making beverages; vegetable juices (drinks), fruit cordials; isotonic drinks; effervescent tablets and beverage powders for making non-alcoholic or isotonic drinks (included in this class).  
 Klasse 35 Advertising, marketing and promotional services; commercial trading and consumer information services, namely retail and wholesale services in relation to

coffee, tea, cocoa and substitutes therefore, dairy products and their replacements, artificial sweeteners, cleaning and descaling agents, electric, coffee filter devices, coffee machines and coffee percolators, household and kitchen utensils and containers, glassware, porcelain and earthenware; auctioneering services; rental and leasing of vending machines; import and export services; ordering services; price comparison services; procurement services, for others; business assistance, management and administrative services; business analysis, research and information services; rental, lease and letting of objects in connection with the provision of the aforementioned services, as far as included in this class; consulting and information with respect to the aforementioned services, as far as included in this class.

 Klasse 9 Electric apparatus and instruments for traction, signalling, protection, traffic regulation and/or management, surveillance, control, passenger information, emergency (rescue), teaching, driving and checking; checking (supervision) apparatus for motors and engines and electric, electronic and computer equipment; scientific apparatus and instruments for distribution, transforming, accumulating, regulating and controlling of electricity, all the aforesaid goods being intended for fixed, track and/or on-board installations, for rolling stock for railways, for high-speed and very high-speed railway vehicles, for railway trains with distributed or concentrated power, for railway trains with or without an engine, for articulated or non-articulated railway trains, and for tramcars, buses, electric vehicles and autonomous vehicles; fixed and mobile diagnostic apparatus for railway and road vehicles, in particular optical apparatus, apparatus for,

data visualization, measuring, surveillance and checking equipment, in particular lasers and surveillance cameras; electronic and electric data processing equipment and satellite positioning equipment, and electronic and electric apparatus for monitoring rail and road traffic; systems for analyzing and diagnosing the condition of railway and road infrastructure equipment; control equipment for managing rail and road transport lines; electro-dynamic apparatus for the remote control of railway points; alarm instruments and devices; acoustic alarms; order transmitters, alarm systems; fire-extinguishing apparatus; checking and diagnostic apparatus, in particular optical apparatus, apparatus for data visualization, measuring, surveillance and checking equipment, in particular lasers and surveillance cameras; data transmission apparatus and data transmission equipment; electrical conductors for rolling stock for railways, for high-speed and very high-speed railway vehicles, for railway trains with distributed or concentrated power, for railway trains with or without an engine, for articulated or non-articulated railway trains, for tramcars, buses, electric vehicles and autonomous vehicles, for stations and substations; electric cables; electric collectors; electric and electronic installations for the remote control of rail and road operations; electricity control panels; computerized control panels for rail and road operations; electric apparatus for commutation; electric batteries; electric chargers; electric cells and accumulators; electric conductors of all metals; ducts [electricity]; speed checking apparatus for railway vehicles, tramcars, buses, electric vehicles and autonomous vehicles; optical and magnetic data media; electric and electronic relays; speed indicators; luminous or non-luminous, optical, mechanical and non-mechanical signs for railway vehicles, tramcars and buses; luminous or mechanical signaling panels; luminous signs for roads; electro-dynamic apparatus for the remote control of signals; transmitters of electronic signals; road or railway traffic safety appliances; electronic notice boards; time recording apparatus; electric alarm bells; transformers; navigation apparatus for railway and road vehicles (on-board computers); radio guidance apparatus for railway and road vehicles (on-board computers); data processing apparatus; distance measuring and recording apparatus for railway and road vehicles; automatic steering devices for vehicles; voltage regulators for railway and road vehicles; computer software, recorded; computer software incorporated into signaling, control and checking devices for railway vehicles, tramcars, buses, electric vehicles and autonomous vehicles; computer programs, namely navigation, journey planning and mapping programs for rail and road traffic; mobile telecommunications terminals for railway and road traffic; management software and computer hardware for analyzing and processing data collected by an analysis and diagnostic system for ensuring the continuous management of rail and road traffic and the continuous or predictive adaptation and maintenance of rail and road traffic; management software and computer hardware for modelling and simulating rail and road equipment and optimizing rail and road equipment; software platform for modelling and digital simulation, software platform for simulation protocols; satellite navigational apparatus; data processing equipment and computers for fixed, track and/or on-board installations, for rolling stock for railways, for high-speed and very high-speed railway vehicles, for railway trains until distributed or concentrated power, for railway trains with or without an engine, for articulated or non-articulated railway trains, and for buses, electric vehicles and autonomous vehicles; apparatus for broadcasting, recording, transmitting or reproducing sound or images, being on-board or not on-board railway vehicles, buses, electric vehicles and autonomous vehicles; telecommunication apparatus, equipment for entering, storing, processing information

or data; apparatus for capturing, counting, collecting, storing, converting, processing, entering, broadcasting and transmitting data, information and signals; transmitters and receivers for radio broadcasting, broadcasting and remote transmission; transmitters and/or receivers for digital data; apparatus for transmitting and/or receiving satellite data; aerials, electric data transmission cables; telematic, telephone and computer terminals, in particular for free or restricted access to global telecommunications networks (internet) or free or restricted access to private networks (intranet); satellite geographical positioning receivers (GPS); video senders, software for the continuous dissemination of images, sounds, films, videos, in particular videos on demand (VOD), information and data; traveler information and telecommunications devices at stations; integrated multimodal systems for the management of railway transport and road transport for passenger information, security and entertainment during their journeys; smoke extraction and fire detection systems, devices for radio telecommunications in tunnels and at stations for emergency use; digital and electronic equipment for the cyber-protection of railway systems; contactors, isolating switches, direct current high-speed circuit breakers, single-phase circuit breakers with vacuum switching tubes, three-phase contactors with vacuum switching tubes, commutators, multifunctional rooftop equipment and energy measuring systems; auxiliary converters for electric vehicles, buses, underground trains, regional trains, high-speed trains and locomotives; traction transformers for urban transport vehicles, regional trains, high-speed trains and locomotives; electricity supply substations and substation monitors; electrical transformer stations; rectifiers, inverters, converters, electric filters; voltage surge or electrical interference protectors; apparatus for recovering electrical energy produced by generation on a network; electric active filtering devices for substations; automatic digital checking, regulating and protecting machines for traction substations and software relating thereto; equipment installed under a railway track or road for supplying power to passenger transport and/or freight vehicles, the aforesaid power supply being by means of electric power components and by electrical switching; catenary consoles; automatic terminals for purchasing tickets; all the aforesaid goods relating to the field of rail, road and passenger and/or freight transport.

Klasse 12 Vehicles, in particular buses, coaches, electric autonomous vehicles and railway vehicles; rolling stock for railways, including locomotives, carriages, railcars and self-propelled vehicles, high-speed and very high-speed railway vehicles, railway trains with distributed or concentrated power, railway trains with or without an engine, articulated or non-articulated railway trains; underground trains and other train vehicles for mass transit, being automatic or non-automatic, namely railway vehicles with iron wheels or guided vehicles with wheels equipped with tyres or other kinds of ground connection; buses; coaches; railway couplings; electric vehicles, in particular trams and buses; autonomous vehicles; motors and engines for the aforesaid land vehicles, and parts thereof; pneumatic shock absorbers for the aforesaid land vehicles; transmission belts and corresponding gears for the aforesaid land vehicles; air pumps (vehicle accessories); transmission shafts for the aforesaid land vehicles; propulsion mechanisms for the aforesaid land vehicles; brakes, bogies, axles for vehicles, carriage bodies; railway carriages; railway couplings; tank wagons, parts of land vehicles; shock absorbers for railway and road vehicles; bogies for vehicles, engines for vehicles, traction systems for vehicles.

Klasse 37 Building, construction management, maintenance, renovation, maintenance; maintenance, repair, renovation and installation of buses, coaches, autonomous electric vehicles, railway vehicles, trains, rolling stock for railways, including locomotives,

wagons, electrorails and powered rail car trains, high and very high speed railway vehicles, railway trains with distributed or concentrated power, railway trains whether fitted or not with powered rail car train, railway trains whether articulated or not, metros and other public transportation vehicles whether automatic or not, namely motor buses, motor coaches, railway couplings, electric vehicles in particular trams and buses, their parts and components; installation, maintenance, repair and renovation of rail infrastructure, pavements, coatings, tracks and rails; information relating to the construction and repair of railway infrastructure, underground railway, tramcar, bus, electric vehicle and autonomous vehicle infrastructure; building construction supervision; rail infrastructure construction; surfacing and track building; repair information; installation and repair of signaling devices for all kinds of accidents and incidents having an impact on rail and road traffic; installation, servicing, repair and maintenance of control equipment for the management of railway and urban transport lines; water pumping and drainage; construction of railways and structures of concrete or any other material comprising soleplates and/or anchor points placed in the concrete or the material in plastic state; all the aforesaid services relating to rolling stock (in general for railways and road vehicles for mass transit and/or freight transport, including locomotives and self-propelled vehicles, high-speed and very high-speed railway vehicles, railway trains with distributed or concentrated power, railway trains with or without an engine, railway trains, underground trains, tramcars, buses, electric vehicles and autonomous vehicles) and to infrastructures for railways, buses, electric and autonomous vehicles; advice regarding construction.

Klasse 42 Engineering, research and development of new materials and equipment; coordination of engineering, research and development of new materials and equipment; project planning, preparation of scientific and technological reports, industrial analysis and research services provided by engineers and/or experts; consultancy in the field of energy-saving; quality control; surveying; material testing; mechanical research; research and development of new products for others; technical research; conducting technical project studies; engineering; industrial testing; design, development, maintenance, updating and installation of computer systems and software; urban planning; research in the field of environmental protection; inspection of railway and road infrastructures; computer software consultancy; software as a service [SaaS]; scientific research and design relating to modelling of static or dynamic models and the integration of the aforesaid models (engineering) for rail and road applications; engineering services; technical assistance (consultancy) in the operation and supervision of computer networks and television broadcasting networks; technical assistance (consultancy) in the field of information technology; creation (design) of programs for the processing of data and business texts; research in the field of telecommunications and television broadcasting; technical consultancy and advice in the field of information technology; consultancy in the field of computers; rental of programs on computer media and using telecommunications; computer systems design, design of telecommunications and broadcasting systems; technical project studies and research in the field of maintenance (servicing, installation and repair) of computer hardware, telecommunications equipment and television broadcasting equipment; computer technical consultancy; conversion of codes and formats between different types of texts; creation and installation of webpages; design and maintenance of Internet sites; design, installation, maintenance, updating or rental of computer software and databases; supervision (checking, monitoring) of computer networks for the digital security of rail and/or road operations; design and development of computer

languages for modelling and simulation; designing computer systems and on-board systems; providing computer programs for mapping, route planning and guidance via a communications network; all the aforesaid services relating to the field of rail, road and mass transit passenger and/or freight transport.
