Meddelelse til søker/innehaver med ukjent adresse

Meddelelse til innehaver av varemerkesøknad nr. 202007267, Norsk Vegansamfunn.
Det foreligger avgjørelse om endelig henleggelse, på grunn av ikke betalt fornyelsesavgift i varemerkesøknad nr. 202007267.
Avgjørelsen kan fås hos Patentstyret.

Registrerte varemerker

Registrerte varemerker jf. varemerkeloven § 22.
I løpet av tre måneder fra i dag kan det fremsettes innsigelse mot registreringen av varemerket, jf. varemerkeloven § 26 og varemerkeforskriften § 23.
For søknader som har søknadsdag fra 1. juli 2010 gjelder varemerkeregistreringen i ti år fra søknadsdagen. Registreringer som har søknadsdag før 1. juli 2010 gjelder i ti år fra registreringsdagen. Se varemerkeloven § 32 jf. § 83 annet ledd.

Internasjonale varemerkeregistreringer

Internasjonale varemerkeregistreringer som gjelder for Norge ved utpekning etter Madridprotokollen. Innsigelsesperioden utløper 3 mnd. fra kunngjøringsdato, jf. varemerkeloven § 71.

Generell informasjon om kunngjøringer etter Madridprotokollen

Int.reg.nr.: Det vil si det internasjonale registreringsnummer som WIPO har gitt søknaden om internasjonal registrering.

Int.reg.dato: Det vil si den dato en internasjonal registrering anses for å ha skjedd, jf. varemerkeloven § 72 og Madrid-protokollen artikkel 3 (4).
Dersom den internasjonale registreringen besluttes gjeldende i Norge, vil registreringsperioden på 10 år regnes fra den internasjonale registreringsdatoen.

Etterfølgende utpekningsdato: Det vil si datoen for rettsvern i Norge hvor utpekingen ikke har skjedd i forbindelse med den internasjonale registreringen.

Prioritet: Internasjonale søknader kan påberope seg prioritet etter Pariskonvensjonen artikkel 4 fra det land merket først ble søkt registrert. Dette vil ofte være søkers hjemland idet en internasjonal registrering må bygge på en hjemlands-registrering eller -søknad.

Besluttet gjeldende dato i Norge: Det vil si den datoen det innføres i varemerkeregisteret at den internasjonale registreringen gjelder i Norge, jf. varemerkeloven § 70.

Klasse 1 Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; manures; fire extinguishing compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives used in industry.

Klasse 6 Common metals and their alloys; metal building materials; transportable buildings of metal; materials of metal for railway tracks; non-electric cables and wires of common metal; ironmongery, small items of metal hardware; pipes and tubes of metal; safes; goods of common metal not included in other classes; ores; transportable buildings; non-electric cables and wires; pipes and tubes; valves and valve fittings and parts and accessories therefor; flame arresters; pipe hangers; metal pipe products and accessories therefor; pipe linings; metal building materials; metal pipes and fluid conduits and couplings and fittings therefor; metal signage; fire doors; fences and fence fittings; sprinkler tube and sprinkler tube fittings; cable tray; metal tubing; metal roll form shapes and angles; barbed tape; metal strut channels and fittings; all of the aforesaid goods being made wholly or principally of common metal.

Klasse 7 Machines and machine tools; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; incubators for eggs; hose reels; valves and valve fittings and parts and accessories therefor; actuators for opening and closing valves and parts and fittings therefor; actuator positioners; actuator controls; all of the aforesaid goods being parts of machinery; pumps; dust and particle collection and cleaning equipment; tools for effecting forced entry (machines); compressors; steam traps; automatically operated actuators for opening and closing valves.

Klasse 9 Scientific, nautical, surveying, electric, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, sound recording disks; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; thermal imaging cameras; breathing apparatus and respiratory equipment, not for medical use; magnetic data carriers; recording disks; automatic vending machines and mechanisms for coin-operated apparatus; data processing equipment; computer hardware and parts, fittings and accessories therefor; computer software; diagnostic apparatus and instruments, not for medical use; signal transmitters, receivers and switches; antennas; lasers; environmental sensors and detectors; monitoring and control apparatus and instruments; fiber optic cable; fiber optic connectors; cable assemblies; electric cables; electromechanical cables; electric and electronic control panels; electric connections; junction boxes; circuit breakers; fire protection, alarm, detection and extinguishing systems including telecommunications and electrical components; fire alarms; fire sprinklers, fire hose nozzles; electrical and electronic valves and valve fittings and parts and accessories therefor; meters; electronic measuring, monitoring, detection, indication, regulation and analysing equipment; fluid and liquid flow meters; fluid sensors; water quality sensors; water quality analysers; liquid level and liquid depth sensors; access control equipment and parts and accessories therefor; electromagnetic locks; electronic keypads; access control cards; card readers; radio frequency identification devices; data processing apparatus and related peripheral apparatus in connection with tunnel safety; monitoring apparatus and parts, fittings and accessories therefor; electronic personnel and article tracking, monitoring and location equipment; point of sale monitoring and security apparatus and systems; security apparatus and instruments; intrusion detection apparatus and instruments; alarms and parts and fittings therefor; sirens; signage (luminous or mechanical); safety and protective clothing, equipment, apparatus and instruments; helmets; devices enabling wireless connection between electronic apparatus; communication systems using radio paging; heat tracing and regulating apparatus; thermometers, thermostats; computer hardware and software, for use with medical patient monitoring equipment, for receiving, processing, transmitting and displaying data; conduits for electric cables and parts and fittings therefor; cathodic anti-corrosion apparatus; electronic snow melting cables; fall protection equipment for fall restraint and fall arrest; wireless (control) apparatus and equipment; pressure regulators and parts and accessories therefor for regulating the pressure of liquid, semi-liquid, and gaseous substances in industrial processes; electrical conduits and couplings and fittings therefor; fire sprinklers and nozzles; pipes and electrical conduits and couplings and fittings therefor.

Klasse 11 Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; water filtering apparatus; water purifying apparatus and machines; water distribution plants; water supply installations; water purification installations; water softening apparatus; heating systems; electric heating apparatus; irrigation installations; pressure water tanks and parts therefor; air purification and filtration apparatus; hydrants (not for fire); fire hydrants.

Klasse 37 Construction, repair, installation, maintenance, inspection, assessment and integration services relating to fire protection systems, electrical communications systems, water and waste water systems, alarm, security and access control systems, heating systems, ventilating and air conditioning systems, pipelines, valves, valve fittings and actuators, dust and particle collection cleaning equipment, electronic monitoring equipment and apparatus, traffic and transport management systems, heating, temperature sensing, snow melting and de-icing systems; inspection services in the course of construction, repair, installation, and maintenance services relating to fire protection systems, electrical communications systems, water and waste water systems, alarm, security and access control systems, heating systems, ventilating and air conditioning systems, pipelines, valves, valve fittings and actuators, dust and particle collection cleaning equipment; relating to electronic monitoring equipment and apparatus, traffic and transport management systems, heating, temperature sensing, snow melting and de-icing systems; pipeline tapping services; leasing of plant and machinery related to construction sites; installation, maintenance and repair services relating to fire protection and extinguishing apparatus and to security and monitoring apparatus and to apparatus for such systems.

Klasse 42 Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer

hardware and software; scientific and industrial research; engineering consulting services; design services relating to fire protection and extinguishing systems and to security and monitoring systems and to apparatus for such systems and to computer software for such systems and apparatus; computer software maintenance services relating to fire protection and extinguishing systems and to security and monitoring systems and to apparatus for such systems; design services relating to traffic management and transportation systems and to telecommunications systems relating thereto; design and engineering of systems for heating and cooling, sensing systems, sealing and corrosion protection systems; technical project studies; system and process design services relating to water supply, drinking water treatment, rainwater facilities, water systems and hydraulic equipment; environmental consulting services in the field of research, feasibility studies, facilities planning, final design and construction services; monitoring of emission quality.

Klasse 45 Legal services; security services for the protection of property and individuals; alarm response and verification services; monitoring and control of alarm and security systems, of water flow and of home automation systems; centralized burglar and fire alarm services; building access services, building energy management services, security services relating to the heating, ventilation, air conditioning and lighting of buildings; security services in the field of monitoring and of telephone calls from subscribers and notifying emergency facilities; theft recovery services; tracking services for pets, homes, people and businesses; consulting services, including through call centers, for all of the aforesaid services; concierge services for others comprising making requested personal arrangements and reservations and providing customer-specific information to meet individual needs with respect to all the aforesaid services; leasing of fire fighting equipment; monitoring services relating to fire protection and extinguishing systems and to security and monitoring systems and to apparatus for such systems and to computer software for such systems and apparatus.

Klasse 7 Machine tools, machines for repairing and manufacturing parts; industrial robots; compressors; machine coupling and transmission and propulsion components (excluding those for land vehicles); propulsion systems for aeronautical and space vehicles and parts thereof, included in this class, including motors and engines, propulsion units, nacelles, thrust reversers; auxiliary power units for air and land vehicles; lubrification systems for aircraft engines and other propulsion units (machines); test benches for motors and engines and other propulsion units (machines) for aeronautical and space vehicles, including for nacelles; mechanical braking devices; all these goods being used and/or intended for the fields of aerospace, defence or security; parts and spare parts for motors and engines and propulsion units for aerospace vehicles, including machine coupling and transmission and propulsion components, motor and engine air inlets, fan casings, exhaust cones, thrust reversers.

Klasse 9 Scientific, weighing, measuring and control (inspection) apparatus and instruments; electrical and electronic apparatus and instruments for measuring, command and control, especially calculating equipment, sensors; electrical and electronic equipment and material for checking and maintenance (carried on aircraft or motors and engines, attached to test benches or portable, for ground interventions) enabling the reading and interpretation of data from calculating equipment and sensors; electrical control systems for thrust inverters; control apparatus and instruments for thrust inverters; electrical and electronic apparatus, instruments and devices for controlling the flight of aerospace vehicles; computer software used to control the flight of aerospace vehicles; apparatus, instruments and devices for providing energy for aerospace vehicles; electronic cards to process parameters; apparatus and instruments for telemetry, remote control, radioaltimetry and proximetry; computer programs and software for operating test benches for aeronautical and space vehicle systems, equipment and components, including for nacelles, and other measuring apparatus; electronic, electromechanical and optical equipment, including sensors, for operating test benches for aeronautical and space vehicle systems, equipment and components; apparatus and

instruments for the automatic identification or recognition of persons, digital fingerprints, palm prints or other biometric features carrying out recording, encoding and code conversion functions enabling processing by biometric software or biometric identification and authentification systems; biometric verification and identification systems comprising devices for the automatic identification and recognition of people, computers, databases, communication equipment and computer software for processing biometric data; biometric system software for identifying and authentification of people; people detection software; computer software to interpret digital fingerprints, palm prints or other biometric features; optical or capacitive sensors to capture digital fingerprints, palm prints or other biometric features; card readers; biometric terminals; electric locks or devices for controlling access to buildings, services, equipment or networks for verifying digital fingerprints or palm prints or other biometric features; apparatus or networks for checking digital fingerprints, palm prints or other biometric features; electronic chips; electronic readers; devices for checking and identifying digital data; apparatus, instruments, software, terminals and readers for checking and identifying digital data; software, terminals and readers to check and identify the machine-readable area of passports, visa documents, identity cards, driving licences, health cards, voting cards, residency cards, resident's permits, professional health cards and other personal administrative documents comprising an electronic chip that can transmit data with or without contact; devices for password identification; computer software for checking and identifying secure digital data; apparatus and instruments for checking data relating to a person's identity; testing and maintenance apparatus for immobile equipment; automatic control, transmission, remote control and signalling apparatus and devices for vehicles, especially for aeroplanes, ships and machines, the parts of these apparatus or devices, especially on-board computers; fire control apparatus and equipment; optical apparatus and instruments for air reconnaissance; apparatus and instruments for astronomy; telephone apparatus, equipment and accessories for infrastructure in the field of cellular radio networks for applications in the military field; electrical and electronic apparatus, equipment and instruments for navigating, steering, piloting and stabilizing air, land, sea and space vehicles; batteries, accumulators, apparatus for recharging accumulators; fiber optic cables; video cameras, infrared cameras; headphones, telephone receivers and loudspeakers for applications in the military field; inertial units, especially strap-down inertial systems; infrared and ultraviolet optical components; screens; equipment and apparatus for measuring trajectories; railway signalling equipment and apparatus; accelerometric equipment and apparatus; equipment and apparatus for encryption and decryption; optical and infrared detection equipment and apparatus, except biometric applications; guidance, remote guidance and automatic piloting equipment and apparatus; mission preparation equipment and apparatus for land, air and sea vehicles, for displaying routes; localization devices, trackers, localizers, homing devices; observation and reconnaissance systems; range finders; simulation equipment and apparatus for machines; gyroscopic equipment and apparatus; on-board digital navigation and attack equipment and apparatus for aircraft; equipment and apparatus for transmitting messages, information, data, sound and images by radio relay, cable, fiber optics, telephone, satellite, terminals, telecommunication networks and computer networks; equipment and/or apparatus enabling information gathered on networks to be tested then downloaded to a computer; optical deck landing apparatus and instruments for aircraft carriers, apparatus and instruments to help aircraft land and deck land; gyrometers; thermal imagers; binoculars for day/night vision; lasers, not for medical purposes; lasers diodes, not for medical purposes; solid and gas lasers, not for medical purposes; optical lenses; logs; odometers, dopplers (apparatus for measuring speed); periscopes; sights, telescopes, spy-glasses; speech and shape recognition apparatus; electrical power units and elements thereof, especially motors, servo-motors, generators, synchro-transmitters, resolvers, potentiometers, speed restrictors, timers; inertial and hybrid navigation systems; gyro-stabilized sights; holographic sights; telemetry equipment and apparatus; road safety apparatus and equipment, including apparatus and equipment for checking speed, going through red lights, reading licence plates, processing offences; all these goods being used and/or intended for the fields of aerospace, defence or security.

Klasse 12 Apparatus for locomotion by air, air and space vehicles, including aircraft, aeroplanes, unmanned aircraft, drones, helicopters, space launchers, rockets for space purposes; parts and spare parts for cockpits for aerospace vehicles; brakes and braking systems for aerospace vehicles; suspensions, shock absorbers for suspensions; landing gear and devices for lifting landing gear, landing systems and controls for aerospace vehicles; thrust reversers, systems and controls for thrust reversers for aerospace vehicles; dashboards; joysticks for piloting comprising controls; excluding tires, wheels and component parts thereof.

Klasse 35 Assistance to industrial or commercial companies that keep a fleet of aircraft; advisory services concerning the methods to use in the commercial management and exchanging of systems, equipment and parts for aeronautical and space vehicles; advisory services concerning the methods to use in the commercial management of a pool of aerospace vehicle systems, equipment and parts; advisory services concerning the commercial and/or administrative management relating to repairing, checking, upkeep, upgrading and maintenance of aerospace vehicle systems, equipment and parts; advisory and/or administrative services relating to defining and selecting tools for repairing, checking, upkeep, bringing up to standard and maintenance of aerospace vehicle systems, equipment and parts; market research and studies in the field of aerospace; compilation and statistical study of data relating to the management of a pool of aerospace vehicle systems, equipment and parts; compilation of information into computer databases; procurement services (purchase of goods and services for other companies) for spare parts for the repair, maintenance and checking of aerospace vehicle systems, equipment and parts.

Klasse 37 Repair and maintenance of aerospace vehicles and component parts thereof; construction and installation of industrial buildings and test benches for complete propulsion units and their subsystems, and for aerospace vehicle systems, equipment and parts; repair and reconditioning of all components made of composite materials with high heat resistance, combustion chambers, rocket chambers and thrust nozzles; repair of electrical and electronic apparatus, instruments, systems, materials and equipment used in the field of aerospace; repair, revision, upkeep and maintenance services for aerospace vehicle systems, equipment and parts and their component parts, including motors and engines, engine pods, reactors, propulsion units, thrust reversers, braking systems, landing systems, cables; underwing maintenance, repair, revision and upkeep services for all kinds of aerospace vehicle systems and equipment and parts; standard replacement, upgrading and renovation of aerospace vehicle equipment and parts; round the clock and 7 day a week on-line assistance services in the field of repairing, checking, upgrading, upkeep, maintenance and standard replacement for aerospace vehicle systems, equipment and parts; advisory services concerning the methodology to use in the repair, checking, upkeep, upgrading and maintenance of aerospace vehicle systems, equipment and parts;

technical advice and assistance concerning the manufacture, upkeep, repair and revision of aeronautical vehicles and component parts thereof, including for engine pods, reactors, propulsion units, thrust reversers, aeronautical vehicles, braking systems, landing systems, cables; repair of ancillary materials and tools for aerospace vehicle systems, equipment and parts, electrical apparatus installation and repair for applications in the military, aeronautical or maritime fields; installation and repair of electronic equipment for the modernization of aeroplanes, missiles, ships and submarines; maintenance and repair of aeronautical or marine equipment; all these services being used and/or intended for the fields of aerospace, defence or security.

Klasse 40 Processing of materials in the fields of aerospace, defence or security.

Klasse 42 Engineering and design services (engineering), analysis and appraisals (engineering services), scientific and industrial research; machine testing; material testing; flight tests for aeroplanes, helicopters and missiles; testing of aerospace vehicle systems, equipment and parts; inspection of aerospace vehicle systems, equipment and parts; analysis, expertise and processing services for the acquisition of data recorded during the testing of aerospace vehicle systems, equipment and parts; development, maintenance and updating of databases; research and development relating to the fields of aerospace, defence or security; laboratory services, including calibration and checking services in the fields of chemistry, morphology and in the field of thermal analysis; technological consulting in the fields of biometry as well as on cables, security, defence and road signalling; providing statistical data; expertise and consulting in the field of controlling people's computer access; production (design, drawing up) three dimensional geographical maps; all these services being used and/or intended for the fields of aerospace, defence or security.
