Internasjonale varemerkeregistreringer

Internasjonale varemerkeregistreringer som gjelder for Norge ved utpekning etter Madridprotokollen. Innsigelsesperioden utløper 3 mnd. fra kunngjøringsdato, jf. varemerkeloven § 71.

Generell informasjon om kunngjøringer etter Madridprotokollen

Int.reg.nr.: Det vil si det internasjonale registreringsnummer som WIPO har gitt søknaden om internasjonal registrering.

Int.reg.dato: Det vil si den dato en internasjonal registrering anses for å ha skjedd, jf. varemerkeloven § 72 og Madrid-protokollen artikkel 3 (4).
Dersom den internasjonale registreringen besluttet gjeldende i Norge, vil registreringsperioden på 10 år regnes fra den internasjonale registreringsdatoen.

Etterfølgende

utpekingsdato: Det vil si datoen for rettsvern i Norge hvor utpekingen ikke har skjedd i forbindelse med den internasjonale registreringen.

Prioritet: Internasjonale søknader kan påberope seg prioritet etter Pariskonvensjonen artikkel 4 fra det land merket først ble søkt registrert. Dette vil ofte være søkerens hjemland idet en internasjonal registrering må bygge på en hjemlands-registrering eller -søknad.

Besluttet gjeldende

dato i Norge: Det vil si den datoen det innføres i varemerkeregisteret at den internasjonale registreringen gjelder i Norge, jf. varemerkeloven § 70.

for the manufacture of pipes and tubes of metal, hollow profiles of metal, bars of metal, fittings of metal for pipes and tubes of metal, protective end pieces of metal or predominantly of metal, metal handling means; metal products, namely, metal containers, metal formworks, metal connections, metal fittings, metal joints for tubes and pipes, metal sleeves, metal collars, metal flanges, metallic building materials, metallic building elements, blanks for the manufacture of metal tubes and pipes, hollow metal bars, metal profiles, metal accessories for metal tubes and pipes, metal or essentially metal protective end-pieces, metal handling means, all these products being equipped with physical markers including character series, bar codes, qr codes, paint with tracers; metal products, namely, metal containers, metal formworks, metal connections, metal fittings, metal joints for tubes and pipes, metal sleeves, metal collars, metal flanges, metallic building materials, metallic building elements, blanks for the manufacture of metal tubes and pipes, hollow metal bars, metal profiles, metal accessories for metal tubes and pipes, metal or essentially metal protective end-pieces, metal handling means, all these products are equipped with physical markers including DNA paint; metal products, namely, metal containers, metal formworks, metal connections, metal fittings, metal joints for tubes and pipes, metal sleeves, metal collars, metal flanges, metallic building materials, metallic building elements, blanks for the manufacture of metal tubes and pipes, hollow metal bars, metal profiles, metal accessories for metal tubes and pipes, metal or essentially metal protective end-pieces, metal handling means, all such products being equipped with electronic markers including electronic chips; metal products, namely, metal containers, metal formworks, metal connections, metal fittings, metal joints for tubes and pipes, metal sleeves, metal collars, metal flanges, metallic building materials, metallic building elements, blanks for the manufacture of metal tubes and pipes, hollow metal bars, metal profiles, metal accessories for metal tubes and pipes, metal or essentially metal protective end-pieces, metal handling means equipped with electronic chips including rfid; metal products, namely, metal containers, metal formworks, metal connections, metal fittings, metal joints for tubes and pipes, metal sleeves, metal collars, metal flanges, metallic building materials, metallic building elements, blanks for the manufacture of metal tubes and pipes, hollow metal bars, metal profiles, metal tube and pipe accessories, metal or essentially metal protective end-pieces, metal handling means, all of which are equipped with physical means of communication, electrical or electronic; metal products, namely, metal containers, metal formworks, metal connections, metal fittings, metal joints for tubes and pipes, metal sleeves, metal collars, metal flanges, metallic building materials, metallic building elements, blanks for the manufacture of metal tubes and pipes, hollow metal bars, metal profiles, metal tube and pipe accessories, metal or essentially metal protective end-pieces, metal handling means, all of which are equipped with physical measuring means, electrical or electronic; metal products, namely, metal containers, metal formworks, metal connections, metal fittings, metal joints for tubes and pipes, metal sleeves, metal collars, metal flanges, metallic building materials, metallic building elements, blanks for the manufacture of metal tubes and pipes, hollow metal bars, metal profiles, metal tube and pipe accessories, metal or essentially metal protective end-pieces, metal handling means, all of which are equipped with electrical conductors; metal products, namely, metal containers, metal formworks, metal connections, metal fittings, metal joints for tubes and pipes, metal sleeves, metal collars, metal flanges, metallic building materials, metallic building elements, blanks for the manufacture of metal tubes and pipes, hollow metal bars, metal profiles, metal tube and pipe accessories, metal or essentially metal protective end-pieces, metal handling means, all of which are

equipped with anti-counterfeiting devices; metal tubes and pipes; tube and pipe of steel; threaded metal tubes and pipes; metal tubes and pipes coated internally and/or externally; hollow or full wall metal tubes and pipes; metal tubes and pipes for the oil and gas industries, including metal hydrocarbon tubes and pipes, metal tubes and pipes for oil and gas pipelines, metal tubes and pipes for gas; metal well-casing tubes and pipes for wells; metal tubes and pipes for drilling the ground, including metal tubes and pipes for drilling oil and gas wells or for drilling geothermal wells; metal tubes and pipes for the building industry; metal tubes and pipes for wind turbine supports (construction); metal tubes and pipes for industrial and geothermal installations; metal tubes and pipes for the extraction of fluids; metal tubes and pipes for the chemical and petrochemical industries; metal pipes and tubes for the nuclear industry; metal tubes and pipes for the thermal energy industry; pipes and tubes of metal for the mechanical engineering industry; metal pipes and tubes for machining parts; metal tubes and pipes equipped with physical markers including character series, bar codes, QR codes, paint with tracers; metal tubes and pipes equipped with physical markers including DNA paint; metal tubes and pipes equipped with electronic markers including electronic chips; metal tubes and pipes equipped with electronic chips including RFID; metal tubes and pipes equipped with electric conductors; metal tubes and pipes equipped with anti-counterfeiting devices; metal tubes and pipes equipped with means of physical, electric and electronic communications; metal tubes and pipes equipped with means of physical, electric and electronic measuring; metal formworks for oil and gas wells; metal assembly devices for metal tubes and pipes including metal connections, metal fittings, metal joints, metal sleeves, metal clamps, metal flanges; metal accessories for metal tubes and pipes, namely, metal tube parts threaded or unthreaded; metal accessories for metal tubes and pipes, namely, threaded or unthreaded tubular metal parts used to connect casing tubes, or production tubes; metal accessories for metal tubes and pipes, namely, threaded or unthreaded tubular metal parts used to connect casing or production tubes to surface equipment, including wellheads, the valves, the safety valves; metal accessories for metal tubes and pipes, namely, threaded or unthreaded tubular metal parts used to connect production tubes to production tools and production tools to each other; metal or mainly metal protective end pieces for metal tubes and pipes and for metal tube and pipe assembly devices; metal handling means, such as metal handling pallets or metal slings, straps or shoulder straps for handling loads and loads; protective tips for metal tubes and pipes; protective ends for metal tubes and pipes of synthetic or composite materials equipped with physical markers including character series, bar codes, QR codes, paint with tracers; protective ends for tubes and pipes of synthetic or composite materials equipped with physical markers including DNA paint; protective ends for tubes and pipes of synthetic or composite materials equipped with electronic markers including electronic chips; protective fittings for tubes and pipes of synthetic or composite materials equipped with electronic chips including RFID; protective ends for tubes and pipes of synthetic or composite materials equipped with physical, electrical or electronic means of communication; protective ends for tubes and pipes of synthetic or composite materials equipped with physical, electrical or electronic measuring means; protective tips for tubes and pipes of synthetic or composite materials equipped with electric conductors.

Klasse 9 Apparatus and instruments for monitoring (inspection) of oil drilling; control (inspection) apparatus and instruments for oil pipelines and pipelines; control (inspection) apparatus and instruments for metal tubes and pipes; apparatus and instruments for monitoring (inspection) connections (connections); apparatus and

instruments for the control (inspection) of metal tubes and pipes, manual, semi-automatic, automatic or controlled by artificial intelligence; apparatus and instruments for measuring metal tubes and pipes; apparatus and instruments for measuring connections, including connections, of metal tubes and pipes; apparatus and instruments for measuring including indicators and gauges; apparatus and instruments for measuring metal tubes and pipes, including those for oil drilling, oil exploitation and the transport of gas or oil; well measuring apparatus and instruments assisted by sensors installed on metal tubes and pipes; well measuring apparatus and instruments including sensor-assisted; diagnostic apparatus other than for medical use; apparatus and instruments for verifying and controlling the authenticity, traceability, authentication, and identification of a product, document, or digital data; software (recorded programs); software available on-line or downloadable; software for machines for assembling tubes and pipes [including by screwing and welding] semi-automatic, automatic or driven by artificial intelligence; software for semi-automatic machines for assembling tubes and pipes; software for automatic machines for assembling tubes and pipes; software for assembly machines driven by artificial intelligence; verification and control software for authenticity, traceability, of a product, document, or digital data; authentication, and identification software for a product, document, or digital data; data entry, data storage, data analysis, data control, data communication software; software platform on-line or not with product management of physical or electronic markers; software platform on-line or not with management of non-physical documents or electronic markers; software platform on-line or not sales of products or services; computer platform in the form of registered or downloadable software, including online supply chain management platform; applications for mobile telephones, tablets and mobile devices; applications for mobile phones, tablets, mobile devices for or in relation with products, including metal tubes and pipes of metal; applications for mobile phones, tablets, or mobile devices, providing access to product information, including location, availability, number, certification; applications for mobile phones, tablets, or mobile devices, providing access to data on products, including their nature, composition, dimensions, weight; applications for mobile phones, tablets, or mobile devices, for verification and control of authenticity, traceability, of a product, document, or digital data; applications for mobile phones, tablets, or mobile devices, for authentication, and identification, of a product, document, or digital data; application for mobile phones, tablets, mobile devices, and for the sale of products or services; reading devices for markers including electronic or physical; reading devices for character series, bar codes, QR codes, paint with tracers; electronic chip reading devices, including RFID chips; tracer reading devices including DNA contained in paint; recorded data; database management software; data banks; downloadable data files; data storage media and devices; data processing systems; data generators, including temporal data; digital copies of tubes and pipes, tubes and pipes installed, including in wells, pipelines, oil pipelines or industrial facilities; digital twins of tubes and pipes, tubes and pipes installed, including in wells, pipelines, oil pipelines or industrial facilities; digital representation of pipes and tubes; digital representation of installed tubes and pipes, including in wells, pipelines, oil pipelines or industrial facilities; anti-counterfeiting devices; magnetic identification tapes; encoded identification tapes; sensors; sensors mounted on metal tubes and pipes; sensors for temperature, mechanical stress, light, images [including cameras], chemical or physical.

Klasse 20 Protective ends of synthetic or composite materials for metal tubes and pipes; protective ends of synthetic materials or composites for devices for assembling metal tubes and pipes; protective ends made by

molding, injection or 3D printing; storage devices (non-metallic), including containers and packaging; storage devices (non-metallic) equipped with physical markers including character series, bar codes, QR codes, paint equipped with tracers; storage devices (non-metallic) equipped with physical markers including DNA paint; storage devices (non-metallic) equipped with electronic markers including electronic chips; storage devices (non-metallic) equipped with electronic chips including RFID.

Klasse 35 Retail or wholesale sale services, online or not for base metals and their alloys, steel, nickel and nickel alloys; Retail or wholesale sale services, online or not, for metal, steel metal, building and construction materials and elements of metal, tubes and pipes of metal or steel, metal profiles, protector caps for tubes and pipes of metal or steel, assembling devices for tubes and pipes of metal or steel, threaded metal tubes and pipes, metal casings for Oil & Gas wells, metal tubes and pipes as part as machines, tubular elements for vehicle or railway transport; retail or wholesale sale services, on-line or not for metal tubes and pipes, steel tubes and pipes, threaded metal tubes and pipes; retail or wholesale sale services on-line or not for metal formworks for oil and gas wells, metal assembly devices for metal tubes and pipes including metal connections, metal fittings, metal joints, metal sleeves, metal collars, metal flanges, metal construction materials, metal construction elements, blanks for the manufacture of metal tubes and pipes, hollow metal bars, metal profiles, metal accessories for metal tubes and pipes, protective metal end-pieces, synthetic or composite materials for metal tubes and pipes and for devices for assembling metal tubes and pipes, metal handling means, namely, metal handling pallets or slings, metal straps or shoulder straps for handling loads and loads, metal containers; retail or wholesale sale service, on-line or not for metal tubes and pipes and tubes and pipes (parts of machines), cylinders of machines, welding apparatus and machines, tools (parts of machines), machining inserts, drilling tools, handling apparatus, assembly machines, tube and pipe assembly machines; retail or wholesale sale services online or not for storage devices; retail or wholesale sale services, online or not for tubular metal elements and metal parts intended for vehicles, including motor vehicles, vehicles equipped with handling and lifting equipment; retail or wholesale sale services, online or not for metal tubes and pipes, metal tubular elements and metal parts for railway transport; retail or wholesale sale services, online or not for handling apparatus; retail or wholesale sale services, online or not for apparatus and instruments for testing metal tubes and pipes; retail or wholesale sale services, online or not for petroleum drilling, pipelines, oil pipelines, metal pipe and pipe monitoring (inspection) apparatus and instruments (inspection) connections (connections), metal tubes and pipes, manual, semi-automatic, automatic or driven by artificial intelligence; retail or wholesale sale services, online or not for apparatus and instruments for measuring metal tubes and pipes, measuring connections, including connections, tubes and pipes, measuring apparatus and instruments, including calipers and gauges, and measuring apparatus and instruments for metal tubes and pipes, including those for oil drilling, the exploitation of oil and the transport of gas or oil, well measuring apparatus and instruments assisted by sensors installed on metal tubes and pipes, well measuring apparatus and instruments assisted by sensors; retail or wholesale sale services, online or not for diagnostic apparatus other than medical equipment, apparatus and instruments for verifying and checking authenticity, traceability, authentication, and identification, product, document, or digital data; retail or wholesale sale services, online or not for software (registered programs), software available online or downloadable, software for tube and pipe assembly semi-automatic, automatic or driven by artificial intelligence, software for

- semi-automatic assembly machines, software for automatic assembly machines, software for assembly machines driven by artificial intelligence, software for verification and control of the authenticity, traceability of a product, document, or digital data, authentication software, and the identification of a product, document, or digital data, data entry, data storage, data analysis, data control, data communication software; on-line or off-line retail and wholesale services for software platforms, namely on-line or offline software platform for managing goods with physical or electronic markers, on-line or off-line software platform for managing documents with physical or electronic markers, on-line or off-line software platform for sale of goods or services, software platform in the form of recorded or downloadable software, including an on-line platform for supply chain management; retail or wholesale sale services online or not of sensors, marker reading devices including physical or electronic, anti-counterfeiting devices, magnetic identification tapes, coded identification strips; preparation of inventories; inventory control; inventory control services; inventory management services; computer file management services, including computerized inventory tracking; financial auditing and accounting storage classes; strategic business analysis; management of business data; data input; business data analysis; processing of business data; commercial data analysis; data management services; data input and processing services; data compilation and entry in computer databases; provision of commercial data and information available to consumers; providing computerized business data; provision of information relating to data processing; providing business information directory services by global computer networks; provision of business information; supply chain management services; management of a supply chain of base metals and their alloys, fabricated or semi-manufactured, construction materials, tubes and pipes; supply chain management services via an online platform accessible to third parties; sharing of data and information about products via an online platform accessible to third parties; sharing of data and information about products; computerized inventory location services (computer file management); commercial intermediation relating to contracts for the purchase and sale of goods; business management assistance; commercial administration; commercial and administrative management services of customers' product fleets, including metal tubes and pipes, end caps, packaging and protective elements; commercial and administrative management services for customer product stocks, including metal tubes and pipes, end caps, packaging and protective elements; provision of administrative support for the management of customers' product fleets, including metal tubes and pipes, end caps, packaging and protective elements.
- Klasse 37 The optimization of technical maintenance of industrial facilities; assistance, advice and technical information relating to the installation, maintenance and maintenance of oil and gas extraction platforms, oil and gas wells, pipelines, oil pipelines, geothermal wells, carbon dioxide storage wells, refineries, chemical processing plants, and electric power plants; assistance, advice and technical information relating to the construction of infrastructure and buildings; information and advice relating to construction; assistance, advice and information relating to drilling oil or gas wells; assistance, advice and information relating to the completion of wells; rental of construction equipment; installation, maintenance and repair of machines, tubes and pipes; repair information; construction services for pipelines, oil pipelines, and conduits; installation services for pipelines, oil pipelines, and conduits; repair services for pipelines, oil pipelines, and conduits; underwater construction, maintenance and repair services; maintenance of oil and gas extraction platforms, oil and gas wells, pipelines, oil pipelines, geothermal wells, carbon dioxide storage wells.
- Klasse 38 Provision of access to an online platform; data communication services; data transmission services; provision of access to data on communication networks; services, telecommunication services, including data routing.
- Klasse 39 Transport logistics of products; logistics services for transporting products including metal tubes and pipes; monitoring of stocks of products; product tracking services, including metal tubes and pipes; transport services; distribution services [delivery]; transport and distribution services for base metals and their alloys, worked or semi-worked, of building materials, tubes and pipes, by air, sea or land; Packaging and storage services; storage and packaging services for base metals and their alloys, worked or semi-worked, of building materials, tubes and pipes, by air, sea or land; physical storage of data, documents, videos and images; rental services for metal products, metal tubes and pipes, tube and pipe accessories, welding apparatus and machines, tools (machine parts), machining inserts, drilling tools, handling apparatus, pipe and pipe assembly machines; rental services for apparatus and instruments for testing metal tubes and pipes; rental services for control apparatus and instruments (inspection), sensors, measuring apparatus and instruments, diagnostic apparatus other than for medical purposes, verification apparatus and instruments, control of authenticity, traceability, authentication, identification, product, document, or digital data; rental services for marker reading devices including physical or electronic; rental services for anti-counterfeiting device; rental services for protective end caps, storage devices; technical assistance, advice and information in routing operations including oil and gas.
- Klasse 40 Information regarding treatment of materials; tubes and pipe processing; processing and mechanical processing of metal articles including forging, machining, threading of tubes and pipes, surface treatment of tubes and pipes, metal plating; assembling including by screwing, or welding metal products on site with customers or on behalf of customers; completion of assemblies of metal products including tubes and pipes on site with customers or on behalf of customers; rental of machines for assembling tubes and pipes; provision or rental of machines for assembling tubes and pipes; manufacturing services of metal or non-metallic parts, tubular or not tubular, by any means, including by molding, machining, forging or additive manufacturing; surface treatment services of metallic or non-metallic parts, tubular or not tubular, by any means, including mechanical, chemical or electrochemical.
- Klasse 42 Evaluations, assessments and research in the fields of science and technology provided by engineers; research and development of new products for third parties; mechanical research; environmental protection-related research; technical project planning, technical project studies and project management (IT engineering); technical data analysis services; assistance, advice and technical information in drilling, completion and extraction operations, including oil and gas operations; technical assistance, advice and information on design, oil and gas extraction platforms, oil and gas wells, pipelines, oil pipelines, geothermal wells, carbon dioxide storage wells, refining plants, chemical processing plants, and electrical production plants; assistance, advice and technical information on infrastructure and building design; technical project study; scientific laboratory services; testing of materials and products, including metal tubes and pipes; surveying (engineering work); engineering; analysis and advice for the development of oil and gas deposits; modeling and simulating work done by computers for others; environmental surveys; evaluation of environmental risks; technical consultancy in the field of environmental engineering; consultancy services related to research in the field of environmental protection; well monitoring, including oil and gas wells,

geothermal wells, carbon dioxide storage wells; well control containing metal tubes and pipes; quality control; quality control of products including metal tubes and pipes; qualification and non-destructive testing of products, including metal tubes and pipes, on-site, laboratory, factory or online; quality audit of third-party technical teams including oil and gas extraction, thermal energy extraction, thermal energy production or carbon dioxide storage; audits of storage (quality) courses; audits, advice and technical information for the operation of wells, pipelines, oil pipelines and industrial facilities; audits, advice and technical information for the operation of wells, pipelines, oil pipelines and industrial facilities; qualification and non-destructive testing of metal pipe assemblies, on-site, laboratory, in factory or online; qualification or calibration of product assembly or control machines, including metal tubes and pipes, on site in the laboratory, in factory or online; product identification, authentication and traceability services; product identification, authentication and traceability services; rental of measuring apparatus; technical performance analysis services including oil platforms, oil and gas extraction and delivery facilities, oil and gas wells, geothermal wells, and carbon dioxide storage wells; provision of an online [Paas] platform; provision of a platform for the design or coordination of plant realization projects, including installations with metallic tubular components; provision of a platform for the design or coordination of facilities projects, including oil and gas extraction wells; provision of a platform for the design or coordination of projects for the construction of geothermal facilities, carbon dioxide storage, pipelines, oil pipelines, thermal power stations, buildings on land or at sea; provision or rental of devices for reading physical markers including character series, bar codes, QR codes, paint with tracers; provision or rental of physical marker reading devices including paint containing DNA; provision or rental of electronic marker reading devices, including electronic chips; provision or rental of electronic chip reading devices including RFID; rental of reading devices; provision or rental of reading devices such as temperature sensors, mechanical stresses, light, images (such as a camera), chemical or physical sensors; provision of technical information and data to customers; provision of an online [Paas] platform to manage a fleet or stock of products, including metal tubes and pipes; provision of an online supply chain management platform [PaaS]; provision or rental of inventory management software and customer product fleets; provision online of software for inventory management and customer product fleets; hosting of computerized data, files, applications and information; data hosting; online software hosting; online hosting of data entry, data storage, data analysis, data control, data communication software; data conversion and copying services, data encoding services; electronic data storage; electronic storage of data online; electronic storage of data including the production of a digital copy of products; electronic storage of product data, including raw, processed or installed metal tubes and pipes; electronic storage of data, documents, videos and digital images; measuring service in wells using sensors installed on metal tubes and pipes; measuring service in wells using sensors; [online] platform for sharing technical information and data on products; product control and inspection services for quality control purposes prior to shipment; software rental services for semi-automatic, automatic or driven by artificial intelligence-driven tube and pipe assembly machines [including by screwing or welding], software for semi-automatic assembly semi-automatic tubes and pipes, software for automatic tubes and pipes assembly machines, software for tubes and pipes assembly machines driven by artificial intelligence, software for verification and control of authenticity, traceability, product, document, or digital data, authentication and identification software, a product, a document, or digital

data, software [registered programs], software available online or downloadable, data entry software, data storage, data analysis, data control, data communication; mobile app rental services for mobile phones, tablets or mobile devices, apps for mobile phones, tablets or mobile devices, in connection with metal products including metal tubes and pipes, applications for mobile phones, electronic tablets or mobile devices, giving access to product information, including their location, availability, number, certification, applications for mobile phones, tablets, or mobile devices, providing access to product data, including their nature, composition, dimensions, weight, mobile phone applications for electronic tablets, or for mobile devices, for verifying and controlling the authenticity, traceability, product, document, or digital data, mobile phone applications, for electronic tablets, or for mobile devices, intended for authentication, and identification, of a product, document, or digital data, application for mobile phones, for electronic tablets, or for mobile devices, intended for the sale of products or services, software for the management of customers' stocks and fleets of products; online availability of software for inventory management and customer product fleets; rental services of data management software and databases; online availability of software for database management; rental services of marker reading devices including physical or electronic, character series reading devices, bar codes, QR codes, paint with tracers, electronic chip reading devices, including RFID chips, tracer reading devices including paint DNA; authentication services (control) of data transmitted by telecommunication, encryption, decryption and authentication of message and data information.

Klasse 7 Installations for generating electricity using waste heat; installations for generating electricity; modules for generating electricity using waste heat as parts and accessories of industrial robots, apparatus for machining, electronic-component manufacturing machines and systems, semiconductor manufacturing machines and systems; modules for generating electricity as parts and accessories of industrial robots,

apparatus for machining, electronic-component manufacturing machines and systems, semiconductor manufacturing machines and systems; industrial robots and parts and attachments thereof; welding robots and parts and attachments thereof; cutting machines; crushing machines; construction machines and apparatus for building or construction of roads, bridges and dams; snow ploughs and apparatus and parts and attachments thereof; metalworking machines and tools and parts and attachments thereof; mining machines and apparatus and parts and attachments thereof; construction machines and apparatus and parts and attachments thereof; loading-unloading machines and apparatus and parts and attachments thereof; mobile cranes and parts and attachments thereof; industrial fishing machines and instruments and parts and attachments thereof; chemical processing machines and apparatus and parts and attachments thereof; textile machines and apparatus and parts and attachments thereof; lumbering, woodworking, or veneer or plywood making machines and apparatus and parts and attachments thereof; pulp making, papermaking or paper-working machines and apparatus and parts and attachments thereof; printing or bookbinding machines and apparatus and parts and attachments thereof; agricultural machines and agricultural implements, other than hand-operated; machines and apparatus for use in forestry and apparatus and parts and attachments thereof; painting machines and apparatus and parts and attachments thereof; packaging or wrapping machines and apparatus and parts and attachments thereof; plastic processing machines and apparatus and parts and attachments thereof; semiconductor manufacturing machines and systems and apparatus and parts and attachments thereof; stone working machines and apparatus and parts and attachments thereof; non-electric prime movers, not for land vehicles and apparatus and parts and attachments thereof; parts of non-electric prime movers and attachments thereof; pneumatic or hydraulic machines and instruments and apparatus and parts and attachments thereof; repairing or fixing machines and apparatus and parts and attachments thereof; food mixing machines for commercial use; lawnmowers; waste compacting machines and apparatus and parts and attachments thereof; waste crushing machines and apparatus and parts and attachments thereof; machine elements, not for land vehicles; starters for motors and engines; AC motors and DC motors [not including those for land vehicles but including parts for any AC motors and DC motors]; AC generators [alternators]; DC generators; oil coolers for motors and engines; air condensers; arc welding machines; electric metal cutting machines; electric welding machines; fuel pumps for service stations; hydrogen dispensing pumps for service stations.

Klasse 9 Electronic device to measure wear of underbody components of heavy machineries; electronic machines, apparatus and their parts for remote monitoring systems; wireless remote control systems and devices for vehicles; telecommunication machines and apparatus, and their parts and accessories; computer software and computer hardware; computer programs; computer programs for data processing; computer programs for repair or maintenance of metalworking machines and apparatus, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, agricultural machines and implements, forest machines and apparatus; computer programs for managing position and battery, operational status and maintenance information of metalworking machines and apparatus, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, agricultural machines and implements, forest machines and apparatus; tablet computers, and their parts and accessories; tablet computers to measure the operation status of machine

- tools and to collect the operation data of machine tools by installing to the machine tools, and their parts and accessories; electrical control, testing and monitoring apparatus, and their parts and accessories; batteries and cells; battery boxes; capacitors; accumulators [batteries]; battery terminal; vehicle batteries; battery chargers for battery vehicles, and their parts and accessories; measuring or testing machines and instruments, and their parts and accessories; surveying machines and instruments, and their parts and accessories; power distribution or control machines and apparatus; LCD monitors; computer monitors; touchscreen monitors; tablet monitors; electroluminescent display panels; computer display monitors; electronic numeric displays; electrical controlling devices; electrical charge controllers; electronic power controllers; electronic speed controllers; pressure sensors; condensers; capacitance boxes; computer software, recorded; computer programs; connectors [electricity]; electronic connectors; electric wires and cables; cables, electric; sensors [measurement apparatus], other than for medical use; optical sensors; humanoid robots with artificial intelligence; remote control telemetering machines and instruments for industrial robots; rotary converters; phase modifiers; electric or magnetic meters and testers; electric buzzers; electrodes, other than welding electrodes or medical electrodes; magnetic cores; resistance wires; laboratory apparatus and instruments; optical machines and apparatus; photographic machines and apparatus; cinematographic machines and apparatus; anti-theft warning apparatus; protective helmets; simulators for the steering and control of vehicles; sports training simulators.
- Klasse 11 Desiccating apparatus; recuperators; steamers; evaporators; distillation apparatus; heat exchangers; industrial furnaces; forage drying apparatus; boilers, other than parts of non-electric prime movers or engines; feed water heaters [for industrial purposes]; air conditioners; air dehumidifiers; freezing machines and apparatus; waste water treatment tanks for industrial purposes; solar water heaters; water purifying apparatus for industrial purposes; tap water faucets; level controlling valves for tanks; pipe line cocks; bath fittings; water heaters; heaters; apparatus and installations for cooling; automatic temperature regulators for central heating radiators.
- Klasse 12 Vessels and their parts and fittings; aircraft and their parts and fittings; railway rolling stock and their parts and fittings; automobiles and their parts and fittings; carts; riyakah [two-wheeled carts]; car dampers; car pushers; car pullers; traction engine; non-electric prime movers for land vehicles, not including their parts; anti-theft alarms for vehicles; machine elements for land vehicles; AC motors or DC motors for land vehicles, not including their parts; self-driving cars; camera drones; civilian drones; dump trucks; fork lift trucks.
- Klasse 35 Providing information concerning commercial sales; providing information concerning sales of used automobiles, used constructing machines including crane trucks and power shovels, used loading-unloading machines and apparatus, used mining machines and apparatus, used waste compacting machines and apparatus, used waste crushing machines, used metalworking machines and tools, and used apparatus and instruments for use in forestry; marketing research or analysis; marketing research concerning used automobiles, used constructing machines including crane trucks and power shovels, used loading-unloading machines and apparatus, used mining machines and apparatus, used waste compacting machines and apparatus, used waste crushing machines, used metalworking machines and tools, and used apparatus and instruments for use in forestry; commercial intermediation services; intermediation services for the purchase and sale of used automobiles, used constructing machines including crane trucks and power shovels, used loading-unloading machines and apparatus, used mining machines and apparatus, used waste compacting machines and apparatus, used waste crushing machines, used metalworking machines and tools, and used apparatus and instruments for use in forestry; retail services or wholesale services for construction machines and their parts and fittings; retail services or wholesale services for loading-unloading machines and apparatus and their parts and fittings; retail services or wholesale services for mining machines and apparatus and their parts and fittings; retail services or wholesale services for waste compacting machines and apparatus and their parts and fittings; retail services or wholesale services for waste crushing machines and their parts and fittings; retail services or wholesale services for metalworking machines and tools and their parts and fittings; retail services or wholesale services for apparatus and instruments for use in forestry and their parts and fittings; computer data processing.
- Klasse 37 Repair or maintenance of metalworking machines and tools; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding metalworking machines and tools; providing information regarding maintenance of metalworking machines and tools; providing information regarding operational status of metalworking machines and apparatus for construction; providing information regarding operational status of metalworking machines and apparatus for repair and maintenance; repair or maintenance of construction machines and apparatus; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding construction machines and apparatus; providing information regarding maintenance of construction machines and apparatus; providing information regarding operational status of construction machines and apparatus for construction; providing information regarding operational status of construction machines and apparatus for repair and maintenance; repair or maintenance of loading-unloading machines and apparatus; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding loading-unloading machines and apparatus; providing information regarding maintenance of loading-unloading machines and apparatus; providing information regarding operational status of loading-unloading machines and apparatus for construction; providing information regarding operational status of loading-unloading machines and apparatus for repair and maintenance; repair or maintenance of civil engineering machines and apparatus; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding civil engineering machines and apparatus; providing information regarding maintenance of civil engineering machines and apparatus; providing information regarding operational status of civil engineering machines and apparatus for construction; providing information regarding operational status of civil engineering machines and apparatus for repair and maintenance; repair or maintenance of mining machines and apparatus; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount

of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding mining machines and apparatus ; providing information regarding maintenance of mining machines and apparatus; providing information regarding operational status of mining machines and apparatus for construction; providing information regarding operational status of mining machines and apparatus for repair and maintenance; repair or maintenance of machines and apparatus for use in forestry; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding machines and apparatus for use in forestry; providing information regarding maintenance of machines and apparatus for use in forestry; providing information regarding operational status of machines and apparatus for use in forestry for repair and maintenance; repair or maintenance of agricultural machines and agricultural implements other than hand-operated; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding agricultural machines and agricultural implements other than hand-operated ; providing information regarding maintenance of agricultural machines and agricultural implements other than hand-operated; providing information regarding operational status of agricultural machines and agricultural implements other than hand-operated for construction; providing information regarding operational status of agricultural machines and agricultural implements other than hand-operated for repair and maintenance; repair or maintenance of waste compacting machines and apparatus; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding waste compacting machines and apparatus; providing information regarding maintenance of waste compacting machines and apparatus; providing information regarding operational status of waste compacting machines and apparatus for construction; providing information regarding operational status of waste compacting machines and apparatus for repair and maintenance; repair or maintenance of waste crushing machines and apparatus; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding waste crushing machines and apparatus ; providing information regarding maintenance of waste crushing machines and apparatus; providing information regarding operational status of waste crushing machines and apparatus for construction; providing information regarding operational status of waste crushing machines and apparatus for repair and maintenance; repair or maintenance of waste and trash separator machines; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding waste and trash separator machines; providing information regarding maintenance of waste and trash separator machines; providing information regarding operational status of waste and trash separator machines for construction; providing information regarding operational status of

waste and trash separator machines for repair and maintenance; repair or maintenance of snow ploughs; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding snow ploughs; providing information regarding maintenance of snow ploughs; providing information regarding operational status of snow ploughs for snow removal; providing information regarding operational status of snow ploughs for repair and maintenance; repair or maintenance of measuring or testing machines and instruments; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding measuring or testing machines and instruments; providing information regarding maintenance of measuring or testing machines and instruments; providing information regarding operational status of measuring or testing machines and instruments for repair and maintenance; repair or maintenance of automobiles; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding automobiles; providing information regarding maintenance of automobiles; providing information regarding operational status of automobiles for construction; providing information regarding operational status of automobiles for repair and maintenance; repair or maintenance of industrial robots; providing operational information namely daily operating hours, operating time, and machine conditions such as oil temperature, remaining amount of fuel, consumed amount of fuel, and as to whether there are any internal troubles prior to maintenance and repair regarding industrial robots; providing information regarding maintenance of industrial robots; providing information regarding operational status of industrial robots for construction; providing information regarding operational status of industrial robots for repair and maintenance; construction and providing information relating thereto; construction by intelligent computerised construction technology via computer communications and providing information relating thereto; consulting services regarding constructions to execute optimal constructions; construction consultancy; construction supervision; supervision of building construction, civil engineering structures and underground structures; operation and maintenance of building equipment and providing information relating thereto; mining and providing advice and information relating thereto; snow removal and providing advice and information relating thereto.

Klasse 39 Providing information regarding operational control and operational status of cars and dump trucks; transportation information, namely, providing information regarding dynamic positioning of cars and dump trucks; providing information regarding the location of cars and dump trucks; transport of cars and dump trucks and providing information relating thereto; consultancy relating to planning of operational control of cars and dump trucks in transport; providing information regarding the operational control and operational status of the land vehicles; providing information regarding the operating location of land vehicles; physical storage of electronic media containing data, drawings, texts, digital photographs, music, images, video and electronic data; warehousing services; advisory services relating to the storage and transportation of goods, freight or cargo; freighting services; rental of warehouse space; rental of land vehicles; providing location information regarding metalworking machines and tools; providing information

regarding location of metalworking machines and apparatus for construction; providing information regarding location of metalworking machines and apparatus for repair and maintenance; providing location information regarding construction machines and apparatus; providing information regarding location of construction machines and apparatus for construction; providing information regarding location of construction machines and apparatus for repair and maintenance; providing location information regarding loading-unloading machines and apparatus; providing information regarding location of loading-unloading machines and apparatus for construction; providing information regarding location of loading-unloading machines and apparatus for repair and maintenance; providing location information regarding civil engineering machines and apparatus; providing information regarding location of civil engineering machines and apparatus for construction; providing information regarding location of civil engineering machines and apparatus for repair and maintenance; providing location information regarding mining machines and apparatus; providing information regarding location of mining machines and apparatus for construction; providing information regarding location of mining machines and apparatus for repair and maintenance; providing location information regarding machines and apparatus for use in forestry; providing information regarding location of machines and apparatus for use in forestry for construction; providing information regarding location of machines and apparatus for use in forestry for repair and maintenance; providing location information regarding agricultural machines and agricultural implements other than hand-operated; providing information regarding location of agricultural machines and agricultural implements other than hand-operated for construction; providing information regarding location of agricultural machines and agricultural implements other than hand-operated for repair and maintenance; providing location information regarding waste compacting machines and apparatus; providing information regarding location of waste compacting machines and apparatus for construction; providing information regarding location of waste compacting machines and apparatus for repair and maintenance; providing location information regarding waste crushing machines and apparatus; providing information regarding location of waste crushing machines and apparatus for construction; providing information regarding location of waste crushing machines and apparatus for repair and maintenance; providing location information regarding waste and trash separator machines; providing information regarding location of waste and trash separator machines for construction; providing information regarding location of waste and trash separator machines for repair and maintenance; providing location information regarding snow ploughs; providing information regarding location of snow ploughs for snow removal; providing information regarding location of snow ploughs for repair and maintenance; providing location information regarding measuring or testing machines and instruments; providing information regarding location of measuring or testing machines and instruments for repair and maintenance; providing location information regarding automobiles; providing information regarding location of automobiles for construction; providing information regarding location of automobiles for repair and maintenance; providing location information regarding industrial robots; providing information regarding location of industrial robots for construction; providing information regarding location of industrial robots for repair and maintenance.

Klasse 42 Computer software design, computer programming and maintenance of computer software; design and development of operating software for accessing and using a cloud computing network; computer programming for information management; providing

computer programs on data networks; cloud computing; rental of operating software for accessing and using cloud computing network; electronic data storage and data back-up services; electronic storage of data, drawings, texts, digital photographs, music, images, video and electronic data by cloud computing; technical data analysis; surveying and engineering services; testing, data-analysing and measuring regarding civil engineering and building construction; drafting of building construction, civil engineering structures and underground structures and consultancy relating thereto; technical project planning; testing and research services relating to machines, apparatus and instruments; designing of machines, apparatus, instruments [including their parts] or systems composed of such machines, apparatus and instruments; design and development of computer hardware, software and databases; technological advice relating to operation of machines; technological advice relating to operation of computer programs; technological advice relating to computers, automobiles and industrial machines; scientific analysis and consultancy of consumed fuel, fuel level and operating data of metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, measuring or testing machines and instruments, automobiles, and industrial robots; scientific analysis and consultancy of consumed power, charge level and operating data of metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, measuring or testing machines and instruments, automobiles, and industrial robots; energy auditing; consultancy in the field of energy efficiency; consultancy in the field of energy-saving; construction planning services.

Klasse 2 Optical coatings.
 Klasse 4 Fuel propellants for use in rocket motors.
 Klasse 6 Metal ball mats and ball mats comprised primarily of metal for use in cargo loading spaces of aerospace vehicles; roller tracks for loading cargo; metal couplings

and manifolds for aerospace construction.

Klasse 7 Impact machines for breaching concrete; rocket motors for use in spacecraft and missiles; structural parts therefor and controls sold as a unit; aircraft jet and marine engines and replacement and structural parts therefor; electric roller devices, namely, roller conveyors used to transport and place portable storage containers; power winches and lifts and hoists for aerospace vehicles; cargo winches; aerospace vehicle parts, namely, transmissions, blowers, valves, starters; turbine power systems comprised of a hot gas turbine and a pump for auxiliary and hydraulic power not for land vehicles; ram air turbines not for land vehicles; hydromechanical actuators for aircraft flight controls; air cycle machines and water separators for aircraft; fuel pumps for rocket engines and replacement parts and controls sold as a unit; stationary machine tools, namely, electric duplicating machines for following the contour of an object and or automatically duplicating the same or shaping a work piece in accordance therewith; electric vibratory drilling and/or abrading machines for applying vibration to an object to remove portions of said object or another object therefrom; generators of electricity, namely, wind-powered electricity generators and hydroelectric generators; machine cylinder; engine starters; couplings and belts transmission for machines (except for vehicles); machines for vulcanization of tires; compressors for machines involved in temperature control; industrial machines, namely, electric motors; resistance welding machines; machine parts, namely, dust filters; valves, namely, hydraulic and pneumatic valves being parts of machines for aircraft and spacecraft construction and gas turbine engines; hydraulic and pneumatic valves as machine components; valves for pumps; exhaust nozzles for gas turbine engines, not for land vehicles; metal hydraulic and pneumatic valves for aerospace construction; vacuum generators for aircraft toilets; elevators for aircrafts; nozzles, namely, automatic nozzles for spraying fuel; automatic nozzles for water and liquids for use in the manufacturing or processing of goods; metallic seals for gas turbine engines.

Klasse 9 Aerospace vehicle sensors; photo-electric cells; television lamps; military computer mobile systems comprised of computer central processing units and displays, electronic and mechanical shock absorbers and shock isolators; active and passive countermeasure equipment comprising signal transmitters and receivers, and computer central processing units for generating communication data for aircraft and vehicles; electronic data communicators for aircraft and vehicles; electronic transmitters for jamming signals for aircraft and ground vehicles; aerials, namely, radio aerials and satellite aerials; laser perimeter awareness systems comprised of lasers, optical receivers and associated controls; aerospace ice detectors; aerospace sensors for monitoring angle of sideslip, gas path engine pressure, current-to-heater system interruptions, brake temperatures, air data, altitude, pitot pressure, static pressure, angle of attack, temperature, engine exhaust, inlet pressure, engine temperature, fuel and oil temperature, navigation; aerospace sensors for flight crew safety and security; air traffic control systems comprised of radio equipment, radar transmitters and receivers, global positioning systems, and computer central processing units for image display and analysis; radar transmitters, detectors, receivers; global positioning systems; aircraft navigation and landing systems, namely, automatic direction finders, radio altimeters, distance measuring equipment, global position sensors, navigation receivers, multimode receivers, VHF omni-directional range marker beacon receivers; aerospace communication systems comprised of receivers and transmitters, and computer central processing units for processing communication information; aircraft interior products, namely, emergency oxygen systems for aircraft passengers and flight crews comprised of oxygen masks not for medical use, chemical oxygen

generators, empty oxygen storage vessels, gas pressure regulators, oxygen distribution circuits and controls, and protective breathing equipment being oxygen breathing units; aircraft navigation and landing systems comprised of high frequency signal transmitters and receivers, global positioning units and central computer processing units for image display and analysis; aircraft alarm systems comprised of sensors, sound emitting devices and circuitry for aircraft; ally or enemy identification systems comprised of signal transmitters and receivers, data processing equipment for signal identification, coding and decoding of signals, and hardware and downloadable software to process images and sound; antenna tuning apparatus; microwave communications transmitter; battery accumulators; optical fiber; downloadable analysis software for computer software and computer networks; modulators for wireless networks and cellular communication and monolithic microwave integrated circuits; space suits; antennas; downloadable computer programs for the management of battlefields; computerized aircraft engine analyzers; fuel controllers; avionics systems for aircraft and aerospace vehicles consisting of communication and navigation hardware for use in airborne applications comprising computer hardware, software and displays for communications and navigation for aircraft and aerospace vehicles and for head-up display guidance systems, namely, flight situational awareness; batteries; battery eliminators; cabin pressure control systems comprised of cabin pressure controller, control panel, pressure relief valve, outflow valve and structural and replacement parts therefor; calculating machines; data processing equipment and computers; cameras; climate and weather monitoring and forecasting systems comprised of radar transmitters and receivers and computer central processing units for processing climate and weather data; climate control systems for aerospace vehicles consisting of thermostats, air conditioning, heating, ventilation and drying control devices; climatological surveillance systems comprised of radar transmitters and receivers; collective radio communication apparatus for ships, aircraft, vehicles; portable communications equipment, namely, modems, receivers, transceivers, and waveforms for use in air-to-ground secure communication networks; wireless appliances downloadable computer software for tracking, or disturbing / confusing communication; digital information downloadable computer software for securing storage and use of the computer; global positioning system (GPS); missile launch systems comprising downloadable software for analyzing a target's location and actuating warheads, motors and propulsion systems for deploying warheads, and warheads for destroying targets; communications computers and systems for aircraft, namely, receivers, transmitters, amplifiers, transceivers, jammers, couplers, audio distribution units, satellite communication units, automatic control computer central processing unit for gas turbine engines, radar and GPS systems used for the transmission of interrogation signals and the reception of response signals, and downloadable software for analyzing such signals to enable communication between aircraft; electric compensating cables; computer hardware for telecommunications; downloadable computer programs for military surveillance; downloadable computer programs for organizing and viewing digital images and photos; downloadable computer programs for analyzing computer software and networks; downloadable computer programs for wireless content transfer; downloadable computer programs for integrated bridge control systems; downloadable computer software used in oxygen delivery systems for aircraft; downloadable software for military mobile computers; computerized condition analyzers for life support equipment; computers; electric motor speed and direction controls; electronic controls for engines for aerospace vehicles; electronic throttle controllers; electronic brake

monitoring controls and fuel controls for aerospace vehicles; electrical and electronic controls, namely, electro-hydraulic transducers and electrical sensors and replacement parts therefor; data collection and data processing systems comprised of computer central processing units and antennas for military information; deep ocean control systems comprised of sonar; gyroscopes for maritime use; oceanic depth finding systems comprised of pressure sensors, temperature sensors and computer processing unit for signal analysis and image display; digital weapon system interface device for tactical training; echo sounders; electric power distribution units, power supplies, power switches and power distribution and generation sensors for power generation and power distribution for aerospace vehicles; electric power distribution systems comprised of automatic power management apparatus, solid state power controllers and secondary power distribution assemblies; electric power distribution unit for aircraft; electrical circuits; electronic compass for navigation; emergency signal transmitters; weapons locators, namely, acoustic detection and computer-based signal processing unit for sensing and determining the location of weapon detonation; fire extinguishers; laser warning receivers for use in detecting, analyzing and locating the direction of laser; optical communication instruments and components, namely, optical and digital transmitters and receivers; satellite connection systems comprising downloadable security-enhanced software establishing secure connections between ground stations and satellites; satellite navigation devices, namely, GPS receivers for communicating with GPS satellites, and downloadable anti-jamming software providing uninterrupted signal communications; satellite receiver; military training systems, namely, battlefield and flight simulation; submarine surveillance systems, namely, radar systems used for detection, imaging and classification of underwater submarines; thermal imaging sensors and equipment, namely, sensors for detecting infrared radiation to enable vision in darkness, dust or inclement weather, and sensors used for imaging, targeting and tracking of guided missiles; torpedo components and systems, namely, power supply, namely, batteries, electronic controls, electronic sensors, electronic navigational and positioning apparatus; electronic aircraft touchdown protectors; undersea surveillance systems, namely, systems comprised of hydrophones, optical telemetry devices, and computer central processing unit for image display and analysis; optical telemetry devices for image display and analysis; wireless communications devices for recording, organizing, transmitting, receiving, manipulating, and reviewing voice, text, data, image, and audio files; digital forensics, namely, electronic aircraft integrated data acquisition units for collecting, integrating and recording data for monitoring, diagnosing and prognosticating aircraft subsystems, overall aircraft performance and performance of the aircraft crew; downloadable software for predictive analysis concerning maintenance and repair of individual aircraft engines and fleets of aircraft engines using operational data downloadable computer software for cybersecurity; video modulators; video tape recorders; compass systems, namely, gyroscopes; global positioning systems; imaging and targeting systems for military vehicles and weapon systems comprised of radar transmitters and receivers, and computer central processing unit for image display and analysis; ground-based radar sensors; infrared sensors and infrared sensing systems comprised of infrared transmitters and detectors, optical lenses, video monitors, and computer central processing unit for image display and analysis; thermal vision systems for vehicles comprised of signal transmitters and detectors, cameras, and computer central processing unit for image display and analysis; radar systems comprised of antennas and computer central processing unit; weapon locating systems comprising

electro-optical sensors, radar transmitters and receivers, and computer central processing unit for image display and analysis; laser warning systems comprised of laser sensors, computer central processing unit for sensor signal analysis, and alarms; remote sensing and surveillance instruments for aircraft and space applications comprised of satellite receivers and transmitters, optical sensors, spectral filters, and computer central processing unit for image display and analysis; active and passive countermeasure equipment comprising signal transmitters and receivers, and computer central processing unit for generating communication data for aircraft and vehicles; mobile military computer systems comprised of computer central processing unit and displays, electronic and mechanical shock absorbers and shock isolators; satellite communication systems comprised of satellite receivers and transmitters, and computer central processing unit for processing communication information; sonar systems comprised of sonar transducers, and computer central processing unit for sonar signal analysis and image display; undersea surveillance systems comprised of hydrophones, optical telemetry devices, and computer central processing unit for image display and analysis; global positioning systems; air traffic control systems comprised of radar transmitters and receivers, global positioning systems, and computer central processing unit for image display and analysis; aircraft navigation and landing systems comprised of high frequency signal transmitters and receivers, global positioning systems, and computer central processing unit for image display and analysis; aircraft communication systems comprised of high frequency signal transmitters and receivers, and computer central processing unit for generating communication information; multi-party radio communication systems comprised of radio frequency signal transmitters and receivers, and computer central processing unit for analyzing and modulating frequency signals; roadway toll collection systems comprised of signal transmitters and receivers, cameras, video recorders, and computer central processing unit for performing toll collection; roadway vehicle tracking systems comprised of signal transmitters and receivers, cameras, video recorders, and computer central processing unit for processing and tracking vehicle license plates; identification of friend or foe systems comprised of signal transmitters and receivers, and computer central processing unit for performing signal encryption and decryption; environmental weather and climatological surveillance monitoring and forecasting systems comprised of radar transmitters and receivers, and computer central processing unit for signal analysis and image display; military intelligence data gathering and processing systems comprised of radar transmitters and receivers, and computer central processing unit for signal analysis; wireless network systems comprised of wireless modems and satellite communication receivers and transmitters; integrated circuit systems; oceanic depth finding systems comprised of pressure sensors, temperature sensors, and computer central processing unit for signal analysis and image display; electronic compasses for maritime use; transformers; power supplies; and electronic modulators for wireless networks and cellular communications equipment; monolithic microwave integrated circuits; computer hardware; downloadable computer software, namely, downloadable software for the creation of firewalls; downloadable software for security analytics; downloadable software for use by security analysts to facilitate the search and analysis of data related to cyber and real-world threats; downloadable software for network security, load balancing, and routing; downloadable software for web, hardware, network, computer and internet security; downloadable software for monitoring and/or controlling access to sites and locations on a global computer network; downloadable software that enables safe, secure and simultaneous

data movement within and between computer networks; downloadable software that enables, controls and audits sharing of information across computer networks; downloadable software that enables users to enable and control access to computers, computer networks, data, documents and other software applications with multiple and differing access criteria; downloadable software that provides users with simultaneous access to multiple computer networks; downloadable computer software for security and protection, namely, downloadable software for providing web security and protection, providing e-mail messaging security and protection, and for data loss prevention; downloadable computer software for the security and protection of data, networks and communications; downloadable software for analyzing radar system inputs and directing interception of missiles; telecommunications apparatus, namely, radio transmitters, transceivers, and audio-frequency amplifiers; radio monitoring apparatus, namely, monitors for monitoring radio current and signals; electronic flight control surface actuators; machine, engine or motor control device, namely, electronic engine controls and full authority digital engine controls for aerospace vehicles; battery chargers, electric transformers, and electronic discharge tubes other than for lighting; lights specifically made for protective tactical vests; missile defense systems, namely, radar systems detecting and analyzing incoming missiles and artillery launchers to deploy interceptors to destroy incoming missiles; automatic distribution machines, namely, electrical power distribution units; electronic fluid control valves for gas turbine engines and temperature and pressure sensors for gas turbine engines automatic valves; auxiliary power units for supplying electrical power other than for land vehicles; electronic controllers for toilet valves.

Klasse 11 Electric lamps; lights for aircraft; lights for aerospace vehicles; aircraft interior products, namely, environmental control equipment in the nature of air cooling apparatus, heat exchangers not being parts of machines, cold plates in the nature of heat sinks for cooling electronic equipment; aircraft interior products, namely, food preparation structures, appliances and equipment in the nature of galley heating and cooling appliances, beverage makers, and galley chillers; electric food and beverage equipment for airplane galleys, namely, coffee makers, water boilers, cooking and warming ovens, refrigerators and freezers, hot water dispensers, beverage dispensers, hot beverage makers, and food and beverage heating units; aircraft toilets and associated systems and components, namely, toilet bowls, toilet seats, toilet frames, toilet flush valves, toilet rinse valves, electronic controllers for toilet valves, vacuum generators, wastewater storage tanks, and wastewater pipes and pipe fittings, sold together as a unit; aircraft interior products, namely, lavatory compartments sold equipped with sanitary facilities in the nature of toilets and sinks; aircraft interior products, namely, aircraft potable water and vacuum waste systems comprised of lavatory compartments, toilets, sinks, plumbing fittings in the nature of valves and couplings and plumbing fixtures in the nature of sinks, sink traps and faucets; aircraft vacuum waste system consisting of a lavatory and waste holding tank; aircraft interior products, namely, aircraft interior structures and monuments, namely, galleys sold equipped with food preparation apparatus in the nature of heating and cooling appliances.

Klasse 12 Aircraft and structural parts for aircrafts, namely, seats, engines, brakes, wing, tail, rudder, aileron, and stabilizers, engine bay doors, water tanks, chassis and enclosures, aeronaves; unmanned aircraft, aviation fuel truck joint; apparatus for locomotion by land, air or water, namely, gas turbine engines; aircraft landing gear; aircraft; aircraft propellers and structural parts for aircraft propellers.

Klasse 13 Missiles, namely, cruise missiles, pyrotechnic missiles, ballistic missiles, guided missiles, ship-to-air

- missiles; firearms; ammunition and projectiles; explosives; fire flare; fireworks; torpedoes; weapons scopes and sights.
- Klasse 17 Rubber seals for aircrafts and gas turbine engines; weather stripping compositions, packing and insulation in the nature of non-metal weather strips for use in aircrafts.
- Klasse 35 Business management and operations consulting and advisory services; business consulting services in the field of cybersecurity; business consulting services in the field of data security.
- Klasse 37 Aerospace vehicle maintenance, repair and overhaul; maintenance, repair, and servicing of pumps, blowers, and compressors; installation of complex electronic equipment and systems.
- Klasse 38 Emergency and disaster communications services via telephone, wireless network and satellite; aeronautical communications services via telephone, wireless network and satellite; teleprocessing; railroad telecommunications via telephone, wireless network and satellite; satellite communications services; providing Internet services to airline passengers; aeronautical air-ground-air-radio service.
- Klasse 39 Providing travel information from an online computer database and an online interactive map.
- Klasse 41 Training in servicing and repair of aircraft and systems and components, in use of electronic equipment/systems, pumps, blowers, and compressors; training on how to operate unmanned aircraft; training in the field of chemical and biological incident response; training of first responders on use of unmanned aerial vehicle equipment and distribution of service manuals and video materials therewith; training in the use of complex electronic equipment and systems.
- Klasse 42 Engineering and computer programming services for aircraft and aerospace vehicles, parts and components; aircraft product development; providing weather and meteorological information; providing Internet search engine services for retrieving data; research consultation services; engineering research services; engineering services; engineering counselling; providing online, non downloadable software to protect users from cyber intrusions; cybersecurity services in the nature of preventing unauthorized computer access; engineering services-namely, operation of complex electronic equipment and systems; cybersecurity services; providing online non-downloadable computer software services, namely, web, hardware, network, computer and internet security services by restricting and monitoring access to unauthorized areas in a global computer network or any other publicly accessible computer network for the purposes of promoting security and the computer user's productivity, by restricting access to and by computers to web sites, and by providing email messaging security and electronic data security; providing temporary use of non-downloadable computer software, namely, software for the creation of firewalls, software for security analytics, software for use by security analysts to facilitate the search and analysis of data related to cyber and real world threats, software for network security, load balancing, and routing, software for web, hardware, network, computer and internet security, software for monitoring and/or controlling access to sites and locations on a global computer network, software that enables safe, secure and simultaneous data movement within and between computer networks, software that enables, controls and audits sharing of information across computer networks, software that enables users to enable and control access to computers, computer networks, data, documents and other software applications with multiple and differing access criteria, and software that provides users with simultaneous access to multiple computer networks; providing temporary use of non-downloadable computer software for security and protection, namely, software for use in maintaining and monitoring web security, data security and e-mail

- security; software as a service (SaaS) services, namely, hosting cloud and data center infrastructure software for use by others in relation to security and protection computer software; cloud computing services featuring computer software for use in security and protection; providing online non-downloadable computer software services for the security and protection of data, networks, and communications.
- Klasse 45 Airport security control services for persons and luggage.

Klasse 10 Medical instruments, apparatus and containers for the application of radiopharmaceutical and radiodiagnostic preparations; controlling, regulating and measuring apparatus as parts of medical instruments, apparatus and containers included in this class, in particular apparatus for therapy and diagnosis with a radiotherapeutic or radiodiagnostic substance; radionuclide generators for radiopharmaceutical purposes.

Klasse 42 Conducting clinical trials at all stages and in various indications, particularly in oncology; conducting phase III clinical trials with target radiopharmaceutical ¹⁷⁷Lu-Edotreotide in patients with neuroendocrine tumours of gastroenteric or pancreatic origin [GEP-NET].

Klasse 44 Medical services, in particular services relating to radiotherapeutic and radiodiagnostic oncology, cardiology, angiology, neuroradiology and nuclear medicine and brachytherapies, including intercalary, interstitial and intravascular brachytherapy,

radionuclide labelling, PET and SPECT scanning and target radionuclide therapy, peptide receptor radionuclide therapy [PRRT], personal nuclear medicine and precision oncology.

Klasse 4 Wax [raw material]; candles and wicks for lighting; industrial oils and greases, motor oil; industrial oil, oleine, oil-gas, paraffin, rape oil for industrial purposes, stearine, sunflower oil for industrial purposes; industrial grease; industrial wax; lubricants, mazut, grease for belts, non-slipping preparations for belts, lubricating grease, lubricating oil; dust removing preparations, dust absorbing compositions; dust controlling compositions; fuels (including motor spirit) and illuminants; gas for lighting, carburants, fuel, petrol, fuel gas, firewood, fuel oil, methylated spirit, fuel with an alcohol base; vaporized fuel mixtures, ethanol [fuel], diesel oil, kerosene, mineral fuel; naphtha; non-chemical fuel additives; petroleum, raw or refined, petroleum ether,

- producer gas, coal naphtha; solidified gases; firelighters; electrical energy; benzene fuel; xylene fuel; additives in connection with the aforesaid goods, included in this class.
- Klasse 5 Pharmaceuticals; dietetic food and products, preparations and nutritional supplements adapted for medical and veterinary purposes; dental preparations and articles; sanitary preparations and articles; pest control preparations and articles; preparations for destroying noxious animals; fungicides; herbicides; medical and veterinary preparations and articles; food for babies; plasters, materials for dressings; dressings, medical; medicine cases, portable, filled; first-aid boxes, filled; surgical dressings; teeth filling material; dental impression materials; disinfectants; antiseptics; air deodorizing preparations; animal washes [insecticides]; insecticides.
- Klasse 6 Building and construction materials and elements of metal; ironmongery; bag hangers of metal; labels of metal; doors, gates, windows and window coverings of metal; outdoor blinds of metal; structures and transportable buildings of metal; statues and works of art of common metals; metal containers for the storage and transportation of goods; common metals and their alloys; railway material of metal; non-electric cables and wires of common metal; metal hardware and small items of metal hardware; badges of metal for vehicles; locks of metal for vehicles; registration plates of metal; signboards of metal; wheel clamps [boots]; tool boxes of metal, empty; tool chests of metal, empty; metal ramps for use with vehicles; pipes and tubes of metal; cashboxes [metal or non-metal]; safes [metal or non-metal]; safes, electronic; ores of metal; foils of metal for wrapping and packaging; ducts of metal for ventilating and air-conditioning installations; building materials of metal; materials of metal for funicular railway permanent ways; steel wire; binding screws of metal for cables; shims; door closers of metal, non-electric; chests of metal; cattle chains; rods of metal for brazing and welding; anchors; handcuffs; weather- or wind-vanes of metal; tree protectors of metal; traps for wild animals; bronzes for tombstones; parts and accessories for all the above mentioned goods, included in this class.
- Klasse 7 Power operated tools; propulsion mechanisms, other than for land vehicles; machines for plastics working, for manufacturing, repairing and dismantling of land, air and water vehicles; electromechanical machines for chemical industry, agricultural machines, mineworking machines; machines for the textile industry; machines for the food industry; machines for the beverage industry [pumps]; construction machines; packing machines; agricultural, earthmoving, construction, oil and gas extraction and mining equipment; machine tools; motors, other than for land vehicles; motors, electric, other than for land vehicles; parts of motors of all kinds; parts of electric motors of all kinds; diesel engines, not for land vehicles; glow plugs for diesel engines; gas engines; gasoline engines not for land vehicles; hydraulic engines and motors; superchargers; turbocompressors; pumps, compressors and blowers; industrial robots; oil pumps for vehicles; lubricators [parts of machines]; couplings, other than for land vehicles; camshafts for vehicle engines; power transmissions and gearing for machines [not for land vehicles]; parts of clutches/couplings and transmissions and power transmission devices, included in this class; moving and handling equipment; generators of electricity; machines and machine tools for treatment of materials and for manufacturing; motors and drives as well as machine parts for machines and machine tools for material treatment and production; dispensing machines; sweeping, cleaning, washing and laundering machines; agricultural machines; shredders [machines] for industrial use; lawnmowers [machines]; agricultural implements, other than hand-operated; wind turbines; vending machines; dispensing machines [other than vending machines]; woodworking machines; papermaking machines; printing machines for use on
- sheet metal; friezing machines; sizing machines; sausage making machines; bottle washing machines; cigarette machines for industrial purposes; leather-working machines; rotary steam presses, portable, for fabrics; bicycle assembling machines; potters' wheels; engraving machines; cord making machines; adhesive tape dispensers [machines]; kerb making machines; mixing machines; washing apparatus; disintegrators; superheaters; glass-working machines; electromechanical machines for chemical industry; rinsing machines; puddling machines; oil refining machines; agitators; jacks [machines]; pneumatic jacks; metalworking machines; foundry machines; steam engines; stitching machines; screwdrivers, electric; filters for cleaning cooling air, for engines; welding machines, electric; washing installations for vehicles; hydrogen dispensing pumps for service stations; fuel dispensing pumps for service stations; incubators for eggs; parts and accessories for all the above mentioned goods, included in this class.
- Klasse 8 Hygienic and beauty implements for humans and animals; edged and blunt weapons; cutlery, and food preparation implements being kitchen knives, cutting and grinding implements; hand-operated tools and implements for treatment of materials, and for construction, repair and maintenance services; lifting tools; hand-operated tools and implements for use in agriculture, horticulture and forestry, for the construction of machines, apparatus and vehicles and for the building industry; scraping tools [hand tools]; spanners [hand tools]; cutlery; table cutlery [knives, forks and spoons]; forks; scissors; side arms, other than firearms; swords; razors; razor cases; manicure sets; sharpening stones; agricultural sprayers [hand operated]; livestock marking tools; harpoons; hand tools, hand-operated; lifting jacks, hand-operated; brick trowels; parts and fittings of all aforesaid goods, included in this class; metal tool handles.
- Klasse 9 Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; information technology and audiovisual equipment; magnets, magnetizers and demagnetizers; apparatus, instruments and cables for electricity; optical devices, enhancers and correctors; safety, security, protection and signalling devices; diving equipment; navigation, guidance, tracking, targeting and map making devices; measuring, detecting and monitoring instruments, indicators and controllers; automatic indicators of low pressure in vehicle tyres; mileage recorders for vehicles; scientific research and laboratory apparatus, educational apparatus and simulators; eyewear, spectacle cases, binoculars, magnifying glasses [optics]; sunglasses; vehicle breakdown warning triangles; warning lamps for vehicles; batteries, electric and their parts, accumulators, electric and their parts, fuel cells and their parts, solar batteries; batteries, electric, for vehicles; chargers for batteries, electric; burglar alarms, fire alarms, smoke alarms, gas alarms; fire extinguishers; scales; spirit levels; compasses for measuring; rulers [measuring instruments], acid hydrometers, quantity indicators; electronic control devices and power supply apparatus for vehicle headlights and their parts, light-emitting diodes [LED], electronic power controllers; electric and electronic controllers, regulating apparatus and control instruments; simulators for the steering and control of vehicles; voltage regulators for vehicles; speed indicators; revolution counters; measuring apparatus and measuring instruments; lifesaving apparatus and equipment, namely life-saving rafts, fire escapes, safety

nets, safety tarpaulins, life belts, life buoys, life jackets; electrical fuses, relays, electric; laser, not for medical purposes, laser pointers; remote control apparatus, remote controls; aerials; navigation apparatus for vehicles [on-board computers]; mobile telephones; telephone apparatus; television apparatus; video telephones; radios; directional compasses, navigating apparatus [compasses], navigational instruments; telematic apparatus; telematic terminal apparatus; magnetical, electrical and optical recording medias, phonograph records, compact discs, DVDs and other digital recording medias, sound recording carriers, juke boxes, musical, compact discs [read-only memory], downloadable music files, headphones, loudspeakers, cabinets for loudspeakers, signs, luminous, compact disc players, DVD players, video telephones, phototelegraphy apparatus; projection apparatus, cameras [photography]; films, exposed; film cameras, photocopiers, electronic translation apparatus (computers), electronic pocket translator; encoded magnetic cards, integrated circuit cards [smart cards], encoded telephone cards; coin-operated mechanisms; automated teller machines [ATM]; cash registers, calculating devices; data processing equipment; computers; electronic agendas; facsimile machines; monitors [computer hardware] and monitors [computer programs]; computer peripheral devices; computer programs for use in the autonomous driving of vehicles; computer programs for use in the autonomous navigation of vehicles; computer programs for use in autonomous control of vehicles; computer programs, recorded and downloadable, especially electronic data compilation; computer software platforms, recorded or downloadable; software; application software; pocket calculators; electronic publications, downloadable; downloadable image files; crash test dummies, microscopes; cables, electric; socket outlets; igniting apparatus, electric, for igniting at a distance; radiological apparatus for industrial purposes; head protection; electronic locks; electronic controllers and electronic control systems; security tokens [encryption devices]; electronic access control systems for interlocking doors; thermal imaging cameras; scales with body mass analysers; covers for tablet computers; black boxes [data recorders]; digital weather stations; charging stations for electric vehicles; interactive touch screen terminals; smart rings; electric and electronic effects units for musical instruments; audio interfaces; equalizers [audio apparatus]; parking sensors for vehicles; teaching robots; humanoid robots with artificial intelligence; personal digital assistants [PDAs]; rearview cameras for vehicles; electric wiring harnesses for vehicles; telecommunication apparatus in the form of jewellery; data gloves; electronic controls for motors; parts and fittings of all aforesaid goods, included in this class.

Klasse 10 Surgical, medical, dental and veterinary instruments and apparatus; artificial limbs, eyes and teeth; therapeutic devices adapted for the disabled; massage apparatus; apparatus, devices and articles for nursing infants; sexual activity apparatus, devices and articles; physical therapy equipment; hearing protection devices; feeding aids and pacifiers; feeding bottles; sex aids; medical furniture and bedding, equipment for moving patients; medical clothing; contraceptives, non-chemical; prosthetics and artificial implants; orthopedic and mobility aids; orthopaedic braces; corsetry for surgical purposes, medical hosiery, orthopaedic footwear; suture materials; X-ray apparatus for medical purposes; hearing aids; surgical implants comprised of artificial materials; orthopedic articles; parts, fittings and accessories for all the aforesaid goods, included in this class.

Klasse 11 Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; flues and installations for conveying exhaust gases; sun tanning appliances; sanitary installations and devices; water supply installations; burners, boilers; light reflectors;

cooking, heating, cooling and preservation equipment, for food and beverages; fireplaces; industrial processing installations, namely gas filters and purifiers; industrial ovens and furnaces (not for food or beverages); industrial installations for the filtration of liquids; installations for the collection of gases; installations for the collection of liquids; launders for trapping impurities in molten metal; biological reactors for clarifying industrial effluents; apparatus for draining food waste; drying installations; refrigerating and freezing equipment; regulating and safety accessories for water and gas installations; nuclear installations; heating, ventilating, and air conditioning and purification equipment (ambient); lighting apparatus; lighting apparatus and installations; lamps; light-emitting diodes [LED] lighting apparatus; lighting installations for air vehicles; lighting installations for vehicles; light bulbs for directional signals for vehicles; light-emitting diodes [LED] lighting apparatus for vehicles; anti-dazzle devices for vehicles [lamp fittings]; anti-dazzle devices for automobiles [lamp fittings]; searchlights; arc lamps; coffee machines, electric; electric fans for personal use; discharge tubes, electric, for lighting; bicycle lights; vehicle headlights and their parts; vehicle reflectors and their parts; vehicle headlights and their parts; sockets for electric lights; friction lighters for igniting gas; igniters; light bulbs; light bulbs, electric; incandescent burners; filaments for electric lamps; miners' lamps; heating apparatus for solid, liquid or gaseous fuels; heating apparatus, electric; heating installations; heaters for vehicles; air-conditioning installations; air-conditioning apparatus; cooling installations and machines; refrigerators; air conditioners for vehicles; electric lamps; acetylene generators; gas lamps; lamp glasses; lamp mantles; lamp globes; lamp chimneys; lamp shades; lampshade holders; luminous tubes for lighting; electric discharge tubes for lighting; light diffusers; air reheaters; filters for air conditioning; air filtering installations; deodorizing apparatus, not for personal use; defrosters for vehicles; ventilation [air-conditioning] installations for vehicles; heating apparatus for defrosting vehicle windows; air cooling apparatus; air purifying apparatus and machines; germicidal lamps for purifying air; spa baths [vessels]; air sterilizers; air dryers; ventilation [air-conditioning] installations and apparatus; lamp reflectors; safety lamps; solar thermal collectors [heating]; electric torches; ultraviolet ray lamps, not for medical purposes; water conduits installations; level controlling valves in tanks; electric heaters; polymerisation installations; chocolate fountains, electric; fairy lights for festive decoration; electrically heated clothing; ice-cream making machines; directional lights for bicycles; heating and cooling apparatus for dispensing hot and cold beverages; USB-powered hand warmers; USB-powered cup heaters; parts and accessories for all the aforesaid goods, included in this class.

Klasse 12 Vehicles and conveyances; vehicles for locomotion by land, air, water or rail and their parts; motor land vehicles; driverless cars [autonomous cars]; powertrains, including engines and motors, for land vehicles; propulsion mechanisms for land vehicles; chassis for vehicles; vehicle bodies; vehicle couplings; shock absorbers for vehicles; shock absorbing springs for vehicles; pneumatic tyres; tyres for vehicle wheels; rims for vehicle wheels; solid rubber tyres for vehicle wheels; vehicle wheels; hubs for vehicle wheels; lug nuts for vehicle wheels; inner tubes for pneumatic tyres; casings for pneumatic tyres; tyre mousse inserts; repair outfits for inner tubes, adhesive rubber patches for repairing inner tubes; spikes for tyres; tire snow chains [land vehicle parts]; non-skid devices for vehicle tyres; vehicle seats; rearview mirrors; head-rests for vehicle seats; security systems for vehicles [other than locks], anti-theft devices for vehicles; cigar lighters for automobiles; automotive vehicles; cars; robotic cars; motor racing cars; vans [vehicles]; trailers and semi-trailers for vehicles; trailer hitches for vehicles; omnibuses; motorcycles; mopeds; bicycles; electric

- bicycles; camera drones; helicams; cable transport apparatus and installations; carts, shopping trolleys, luggage carts; aircrafts; boats, ships; locomotives; motor buses; caravans; tractors; two-wheeled vehicles, scooters [vehicles]; self-balancing boards; self-balancing electric unicycles; self-balancing one-wheeled electric scooters; chairlifts, cableways; wheelchairs; clips adapted for fastening automobile parts to automobile bodies; tumbler holders adapted for use in motor vehicles; parts and accessories for all the above-mentioned goods, included in this class.
- Klasse 14 Precious stones, pearls, precious metals and their alloys; jewellery; chronometers and clocks; wristwatches, stopwatches, pocket watches, cases for clock- and watchmaking; jewelry cases [caskets or boxes]; bracelets made of embroidered textile [jewellery]; tie pins; cuff links; pins [jewellery], other goods made of precious metals and precious stones and imitations thereof, namely statues, figures, ornaments, coins, tokens of value; works of art made of precious metal, key rings; charms for key rings; jewel cases; jewellery charms; hat jewellery; shoe jewellery; rosaries; misbaha [prayer beads]; metal key rings; lanyards [keycords]; parts and accessories for all the above-mentioned goods, included in this class.
- Klasse 16 Paper and cardboard; printed matter; works of art and figurines of paper and cardboard, and architects' models; artists' and drawing materials; filtering materials of paper; bags and articles for packaging, wrapping and storage of paper, cardboard or plastics; bookbinding material; photographs [printed]; stationery; adhesives for stationery or household purposes; artists' materials; brushes for the application of paints; typewriters, electric or non-electric; writing instruments and office requisites, except furniture; teaching materials [except apparatus]; plastic materials for packaging; printing fonts; printing blocks; atlases; calendars; geographical maps; printed publications; printed promotional material; document holders [stationery]; pens; ball pens and pencils; flags of paper; table napkins of paper; copying paper [stationery]; toilet paper; wrapping paper; ink; stamps [seals]; drawing instruments; drawing material; modelling materials; banners of paper; parts and fittings of all the aforementioned goods included in this class.

Klasse 6 Connectors of metal (non-electric), including spring connectors; plugs, mainly made of metal; non-electric cables and wires of metal; non-electric wire connectors of metal; non-electric cable joints of metal; metal support for cables; couplings of metal; connection elements of metal for couplings, contacts, connectors, interfaces, plugs, sockets, connector jacks, plug-in connectors and other devices for connecting and networking, within this class; contact elements of metal for couplings, contacts, connectors, interfaces, plugs, sockets, connector jacks, plug-in connectors and other devices for connecting and networking, within this class; hoses of metal; metal housings for connections, connectors, interfaces and/ or controls, including cabinets, cubicles, closets, boxes and tables; storage racks from metal (stands being metallic structures), in particular racks, housings and desks of metal and/ or plastic, for use in industry, testing, installation, electronics, computers, interactive terminal systems, connecting, networking and data transmission,

including the aforesaid goods in connection with locking systems, including the aforesaid goods being air-conditioned and/ or and/ or earthquake and/ or vandal and/ or explosion proof; components of metal for switch or control cabinets, namely rack frames, profiles, mounting trays, guide rails, mounting rails, storage trays, drawer units, containers, suspended indexes, cable bushings of metal; connectors (non-electric) especially adapted for use in safes; safes; mounting devices and auxiliary mounting devices, fixed or moveable, of metal, namely mounting plates, mounting tables, swivel arms, shelves; fastening devices of metal, namely bearing angles; connector panels of metal; platforms, pre-fabricated of metal; modular frames of metal, in particular frames for connections, pin-frames, socket frames, rack frames, docking frames, receiver frames, adapter frames; joints; parts and fittings of all the aforesaid goods, included in this class.

Klasse 8 Hand tools and implements, hand-operated and related accessories, in particular hand-operated tools for connecting and processing cables, sockets and connectors; hand tools and implements (hand-operated) for connecting cables with pin and socket connectors or connector elements; hand-operated extraction tools for contacts, connectors or connector modules; hand-operated extraction tools for insulating elements; hand tools and accessories and apparatus, included in this class, in particular crimping jaws, cable ties and positioning inserts, included in this class and other than of metal; accessories, parts and components for all the aforementioned goods, included in this class.

Klasse 9 Electric, electronic, electromagnetic, optical, fiber-optic and optoelectronic connectors, in particular plug-in connectors, including connectors in modular form; electric contacts, plugs, sockets, contact pins and sleeves; pin- and socket blocks; electric conductors; controllers; connectors, including plug-in connectors; electric couplings, connections, not being part of machines; jack cables, cord connectors, panels controls; connection units comprising electrical, electronical, electromagnetic, optical, fiber-optic, optoelectronic, coaxial, triaxial, electropneumatical, electrohydraulic and/ or electrofluidic connectors, also combined with fluid conduits, including in modular form; hybrid connectors and connector systems, including in modular form; acoustic conduits; testing and quality control devices, including mass interconnect systems; test and testing equipment, namely apparatus and instruments for electrical, mechanical and chemical testing; test and testing equipment, namely devices for material testing, apparatus and instruments for testing of gas, liquids and solids, calibrated measuring devices; test and testing equipment for the development and manufacture of contacts, connectors and connector systems; electronic connectors and interface equipment for connecting test and testing equipment; modular and scalable connections [parts of testing and quality control devices]; adapters for electric, electronic, electromagnetic, optical, fiber-optic and/ or opto-electronic connection and networking, including adapters for fluid conduits, including in modular form; hybrid adapters; interchangeable test-adapters (ITA); parts, components and accessories of interchangeable test-adapters (ITA), in particular adapter modules for interchangeable test-adapters (ITA), contacts for interchangeable test-adapters (ITA), platforms for interchangeable test-adapters (ITA) modules, sub-racks for interchangeable test-adapters (ITA) modules; mass interconnects (interfaces); mass interconnect panels, including in modular form; interfaces for detectors; mating (fixture) components for mass testing; electric, electronic, electromagnetic, optical, fiber-optic and/ or opto-electronic, coaxial, triaxial, signal, high-voltage or low-voltage transmissions, also in combination with fluid conduits, including in modular form; modular interconnections for testing, detecting and monitoring; receivers for electric, electronic, electromagnetic, optical, fiber-optic and/ or

optoelectronic coaxial, triaxial, signal, high-voltage or low-voltage transmission connecting elements and groups of connecting elements, including receivers in modular form; receivers for mass interconnect systems, including in modular form; receiver modules; electrified rails for use with testing equipment; locking systems for components of modular connectors; housings for test and testing equipment; frames for connectors and/ or receivers and/ or adapters and/ or racks and/ or interfaces; frames for interface equipment for connecting test and testing equipment; pin-frames; socket frames; docking frames; tables, cabinets, racks, platforms, boxes, panels, rails and mounts specially adapted for test, testing and control equipment; testing racks; mounts specially adapted for connections and interfaces, including tables, cabinets, racks, platforms, boxes, panels and rails; racks, cabinets, mounts, tables and panels specially adapted for mass interconnect systems; switch panels (patching); splices for electrical transmission lines; switch cabinets and switch desks consisting of metal and/ or plastic, for use in industry, installation, testing, electronics, networking, data processing, interactive terminal systems and data transmission; control cabinets; control panels; control units; subracks for plug-in units with electronic circuits, included in this class; connectors for measuring counting, alignment and calibrating instruments; ports, connection units and cable connectors for measuring, counting, alignment and calibrating apparatuses; electric cable assemblies; components of wiring systems, in particular bars for multiple connections; fiber-optic cables; fiber optic and wiring harnesses, electrically conductive cable terminations; collars for wiring not of metal; housings for ground connections and guard shields for high voltage cables; accessories for high voltage cables for industrial applications; components of cabling for improving transmission of signals, particularly plates, divider coils, blocks, brackets, wiring ducts, rings and clips, housing for outlets and panels, and overvoltage protector devices; repeating reels; terminal signal converters, signal relays; circuit boards; multi-circuit electrical bands; current distribution components, included in this class, in particular adaptors for connectors and devices, and load-breakers; modules and system components for energy subdistribution; electrochemical systems, included in this class, namely high power electrical connectors and cables, high power contactors for battery switching and control, circuit protection devices, power distribution units and parts and components related thereto; multiple plug-in connectors, including in modular form; interfaces, including for data processing and/ or data processing apparatus and machines and/ or units under test (UUT) or devices under test (DUT); apparatus for linking computers in network; contact inserts, anti-kink sleeves, protective caps, cable hoods, insulating elements, solder tabs, contact bushings, sleeve contact plugs, and parts therefore, cable fittings, resistances, clips, patch panels, accessories for wiring for electrical distribution networks, electrical terminals and junctions, electrical locking devices; systems for electrical cable harnesses and connectors; accessories for the distribution of electricity conduits; devices for managing cables and electrical lines; plug-in units for sub-racks, namely plug-in cards, bus boards, pin and socket connectors; electrical processing equipment, namely connectors between wires and boards, boards and boards, cables and boards and cables and cables; contact pins and sockets of metal; contact sleeves of metal; parts, components and accessories for all the afore-mentioned goods, included in this class.

Klasse 11 Connectors, in particular plug-in connectors, connector parts, couplings and adapters for fluid conduits, adapted for apparatus and installations for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, gas and water supply and sanitary purposes; sockets adapted for apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and gas and water

supplying; multiple plug-in connectors comprising fluid conduits, namely, compressed air conduits, adapted for apparatus and installations for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, gas and water supplying, plumbing fittings and connectors for use in apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and gas and water supplying; male and female headers for fluid conduits, adapted for apparatus and installations for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, gas and water supplying, plumbing fittings and connectors for use in apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and gas and water supplying multiple plug-in connectors for fluid conduits, in particular (compressed) air conduits; plugs (not electronic), sockets and connectors for use in apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating and gas and water supplying, included in this class; parts and fittings of all the aforesaid goods, included in this class.

Klasse 12 Plugs and connectors specially adapted for use in vehicles and conveyances; connectors for vehicles; charging connections for vehicles; connector systems for vehicles, including connector systems for hybrid and electric vehicles; couplings and transmission components for land vehicles; couplings for water vehicles; connections specially adapted for use in robot cars; connections for autonomous driving; parts and fittings of all the aforesaid goods, included in this class.

Klasse 17 Electrical insulation articles and materials, in particular cable hoods, insulation for electric conductors, insulators for cables, insulation articles for use on terminations of electric cables, insulation articles for use on splices of electric cables, insulation articles for use on joints of electric cables, insulation of synthetic material for the thermic protection of connections, insulation for magnet wire; couplings, not of metal; rubber products, namely single wire seal, seal and cavity plugs, rubber plugs, rubber lines clip, polyethylene labels; mountings, jointings, connectors and spacers of plastic for connections; finished and semi-finished goods of materials included in this class, specified for use, namely molds for connections and connection components, shock-absorbing articles, soldering threads of plastic, stoppers of plastic, vibration dampers, insulating sealants and insulating sealing products; gaskets of metal; parts, components and accessories of all the aforesaid goods, included in this class.

Klasse 40 Custom manufacture of all of the aforementioned goods, in particular connections, connector solutions, connectors systems, modular connectors, cabling and wiring systems, housings, racks and closets for the aforementioned goods; custom manufacture of contacts and sockets; custom manufacture of mass-testing-systems; assembly services in respect of the aforementioned goods; surface treatment of contacts, connectors, wires, cables; surface finishing of metal articles.

Klasse 42 Analysis, testing, monitoring and inspection of connector systems, control units and wiring systems; calibrating [measuring] services; material testing of connector systems, control units and wiring systems; product design and development, namely design and development of interfaces for detectors and electrical connectors for electrical test equipment; advisory and consultancy services in the design and development of connectors and connector solutions; industrial analysis and research services in the design and development of connectors and connector solutions; technological consultancy concerning design and development of connector solutions.
