Internasjonale varemerkeregistreringer

Internasjonale varemerkeregistreringer som gjelder for Norge ved utpekning etter Madridprotokollen. Innsigelsesperioden utløper 3 mnd. fra kunngjøringsdato, jf. varemerkeloven § 71.

Generell informasjon om kunngjøringer etter Madridprotokollen

Int.reg.nr.: Det vil si det internasjonale registreringsnummer som WIPO har gitt søknaden om internasjonal registrering.

Int.reg.dato: Det vil si den dato en internasjonal registrering anses for å ha skjedd, jf. varemerkeloven § 72 og Madrid-protokollen artikkel 3 (4).
Dersom den internasjonale registreringen besluttet gjeldende i Norge, vil registreringsperioden på 10 år regnes fra den internasjonale registreringsdatoen.

Etterfølgende

utpekingsdato: Det vil si datoen for rettsvern i Norge hvor utpekingen ikke har skjedd i forbindelse med den internasjonale registreringen.

Prioritet: Internasjonale søknader kan påberope seg prioritet etter Pariskonvensjonen artikkel 4 fra det land merket først ble søkt registrert. Dette vil ofte være søkers hjemland idet en internasjonal registrering må bygge på en hjemlands-registrering eller -søknad.

Besluttet gjeldende

dato i Norge: Det vil si den datoen det innføres i varemerkeregisteret at den internasjonale registreringen gjelder i Norge, jf. varemerkeloven § 70.

Klasse 1 Chemicals for cleaning exhaust gases; chemicals as additives to liquid fuels; chemicals for internal combustion engines; chemicals for decarbonizing automobile engines and chemical preparations for decarbonizing automobile engines; additives for exhaust gas after-treatment of internal combustion engines; oils for brakes; chemical substances for stabilising oils; oils for hydraulic suspensions, circuits and cushions; chemical additives for oils; additives (chemical -) for industrial oils; chemicals in the form of water soluble oils; chemical catalysts for use in synthesis gas and olefin purification; antifreeze goods and compounds (also for glass), preparations for preventing the tarnishing of glass; adhesive substances for industrial use; chemicals for use in cylinder liners.

Klasse 4 Industrial oils and greases; lubricants and non-chemical additives for lubricants; engine oils, liquid fuels and gaseous fuels (including petrol and motor spirits), additives (non-chemical -) for fuels; automotive greases.

Klasse 7 Motors and engines (except for land vehicles) and parts, components and spare parts therefor; internal combustion and electrical engines (other than for land vehicles), machine coupling and transmission components (except for land vehicles), and parts and spare parts therefor; parts of electric and combustion engines and motors; aircraft motors and engines, industrial motors and engines, hydraulic motors and engines, gas turbine engines, gas turbo engines, ship motors and engines, motors and engines for water-vehicles, internal combustion motors and engines, electrical motors and engines, piston motors and engines; mechanical engine parts for land vehicles; compressors; exhaust systems for vehicles; clutches for machines and parts therefor; transmissions and their parts for machines, air and water vehicles; pumps, compressors and blowers; discs made of abrasive materials [parts of machines]; springs [parts of machines]; sieves [machines or parts of machines]; hoods [machine parts]; hydraulic and pneumatic controls for machines, motors and engines; electric generators, gas generators; turbo-compressor superchargers for exhaust gases (other than for land vehicles), alternators; frames and parts of internal combustion and electrical engine mounts; injection nozzles, injection combination pumps and nozzles, injection regulators, all being parts of internal combustion engines; ignition distributors; fuel filters and pumps for engines, liquid tanks [parts of machines]; exhaust gas treatment systems for engines; decontamination installation for internal combustion engines; mobile combustion engines, not for land vehicles; brake installations for internal combustion and electrical engines; mechanical and hydrodynamic brakes; grease rings; valves; hand tools (other than hand-operated) for the maintenance of motors and engines; land-based and floating power plants with diesel and diesel-gas engines; parts of electric and combustion engines and motors for land vehicles; starters for engines; pumps, compressors and blowers; supercharger compressor as a motor element; exhaust

gases turbo-compressors (for land vehicles); holders for mobile combustion and electrical engines and machines; mobile combustion engines for machines; brake installation for internal combustion and electrical engines; cardan shaft and cardan shafts bearings; mechanical control mechanisms for vehicle windows; mechanical control mechanisms for vehicle doors; drive units for transportable concrete mixers; discs for starters of engines and motors; handling apparatus for loading and unloading, namely side loaders and devices for filling and emptying vehicles with tanks, silos, and containers.

Klasse 9 Navigation, surveying, photographic, audiovisual, optical, measuring, signalling, detecting, testing, inspecting apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; calculating devices; computers and computer peripheral devices; vehicle simulation software; image processing software for in-vehicle cameras; artificial intelligence software for vehicles; computer programs for providing an all-around view for a vehicle; vehicle control software; computer software to operate vehicles; computer applications for vehicle navigation apparatus; recorded computer software for safe vehicle driving; computer applications and programs for automatic vehicle driving and parking control; on-board electronic systems in land vehicles for providing driving assistance; on-board computers; computer software for mobile applications that enable interaction and interface between vehicles and mobile devices; software for GPS navigation; global positioning systems (GPS); GPS receivers; amplifiers for vehicles; multimedia connectors for vehicles; communications apparatus for vehicles; mobile phone connectors for vehicles; telecommunications equipment, telephones, mobile telephones, telephone headphones; computerized vehicle engine analyzers; on board computers for vehicles; computers for autonomous-driving vehicles; audio devices and receivers for vehicles; displays for vehicles; electronic driver displays systems for vehicles; cameras for vehicles; antennas; modems; printers; electronic publications, downloadable; charging stations for electric vehicles; vehicle batteries; accumulators, electric, for vehicles; battery charging devices for motor vehicles; cell phone battery charges for use in vehicles; voltage regulators for vehicles; vehicle fuses; climate control digital thermostats; integrated electronic safety systems for land vehicles; integrated electronic driver assistance systems for land vehicles; fuel cells; fuel cell electrodes; fire fighting vehicles; driver assistance systems for motor vehicles; remote controls for operating vehicle alarms; electric locks for vehicles; electronic keys for vehicles; remote control apparatus for opening and closing vehicles doors; warning triangles; warning lamps for vehicles; vehicle tracking apparatus and systems; vehicle automatic driving control devices; multimedia navigation systems for vehicles; vehicle speed control systems and apparatus; autonomous driving control systems for vehicles; vehicle wheel alignment machines; water, oil and fuel level indicators for vehicles; tire balancing units for motor vehicles; cruise controls for vehicles; mileage and kilometer recorders for vehicles; parking sensors for vehicles; radar apparatus for vehicles; automatic indicators of low pressure in vehicle tires; vehicle drive training simulators; remote controls for motors; electronic control sensors for motors; electronic motor checking apparatus; detection and ranging [LIDAR] apparatus; engine analyzers, engine control sensors, internal combustion and electrical engine testing apparatus, temperature regulators for vehicles engines, starter cables for motors; electric control devices, information

technology apparatus and instruments and software for road safety, platooning and autonomous driving; electric control devices, information technology apparatus and instruments and software for managing electric propulsion systems and energy management systems; software applications for use in transportation or commercial vehicle industry; electric control devices, information technology apparatus and instruments, software and electronic manuals and guides for diagnostics, maintenance, service, repair of vehicles, engines and motors; electronic controls for machines, motors and engines; automatic window controls; automatic controls for vehicle doors.

Klasse 11 Apparatus and installations for lighting, heating, cooling, steam generating, drying and ventilating; vehicle lighting and lighting reflectors; vehicle HVAC systems (heating, ventilation and air conditioning); air purifiers for automobiles; oil burners; gas burners; diesel burners; gas burners; ventilators for vehicles; defrosting apparatus for vehicles; aeration apparatus; valves for air conditioners; gas scrubbing and purification apparatus.

Klasse 12 Vehicles; parts and fittings for vehicles; land vehicles; commercial vehicles; buses; trucks; lorries, pickup trucks; cargo trailers; coaches; concrete mixing vehicles; construction vehicles for transportation purposes; driverless [autonomous] motor vehicles; dump trucks; electric land vehicles; electric lift trucks; electric reach trucks; electric buses; electric trucks [vehicles]; engines and motors for land vehicles; gas, diesel, combustion and electrical engines and motors for land vehicles; transmissions for land vehicles; reduction and reversing gears for land vehicles; steering wheels, steering wheel covers; shock absorbers; oil, fuel and gas tanks for land vehicles; mechanical and hydrodynamic brakes; mechanical, automatic, hydrodynamic and hydrostatic transmissions for land vehicles; vehicle bodies; body panels for vehicles; frames for motor vehicles; suspension struts; frame and body brackets adapted for vehicle chassis; floor panels being structural parts of vehicles; metal floor panels being structural parts of vehicles; vehicle roofs, vehicle bodies, vehicle hoods and floor panels being structural parts of vehicles; support plating and plates for vehicles; cabins (trucks) with or without beds specially adapted for vehicles; chassis for vehicles; gear lever knobs and steering wheel knobs for vehicles; gear, brake, transmission and shift levers for land vehicles; cam controllers being stability control systems for vehicles; accelerator pedals for land vehicles; brake and clutch pedals; vehicle suspensions; torsion bars; anti-freeze devices for land vehicles; vehicle bumpers; axles and their parts for vehicles; housings adapted for vehicle axles; vehicle wheels; wheel rims, caps for wheel rims; brakes and brake parts for vehicles; auxiliary brake pumps for land vehicles; anti-theft locks for use on automobile steering wheels; steering gears for vehicles; steering gear casings and covers; steering units for land vehicles, namely steering worms, steering columns, steering arms, steering pins, steering rods, steering couplings; radiator grills for vehicles and parts thereof; vehicle seats; seat post racks and holders for land vehicles; seat cushions for vehicles; seat cushions; back rests, arm rests, head rests and foot rests for vehicles; safety belts; vehicle windows and screens; vehicle windows and windshields having heat regulating functions; window control levers and cranks for vehicles; doors for vehicles; dashboards for vehicles; security and safety alarms for vehicles; horns for vehicles; glove boxes for vehicles; hoods for vehicle engines; trunk tailgates and covers; mudguards; fitted protective covers for vehicles; bug shields as parts of vehicles; headlights protectors for vehicles; mirrors for vehicles; direction signals for automobiles and number plates holders; ashtrays; sun visors for automobiles; luggage nets, carriers, carts and racks for vehicles; ski racks for vehicles; snow chains for land vehicles; windscreen wipers for automobiles; mechanical and electric sunroofs for land vehicles; tires for land

vehicles; towing devices and their parts for vehicles; lifting and support devices for vehicles; friction clutches for land vehicles; covers for vehicles seats; fuel cell electric land vehicles; clutches for land vehicles; couplings for use with clutches for land vehicles; reservoirs being parts of land vehicle clutches; steering wheels; covers for steering wheels.

Klasse 9 Downloadable registered computer programs; downloadable registered operating programs; downloadable registered computer software; computers; measuring, detecting and monitoring instruments and apparatus, indicators and controllers; electronic control units and systems; electronic apparatus for the remote control of industrial operations; simulation apparatus and instruments; simulators; mobile applications; calculating machines, data processing apparatus, computer peripheral equipment; measuring instruments and apparatus, namely, pressure measuring apparatus, temperature measuring apparatus, resistance measuring instruments; software for storage and calculation of temperature, strain and vibration information; temperature sensors; strain sensors; pressure sensors; vibration sensors and acceleration sensors; apparatus, instruments, software, sensors and computer programs for measurement of temperature, controlling temperature performance and working capacity of tube systems; measuring instruments, sensors, software or computer systems incorporated in tubes and pipes of metal; software applications; downloadable electronic publications in the nature of handbooks, manuals, instructional and teaching material in the field of alloys, metallurgy and tubing systems and 3D printing, stainless steels, special alloys and titanium, furnace products and heating systems, hard and super-hard materials; electrical resistance materials made of metal alloys; ceramic resistors; capacitors; electrical resistance material, and products and articles thereof, including wire, strips, ribbons, tubes and powder; computer hardware, computer software and mobile phone apps for collecting, processing, transmitting, receiving, storing, retrieving, accessing and managing information and digital data; computer hardware, computer software and mobile phone apps enabling

users to create, save, and launch sequences of commands and logic within and between other computer software applications and computer software functionality; computer software and mobile phone apps for accessing, browsing and searching online databases; computer software and mobile phone apps for voice command for accessing, browsing and searching online databases, audio, video, and multimedia content, software applications, and for sending, receiving, retrieving, and managing information and digital data; computer hardware, computer software and mobile phone apps for controlling the operation of industrial heating equipment; computer hardware, computer software and mobile phone apps for monitoring the performance of industrial heating equipment; computer hardware, computer software and mobile phone apps for the collection, recordation and reporting of data relating to the selection, performance and maintenance of industrial heating equipment; computer hardware, computer software and mobile phone apps for testing, analysis and simulation of industrial heating equipment performance; electronic publications, downloadable; measuring apparatus; semi-conductors; printed circuit; resistances, electric; electronic switches; video screens; remote control device; light conducting fibers [optical fibers]; heat regulating apparatus; lightening conductors; electrolytic tank.

Klasse 11 Air conditioning apparatus; heating elements; air heaters; heating apparatus; electric heating apparatus; water heater; diffusion apparatus [heating]; tubes for heating furnace; furnace (other than parts of machine); furnace bars; furnace for industrial use; water heating installations; lighters; installations for processing nuclear fuel and nuclear moderating material.

Klasse 17 Electric ceramic insulation material; ceramic fiber insulation; insulating materials; padding materials of rubber or plastics; sealing thread.

Klasse 35 Wholesale and retail store services connected with the sale of industrial heating products and resistance materials, namely, boiler tubes, ethylene furnace tubes, lance tubes, muffle tubes, recuperator tubes, thermocouple tubes, high-temperature tubes, heating elements, resistance heating alloys, resistance heating wire and strip, industrial heating systems, stainless steels, nickel alloys, wire and ribbon for thermocouples, extension leads and compensating cables, strip steel for use in electrical resistance and high-temperature applications, wire and ribbon steel for resistance heating, wire and ribbon steel for electrical resistance and conductive applications, steel (in wire, strip, tube and bar form) for manufacturing furnace furniture and other furnace accessories, heating modules for furnaces, heating elements for furnaces, furnace tubes, ceramic supporting materials for electrothermal components, spike thermocouples, flow heaters, air heating cassettes, and diffusion cassettes; business consulting, management, and planning services for the industrial heating technology and resistance materials industries; wholesale and retail store services connected with the sale of materials technology products, namely, advanced stainless steels and special alloys (in the form of tubular products, bars, billets, strip, rock drill steel, resistance material, ultra-fine medical wire and wire-based components, and metal powder), including for use in the energy, oil and gas, engineering, consumer and electronics, chemicals, renewables, industrial heating, medical, automotive, mining, aerospace, and construction industries; business management consultancy and advisory services in the field of materials technology; inventory control; updating and maintenance of data in computer databases; commercial and industrial management assistance; advisory services for business management; business management and organization consultancy; database management services in relation to industrial heating technology and materials technology; collating of data in computer databases; collection and systematization of information about

- temperature, performance and working capacity into computer databases; presentation of goods on communication media for retail purposes; provision of business information, advice, and consultancy in relation to industrial heating technology and energy efficiency; rental of vending machines.
- Klasse 36 Insurance and financial information and consultancy services; insurance services, namely, underwriting of extended warranty contracts; financing, credit, lease and loan services.
- Klasse 37 Heating equipment installation and repair; interference suppression in electrical apparatus; repair, maintenance, assembly, and installation services in the field of industrial heating technology and resistance materials; rebuild engineering services in the field of industrial heating technology and resistance materials; repair, maintenance, assembly and installation of products within materials technology; rebuild services of products within materials technology.
- Klasse 40 Treatment of materials in the nature of common metals and their alloys; treatments of alloys for additive manufacturing; coating, treatment and regrinding of metal surfaces, tools and machines; gold and silver plating; metal casting and tempering; assembly of products for others; fuel processing; treatment of materials in the nature of common metals and their alloys by mechanical or chemical processing; grinding; providing material treatment information; recycling and waste management services; recycling of steel and other materials and products; material treatment information; custom manufacturing for others of parts and components for the industrial heating technology and resistance materials industries; consultation services in the field of custom manufacturing of parts and components for the industrial heating technology and resistance materials industries; manufacturing of common metal and their alloys and products and articles thereof, including wire, strips, rods, tubes, pipes, plates, sheets, bars, billets, blooms, powders, and various pressed and cast products and articles.
- Klasse 42 Scientific, technological and engineering services in the field of industrial heating technology, resistance materials and advanced stainless steels and special alloys; field service engineering services; research, design and development services relating to products and services in the field of industrial heating technology, resistance materials and advanced stainless steels and special alloys; technical consultancy services in the field of design and development of engineering processes; technical consultancy services as to energy and productivity solutions; technical testing and laboratory services; engineering project management services; project feasibility analysis and planning services; provision of scientific information, advice, and consultancy in relation to industrial heating technology, resistance materials, and energy efficiency; provision of information, advice, and consultancy in relation to industrial heating technology and energy efficiency; product research and development services; chemical research and analysis; measurement services; cloud computing services; technology services; technical consultancy services; design services in the field of engineering; energy research; technology consultancy in the field of alternative energy; quality testing and technical project studies in the field of industrial heating technology and resistance materials and materials technology; upgrade and custom engineering services in the field of industrial heating technology and resistance materials; consulting services in the field of industrial heating technology and resistance materials; upgrade and custom engineering services of products within materials technology.
