## Internasjonale varemerkeregistreringer

Internasjonale varemerkeregistreringer som gjelder for Norge ved utpekning etter Madridprotokollen. Innsigelsesperioden utløper 3 mnd. fra kunngjøringsdato, jf. varemerkeloven § 71.

## Generell informasjon om kunngjøringer etter Madridprotokollen

**Int.reg.nr.:** Det vil si det internasjonale registreringsnummer som WIPO har gitt søknaden om internasjonal registrering.

**Int.reg.dato:** Det vil si den dato en internasjonal registrering anses for å ha skjedd, jf. varemerkeloven § 72 og Madrid-protokollen artikkel 3 (4).  
Dersom den internasjonale registreringen beslattes gjeldende i Norge, vil registreringsperioden på 10 år regnes fra den internasjonale registreringsdatoen.

## Etterfølgende

**utpekingsdato:** Det vil si datoen for rettsvern i Norge hvor utpekingen ikke har skjedd i forbindelse med den internasjonale registreringen.

**Prioritet:** Internasjonale søknader kan påberope seg prioritet etter Pariskonvensjonen artikkel 4 fra det land merket først ble søkt registrert. Dette vil ofte være søkerens hjemland idet en internasjonal registrering må bygge på en hjemlands-registrering eller -søknad.

## Besluttet gjeldende

**dato i Norge:** Det vil si den datoen det innføres i varemerkeregisteret at den internasjonale registreringen gjelder i Norge, jf. varemerkeloven § 70.

Klasse 8 Hand tools and implements (hand-operated); parts and accessories for all the aforementioned products, all used in relation to servicing and repairing motor vehicles.

Klasse 9 Electric accumulators; vehicle batteries; electric batteries; electrical condensers (capacitors); electric circuit breakers; electric connections; electric cables; electrical fuses and electrical fuse boxes; electrical control apparatus and instruments for motor vehicles and for motors and engines; electric sensors; gauges; printed electrical circuits; electric relays; electric switches; speed indicators; tachometers; thermostats; voltage regulators; voltmeters; electric converters; testing and measuring apparatus and instruments; temperature switches, ignition cable sets; ignition amplifiers; road warning equipment; exhaust gas analyzers; brake fluid tester; jump start cables; electric thermostats; electric battery chargers; battery chargers for motor vehicles; hydrometers; micrometers; antennas for land vehicles; alarms for electric vehicles; electronic door locks, ignition switch keys, remote controls for opening and closing doors, sensors for anti-lock braking systems; electronic testing apparatus; suppressors, plugs, adaptors, sockets, connectors, junction boxes, all being electric; computers and software for route searching; electric fuses; fire extinguishers and fire-extinguishing systems for land vehicles; parts and accessories for all the aforementioned products, all intended for use in relation to land vehicles; mobile applications in relation to automotive goods and services; blinkers (flashing lights).

Klasse 11 Air conditioning, ventilating and heating installations and apparatus for land vehicles; lights and lamps, light bulbs, reflectors for vehicles, electric apparatus for lighting and heating; headlights, tail lights and position lights, lighting reflectors, light bulbs, all intended for vehicles; engine reheaters for land vehicles; parts and accessories for all the above-mentioned goods.

Klasse 12 Parts and accessories for motor land vehicles; motors and engines for land vehicles; transmissions and transmission shafts for land vehicles; couplings for land vehicles; wheel bearings for land vehicles; steering columns for vehicles; vehicle wheels, hubs for vehicle wheels; hub caps for wheels; accessories for vehicle wheels; wind deflectors for vehicles; bodies for vehicles; doors for vehicles; vehicle wings; vehicle panels; vehicle bumpers; vehicle hoods; shock absorbers for vehicles; vehicle grilles; vehicle horns;

vehicle mirrors; mudguards; roof racks for vehicles; vehicle suspension springs; suspensions and suspension systems for vehicles; steering wheels; steering columns and column switches; steering systems; torsion bars for vehicles; tow bars; windows for vehicles and window-raising mechanisms; windshield wipers; brakes, brake pads and brake linings for vehicles; caps for vehicle fuel tanks; fuel tanks for land vehicles; accelerator cables for vehicles; gear boxes for land vehicles; foot pumps for inflating vehicle tires; brake cylinders, clutch cylinders; Wind deflectors; rearview mirrors; seats and safety belts for vehicles; parts and accessories for all the above-mentioned goods; automobile dashboards.

Klasse 17 Flexible covers of rubber or plastic for protecting mechanical components; electrical insulators; cable ducts and clips of rubber or synthetic rubber; supports of rubber or plastic for motors and engines, transmissions, gearboxes and exhausts; Clutch linings; seals; sealants and caulking products; sealants; insulating materials; sealant compounds for joints; parts and accessories for all the aforementioned products, all intended for use in relation to land vehicles; cylinder head gaskets.

Klasse 21 Funnels; brushes; cloths for cleaning; Cloths for dusting; polishing cloths; polishing cloths (not abrasive); sponges; feather dusters; chamois for cleaning; steel wool; all the foregoing for use in relation to vehicle servicing.

Klasse 27 Mats, intended for use in relation to land vehicles.

Klasse 35 Retail services for automotive parts and products intended for servicing land vehicles; online retail store services relating to automotive parts and to products intended for servicing land vehicles; import-export agency services in the automotive field; wholesale services for automotive parts and products intended for servicing land vehicles.

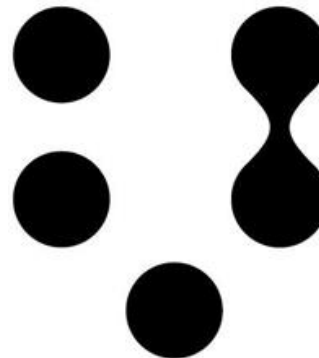

Klasse 37 Vehicle repair services; vehicle maintenance services; installing and servicing replacement parts for motor vehicles; providing information with respect to repairing and servicing vehicles; providing information with respect to installing replacement parts for motor vehicles; cleaning, lubricating, servicing, polishing and repairing vehicles.

Klasse 9 Computer programs for use in transaction processing and financial applications; computer printers for printing documents; scanners; card readers, namely, electronic card readers, flash card readers, magnetic encoded card readers, data capture devices, namely, computer hardware and peripheral devices used for data communications and transmitting data; electronic and magnetic data sensors and computer peripherals; telephones, modems, multiplexers, computer network interface units, and computers for electronic transfer of data; data terminals, namely, mobile data terminals, handheld terminals, countertop terminals, portable terminals; credit card, debit card, loyalty card, magnetic card, smart card and transaction processing terminals for electronic transactions; electronic cash registers; point of sale terminals; computer peripherals and data entry and inquiry terminals for operations management and for processing and transferring credit and debit card transactions, payments and financial data and other data presented thereto, for retail, wholesale and service industry applications, for retail chains and outlets, superstores, department stores, hospitality and general merchandise industry applications and computer software for such terminals; computer software for retail management and supply chain optimization and management; computer software for single and multiple channel retailers, and computer software for use by specialty and general merchandise retail chains and outlets, superstores, department stores, hospitality, and general merchandise industries, all for sales and demand forecasting, front store, back office, and warehouse inventory analysis and management, showroom management and product orders, business management, marketing, merchandise planning, ordering, and allocation, catalog, promotion, and price analysis, intake and cash flow analysis, stock control, product tracking, loss prevention analysis, deliveries, acquisitions, replenishment, procurement, merchandising, distribution, customer follow-ups, sales analysis across distribution channels, sales, customer relationship management (CRM), customer loyalty programs, and CRM data compilation and analysis; computer software for use in management and analysis of sales information, inventory and other business data and processes at the front store, back office and head

- office, and to provide connectivity and integration between stores or business units; computer software for controlling a Point of Sale (POS) terminal configuration and parameters, and for collecting and managing data from the POS; computer software for use in controlling employees time, attendance, e-mail and messages; computer software for use in debit card, credit card, smart card, loyalty card and secure payment transaction processing, financial applications, and electronic transfer of financial data; computer software for use in financial, credit card, smart card, debit card, and electronic transaction security, access, and identification services; computer software and mobile device applications that issues and manages mobile ticketing and vouchers in the fields of travel, public transportation, entertainment, sports, culture events and municipal services; computer software for use in connecting a store computer to internet websites for credit card processing and e-commerce; computer software for use in secured transmission of information, namely, credit card details; computer programs for use in the management and processing of secured transactions over the Internet; computer program for management of invoices and debit notes; computer program for management of crediting and cancellation of financial transactions; point of sale terminals for management of sales, transactions, invoices, crediting and cancellation of financial transactions and for management of customer details; computer software for performing diagnostic, monitoring, troubleshooting and configuration functions on computer networks; interactive computer software for managing geographically dispersed computer networks; electronic controller for use to access to a computer network; communication software used to enable users to exchange and transfer data between two different handheld computers, portable computers or computer stations; secure terminals for the electronic transactions and transmission of data with a card or without contact.
- Klasse 35 Business marketing services; providing advertising and marketing services to others, namely, providing point-of-sale marketing programs to others in connection with payment technology; promoting the goods of others, namely, providing coupons, rebates and vouchers for the goods of others; management and analysis of sales information, inventory and other business data and processes at the front store, back office and head office, and provide connectivity and integration between stores or business units services; business management services in the field of electronic systems for defrayment, secured payment and retail management; business management consultation services in the field of electronic systems for defrayment, secured payment and retail management; sales management consultation services; marketing and advertising services in the field of electronic systems for defrayment, secured payment and retail management; marketing and advertising consultation services in the field of electronic systems for defrayment, secured payment and retail management; customer relationship management consultation services; customer relationship management services; management consultation services in the field of employee administration; providing advertising space by electronic means and global computer information networks; promoting the goods of others, namely, providing information regarding discounts, coupons, rebates, vouchers and special offers for the goods of others; dissemination of advertising for others via an online electronic communications network.
- Klasse 36 Financial transaction services, namely, providing secure and nonsecure commercial transaction and payment services using payment devices at point of sale; providing credit card, smart card, and debit card electronic payment authentication and verification services; providing electronic check, debit card, credit card, smart card, and electronic payment transaction processing services; mobile debit card, credit card, and electronic payment transaction processing services;
- wireless debit card, credit card, and electronic payment transaction processing services; payment processing solutions, namely, providing point-of-service electronic processing of debit and credit card transactions and electronic payments via electronic payment terminals; redeeming the vouchers of others for payment of goods or services; financial services in the field of retail and wholesale commerce, namely, financial transaction services, namely, providing secure commercial transactions and payment options for retail and wholesale commerce applications; financial and monetary affairs, namely, financial information, management and analysis services; services for authorizing and settling electronic payment transactions; electronic wallet (e-wallet) service, namely, stored-value account processing, namely, providing consumers with an e-wallet account for use in making secure electronic payments to merchants; electronic funds transfer; cryptocurrency payment processing.
- Klasse 37 Installation, repair, and maintenance services in connection with payment terminals, payment hardware, debit card and credit card readers, and electronic payment systems and apparatus; installation, repair, and maintenance services in connection with payment terminals, computer hardware used to transact payments, electronic debit card and credit card readers, and electronic payment system computer hardware and apparatus; providing customized installation and maintenance services in connection with electronic payment terminals, payment hardware, electronic debit card and credit card readers, and electronic payment apparatus; technical support services, namely, troubleshooting in the nature of repair of computer hardware used for secure payment and commercial transaction processing; professional consultancy and information relating to the repair of electronic and computer hardware equipment; technical support services, namely, troubleshooting in the nature of repair of computer hardware; technical assistance, namely, troubleshooting in the nature of the repair of computer hardware used in connection with payment technology.
- Klasse 38 Electronic transmission and streaming of digital media content for others via global and local computer networks; streaming of audio and video material on the Internet and to and from wireless and mobile devices; electronic transmission of data, documents and applications between computers and wireless and mobile devices; broadcasting of television programs featuring infomercials and point of sale teleshopping in taxis, at the gas pump, retail stores, kiosks and other locations; digital media network services, namely, broadcasting of programs via a global computer network, all in the fields of current news, weather, entertainment and advertising; Interactive delivery of video over digital networks; broadcasting services, namely, transmission of advertising programs and media advertising communications via digital communications networks; telecommunication services, namely, providing access to hosted applications, namely, software applications.
- Klasse 40 Custom manufacture of payment terminals and payment transaction processing systems; technical support services, namely, providing technical advice in connection with the manufacture of computer hardware, computer software, payment terminals, and payment transaction processing systems.
- Klasse 41 Providing training services in the field of customized installation and maintenance in connection with electronic payment terminals, payment hardware, electronic debit card and credit card readers, and electronic payment apparatus.
- Klasse 42 Leasing services for computer hardware and computer peripheral equipment for use in electronic financial and commercial transaction data terminals and point-of-sale transaction terminals and other machines where cash or means of payment are used for financial and commercial transactions; on-line security services, namely, providing security and related identification

information for electronically transmitted credit card, smart card and debit card transactions; installation, repair, and updating services in connection with software used in electronic payments terminals; research, design and product development services in connection with payment terminals and electronic payment systems; computer services, namely, monitoring services in connection with payment terminals, payment transaction processing systems, and network systems; product research and development; development of handheld, wireless and landline point-of-sale (POS) terminals, electronic cash registers, retail ATM units, kiosks with card payment capabilities including voucher printing, PIN pads, and smart card readers, as well as integrated PIN and smart card solutions, namely, electronic personal identification number (PIN) pads and smart card readers; development of computer software platforms for others which will enable on-site and call-center support services and that will with remote terminal management; development of computer software for others in the fields of electronic management of ATM devices, data management for prepaid electronic payment cards and data processing top-up management and back office solutions; development of computer software for others in the fields of electronic management of ATM devices, data management for prepaid electronic payment cards and data processing for business purposes; development of software for others for facilitating secure credit card transactions and financial management software; consultancy in the field of computer hardware and software (term considered too vague by the International Bureau - Rule 13 (2) (b) of the Regulations); computer programming for others; computer software design for others in connection with payment and financial transactions; maintenance and updating of computer software for others in connection with payment and financial transactions; computer system design; computer systems analysis in connection with payment and financial transactions; technical assistance in the nature of computer software troubleshooting used in connection with payment technology; providing platforms on the Internet, namely, an on-line payment interface; providing temporary use of online non-downloadable middleware for providing an interface between software applications, web browser and electronic payment systems; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware problems for payment terminals, and payment transaction processing software systems; providing technology information updates for computer hardware, software, payment terminals and payment transaction processing systems; maintenance and repair of computer software and technical support services, namely, providing technical advice on the design of computer hardware, computer software, payment terminals, and payment transaction processing systems; computer services, namely, providing temporary use of online non-downloadable computer software for information, namely, accessing financial data; industrial analysis and research services in the field of payment transaction processing, computer hardware, and computer software; design and development of computer hardware and software for others; technical support, namely, providing technical advice in connection with computer software; technical support services, namely, troubleshooting in the nature of diagnosing computer software problems for payment terminals, and payment transaction processing software systems; research, design and development services in connection with computer software, hardware, terminals, and electronic systems for use in debit card, credit card, smart card, and secure payment transaction processing, financial applications, security and identification services, and electronic transfer of financial data for use in the retail, retail franchise, department store, wholesale and service industry applications; research, design, and

development services in connection with computer software for retail management and supply chain optimization and management, computer software for single and multiple channel retailers, and computer software for use by specialty and general merchandise retail chains and outlets, superstores, department stores, hospitality, and general merchandise industries, all for sales and demand forecasting, front store, back office, and warehouse inventory analysis and management, showroom management and product orders, business management, marketing, merchandise planning, ordering, and allocation, catalog, promotion, and price analysis, intake and cash flow analysis, stock control, product tracking, loss prevention analysis, deliveries, acquisitions, replenishment, procurement, merchandising, distribution, customer follow-ups, sales analysis across distribution channels, sales, customer relationship management (CRM), customer loyalty programs, and CRM data compilation and analysis; technical support services associated with computer software used for electronic payment terminals, and electronic payment transaction processing software systems; development of software for facilitating secure credit card and debit card transactions and financial management; providing temporary use of non-downloadable computer software for retail management and supply chain optimization and management, computer software for single and multiple channel retailers, and computer software for use by specialty and general merchandise retail chains and outlets, superstores, department stores, hospitality, and general merchandise industries, all for sales and demand forecasting, front store, back office, and warehouse inventory analysis and management, showroom management and product orders, business management, marketing, merchandise planning, ordering, and allocation, catalog, promotion, and price analysis, intake and cash flow analysis, stock control, product tracking, loss prevention analysis, deliveries, acquisitions, replenishment, procurement, merchandising, distribution, customer follow-ups, sales analysis across distribution channels, sales, customer relationship management (CRM), customer loyalty programs, and CRM data compilation and analysis; providing temporary use of non-downloadable computer software for use in management and analysis of sales information, inventory and other business data and processes at the front store, back office and head office, and provide connectivity and integration between stores and business units; providing temporary use of non-downloadable computer software for controlling a Point of Sale (POS) terminal configuration and data parameters, and for collecting and managing data from the POS; providing temporary use of non-downloadable computer software for use in controlling employees time, attendance, e-mail and messages; leasing services for electronic data terminals and point-of-sale terminals and other machines where cash or means of payment are used; leasing services in connection with computer software and hardware; leasing of computer hardware, point-of-sale terminals, PIN pads, peripheral devices, check scanners, electronic payment terminals, mobile electronic payment devices, and commercial transaction and payment processing software; providing online non-downloadable computer software for use in secure processing of commercial transactions and payments via credit card, debit card, smart card, loyalty card, gift card, stored value card, electronic benefits transfer (EBT) card, bank transfer, electronic check and electronic payments over a global computer information network; providing temporary use of online non-downloadable software to enable secure electronic payment and commercial transaction acceptance and processing, and to record, manage, and generate reports related to electronic payment and commercial transaction processing; installation, repair, and maintenance of computer software; providing computer software updates for others; installation, maintenance and repair of software used for electronic payments;

providing customized installation and maintenance in connection with software used for electronic payments; development and operation of electronic payment systems of all kinds, namely, payment terminals, electronic payment transaction processing, and estate management for merchants; consultation services in connection with software and hardware requirements for use in connection with secure payment and commercial transaction processing and data consolidation; installation, repair and maintenance services in connection with payment software.

Klasse 45 Providing identification verification services, namely, providing authentication of personal identification information in relation to credit cards, smart cards and debit cards; computer security services, namely, monitoring services in connection with electronic payment terminals, electronic payment transaction processing systems and computer network systems for security purposes; identification verification services, namely, providing authentication of personal identification information.
